

City of San Benito, Texas

Adopted Operating Budget

**FISCAL YEAR
2014-2015**

CITY OF SAN BENITO, TEXAS

Adopted Operating Budget

Fiscal Year 2014 - 2015

Due to the passage of S.B. No. 656, Section 102.007 of the Texas Local Government Code was amended to require that the following information be included as the cover page for a budget document:

This budget will raise less total property taxes than last year's budget by \$73,962 or 1.91% and of that amount \$60,719 is tax revenue to be raised from new property values added to the tax roll this year.

The members of the governing body voted on the proposal to consider the budget as follows:

For: Mayor Celeste Z. Sanchez, Mayor Pro Tem Antonio Gonzales, Commissioners Rene Villafranco, James D. Penny, Joe D. Gonzalez.

Against:

Present and not voting:

Absent:

Property Tax Rate Comparison	2014-2015	2013-2014
Property Tax Rate:	\$0.728125/100	\$0.728125/100
Effective Tax Rate:	\$0.721055/100	\$0.719101/100
Effective Maintenance & Operations Tax Rate:	\$0.831808/100	\$0.852242/100
Rollback Tax Rate:	\$0.893822/100	\$0.810549/100
Debt Rate:	\$0.071281/100	\$0.071281/100
Total debt obligation for the City of San Benito secured by property taxes	\$7,687,005	\$7,199,450

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

PROFILE OF THE CITY

One hundred and three years ago, a group of wise and visionary pioneers from the United States and Mexico first named the area “Diaz”, in honor of Mexico’s president at the time, Porfirio Diaz. On July 4, 1904, the first passenger train arrived in town. With the advent of irrigation from the Rio Grande River, this once arid wilderness developed into an agricultural empire, rich in a wide variety of fruits, vegetables, cotton and grain.

The City’s first school, post office and town-site development occurred in 1907. It was during that time that the City’s name was changed to San Benito, in honor of Benjamin Hicks, a benevolent businessman who was highly regarded by the people of the community. In 1911 San Benito was incorporated.

Today the City’s incorporated area includes more than sixteen miles of territory and a population of over 25,000.

San Benito is located at the tip of Texas in the center of Cameron County. The City is located on Interstate Highway 77 (Interstate 69E), about 10 miles south of Harlingen, 20 miles north of Brownsville, and 40 miles east of McAllen in the Rio Grande Valley. The City enjoys a strategic location in Cameron County via Interstate 69E that runs north and south through the City and provides a direct connection between Harlingen, Brownsville, the international trade bridge at Los Indios and access to South Padre Island.

San Benito is known as the Resaca City, thanks to the picturesque waterway which meanders through this rich historic community.

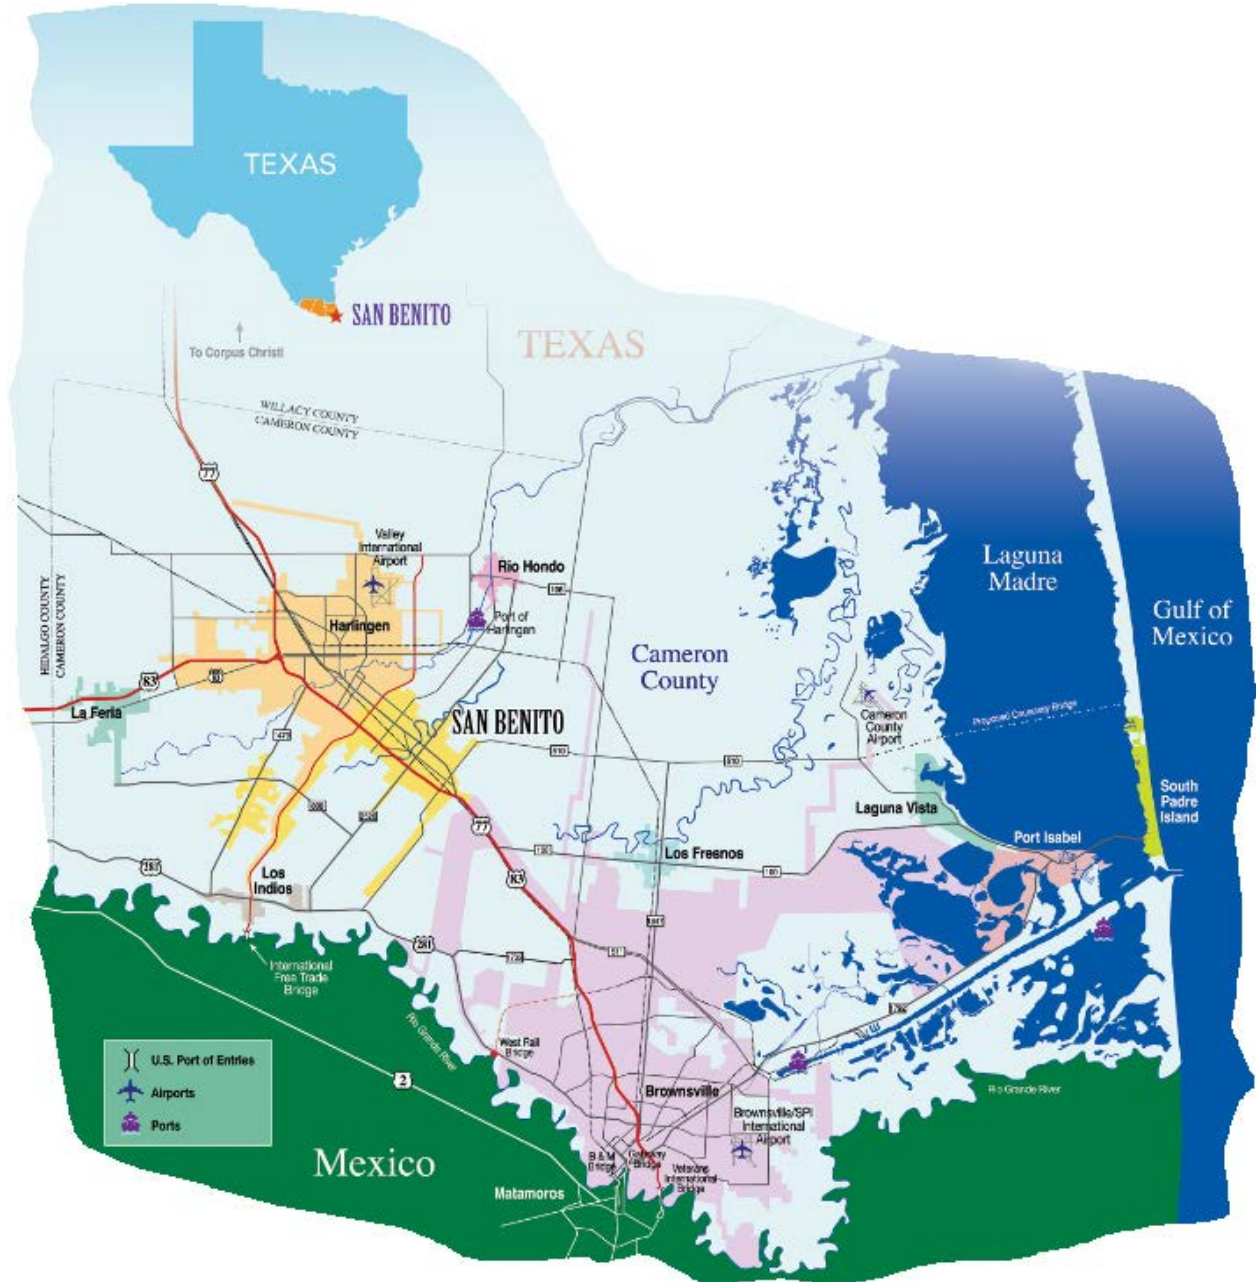

The Resaca is fed by the Rio Grande River and serves as the primary irrigation, residential and commercial water system for the City. Climate and geographic location are factors in the City’s success. Mild winters and close proximity to old Mexico and the Gulf of Mexico attract visitors who are eager to share the area’s rich cultural and natural ecological and environmental beauty.

The City of San Benito was incorporated on July 29, 1911.

The City operates under a Home Rule Charter, which was adopted on July 30, 1920. The government body has a commission-manager type of government composed of the City manager, mayor, and four commissioners elected for three-year terms.

The City Manager is the chief administrator and executive officer for the City and has full responsibility for carrying out Commission policies and administering City operations, including hiring department Directors and all other City employees.

City service departments provide a full range of services including police and fire protection, building inspections, animal control services, parks and recreation services, library services, public works services and general administrative services (administration, human resources, planning, municipal court and finance). In addition, the City of San Benito also provides water, wastewater services, and solid waste collection.

The City's estimated population at 2013 was 25,250. The City's is part of a larger metropolitan area population of approximately ninety thousand.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

CENSUS DATA			
Metro Area Population	90,049

Labor Force Projection (2018)	11,106

Local Economy

The City's economy is positively impacted by the North American Free Trade Agreement (NAFTA), the growth of manufacturing plants and the shipping industry of fruits and vegetables via the international bridge. The maquiladora (twin manufacturing plant) industry operates on the concept of manufacturing performed in Mexico with support facilities on the U.S. side. San Benito is just minutes from the Free Trade International Bridge at Los Indios, which it partially owns. The bridge is one of the most modern ports of entry of South Texas, and provides a quick route to the Mexican border cities of Matamoros, Reynosa and Valle Hermoso, as well as the interior industrial city of Monterrey.

San Benito's economy is supported by two major retail developments Wal-Mart and HEB.

In addition to the San Benito Independent School District, Idea Public Schools is offered to the citizens of San Benito and surrounding cities including Harlingen. Both the San Benito Independent School District and the IDEA Public Schools have expanded and improved their structures in order to accommodate growth.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

The South Texas Academy for Medical Professions is also located within the City and serves as an alternative to larger high schools for students interested in pursuing careers in medical technology.

During 2013, the City entered into a partnership with Versa Development to build a 152 unit apartment complex on a major thoroughfare through the City. Versa approached the City and offered to participate in one half of the cost of the infrastructure necessary to complete the project. This infrastructure will allow for additional future growth within the area. The apartment complex is expected to open in mid-fiscal 2015.

Economic Outlook

The economic outlook for the City of San Benito continues to be favorable. Southwest Key Programs has established two facilities within the City. The organization employs approximately 395 individuals responsible for the care and education of unaccompanied minors, from foreign countries, primarily Mexico. These jobs are incremental and provide additional stimulus to the City's economy in the form of sales taxes (primary) and property taxes for those choosing to locate within the City (secondary).

Business construction permits within the City increased from 2013 levels of \$11.23 million to \$12.27 million during 2014. Local builders continue to build new homes within the City.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

The newly completed Mexican federal super highway 40 connects the Pacific Ocean to the Gulf of Mexico at the Port of Brownsville. Mexican 18-wheel freight haulers will be able to reach the Port in less than 12 hours driving time. It is estimated that additional large trucks loaded with fresh produce cargo from Mexico's Sinaloa agricultural region will cross the Free Trade International Bridge at Los Indios.

Free Trade Bridge
Los Indios, Texas - Lucio Blanco, Tamaulipas
*(Shown is the entry into the U.S.
Mexico is toward the lower left.)*

The establishment of a new medical school under the University of Texas, Health Science Center at San Antonio in nearby Harlingen will offer additional educational and economic opportunities.

In August 2014, Space Exploration Technologies Corporation ("SpaceX") announced that it will build a commercial launch facility outside of neighboring Brownsville. With an investment of approximately \$85 million, the company intends to expand its work in Texas as a commercial launch complex for orbital missions. This project is expected to create high-

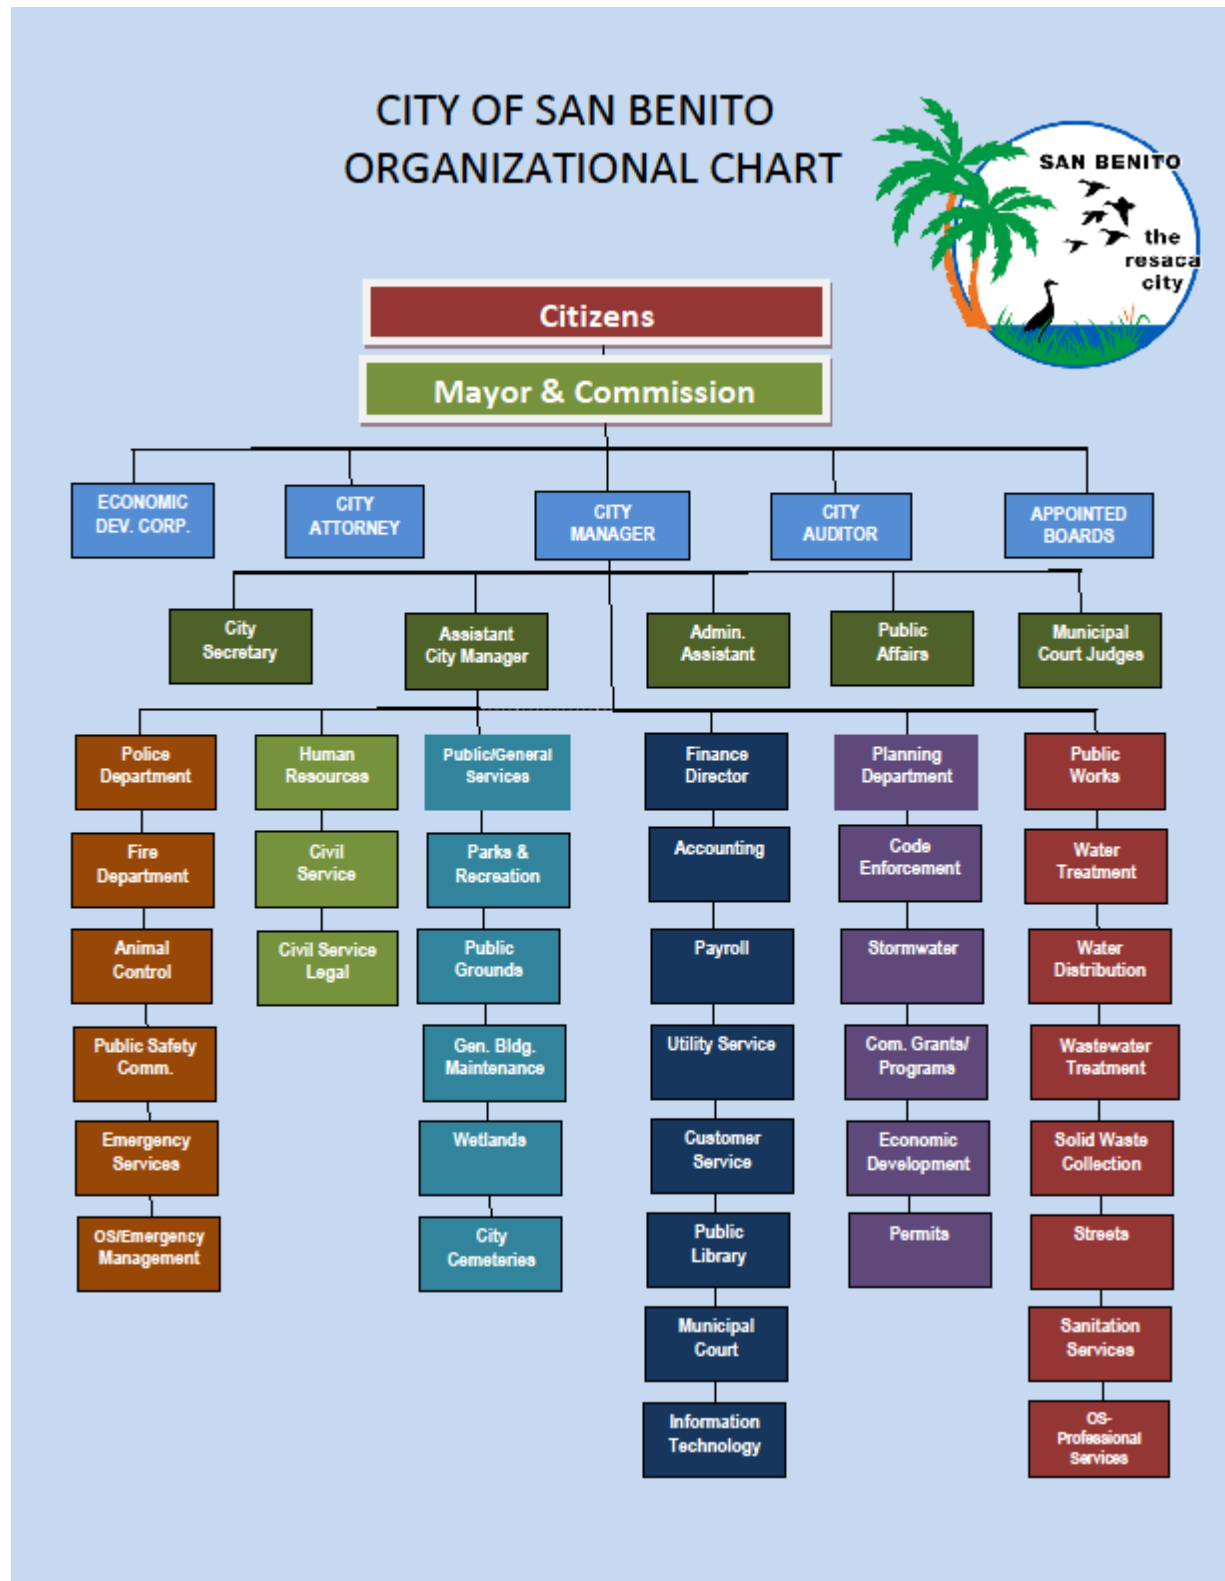

tech jobs, expand the supplier base and become a tourist attraction – similar to those experienced at Florida's Kennedy Space Center.

In 2013 the University of Texas approved a transformational plan to create a new university in South Texas. The University of Texas, Rio Grande Valley (UTRGV) will become operational in the fall of 2015 as a single institution. The University will have a presence in Brownsville (formerly UT Brownsville), Edinburg (formerly UT Edinburg), Harlingen and McAllen. The university will also be home to a new school of medicine. The addition of employment opportunities, housing demands and commerce are anticipated within the City.

Texas LNG, LLC, a Houston based energy company has announced plans to construct a liquefied natural gas export facility at the Port of Brownsville. The company proposes to process treated pipeline gas sourced from domestic gas networks for export into Free Trade and Non Free Trade markets. We anticipate that the economic development from the Eagle Ford Shale gas formation will have positive implications for both San Benito and all the communities within the Rio Grande Valley.

ORGANIZATIONAL CHART

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

BUDGET MESSAGE AND EXECUTIVE SUMMARY

To: Citizens of San Benito, Honorable Mayor and members of the City Commission
From: Manuel Lara, City Manager
Date: September 16, 2014
Subject: Fiscal 2014-2015 Annual Operating Budget

I am pleased to present the following proposed budget for the 2014-2015 fiscal year. In accordance with City Charter and policy, the budget is a balanced budget. This year's budget presents a plan in financial terms to accomplish the objective established for the upcoming year.

The proposed budget is based on conservative growth and modest economic recovery. Every attempt has been made to anticipate and meet the demands for services of the community we serve while utilizing the available resources as effectively as possible. This budget will become the basis by which City staff will manage the funds provided and will become a management tool for oversight of each department's activities.

The General, Utility, Community Development Block Grant, Debt Service and Economic Development funds are appropriated by ordinance. The Hotel / Motel Tax Fund, Tax Increment Reinvestment Zone Fund, UTHSCA – Wellness Grant and USDC – EDA Museum grant funds are presented within this document but are not appropriated by ordinance.

The General Fund's 2014-2015 budget allocates \$11,348,360 toward the provision of services to the Citizens of San Benito. This operating budget is \$243,638 or 2.1% less than the fiscal 2013-2014 operating budget. The budget provides additional core service funding for Police, Fire, Code and Storm-water, Public Grounds, Parks and Recreation and the Public Library. The budget includes a merit increase for non-exempt employee of up to \$.40 per hour. Health care insurance increases of approximately seven percent (7%) are included within the General Fund's budget. No amount of this increase has been passed through to the employees. There were no amounts budgeted for capital outlay for the upcoming fiscal period.

The City's Proprietary Fund operating budgets are balanced; expenditures are equal to revenues. The Water production and Wastewater funds reflect decreases from the fiscal 2013-2014 operating budgets of \$19,562 and \$214,123, respectively. These decrease are a result of projections of less water consumption during fiscal 2014-2015. Health care insurance increases of approximately seven percent (7%) are also included within these Funds' budgets. The Solid Waste Collection fund's fiscal 2014-2015 operating budget is greater than the fiscal 2013-2014. Increases in this fund are the result of scheduled contractual consumer price index adjustments charged by the service provider. These increases are passed through to the customers.

The proposed budget anticipates modest growth within the City during fiscal 2015. The following strategic principles are reflected within the proposed budget document.

- By maintaining high-grade ratings from Standard & Poor's, Fitch and Moody's, the City will demonstrate its continued fiscally sound performance.
- Expenditures do not exceed revenues – General Fund budget and Proprietary Fund budgets are balanced
- The total current tax rate is unchanged and remains at \$0.728125 per \$100
- Revenue amounts allocated for maintenance and operations (M&O) and Debt Service (I&S) are unchanged from the prior year

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

- Prioritized programs – City Commission and staff have prioritized General Fund programs for Police and Fire protection and the further development of the City’s public grounds and parks and recreation activities.
- Continue and expand existing street projects
- Maintenance of cash reserves in excess of 90 days for the General and Proprietary funds

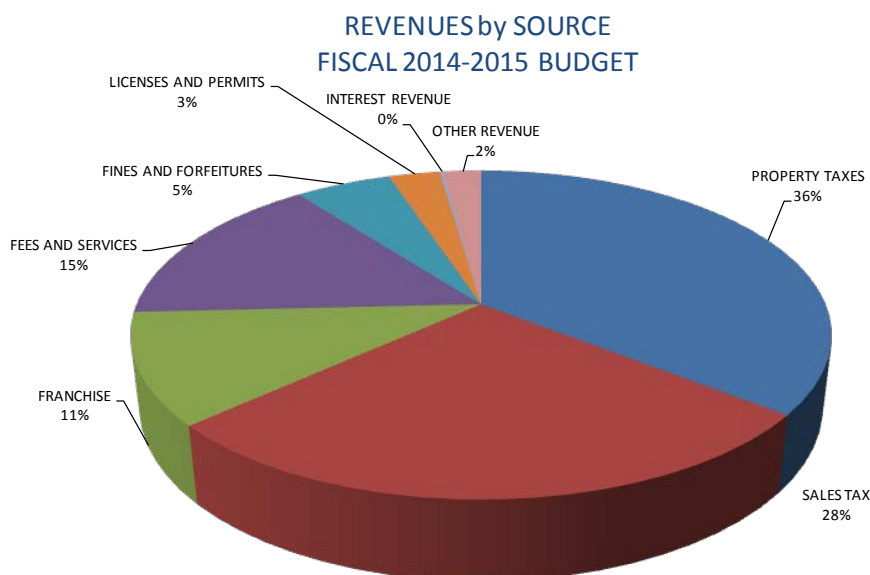

Executive Summary

General Fund - Major Revenues

The City of San Benito continues to experience positive growth. While the last two years have shown increases from those experienced during the economic decline that began in 2008, we are guardedly optimistic about our projections for the 2014-2015 fiscal year.

	2011-2012 ACTUAL	2012-2013 ACTUAL	2013-2014 BUDGET	2013-2014 PROJECTED	2014-2015 BUDGET	OVER/(UNDER) PRIOR BUDGET
PROPERTY TAXES	\$3,737,765	\$4,003,452	\$ 3,904,763	\$ 3,904,763	\$ 3,990,330	\$ 85,567
NON-PROPERTY TAXES	4,068,457	4,005,737	4,320,664	4,322,090	4,325,500	4,836
FEES AND SERVICES	730,948	1,293,769	1,678,911	1,716,758	1,721,108	42,197
FINES AND FORFEITURES	500,729	501,182	578,400	565,751	593,400	15,000
LICENSES AND PERMITS	419,924	271,975	234,000	302,880	316,500	82,500
INTEREST REVENUE	6,853	9,452	18,100	11,825	19,000	900
MISCELLANEOUS REVENUE	508,220	200,392	209,000	191,439	290,160	81,160
TOTAL OPERATING REVENUES	9,972,896	10,285,959	10,943,838	11,015,506	11,255,998	312,160

The following assumptions were used to budget for the sources needed to provide City’s services and activities for the 2014-2015 operating budget cycle.

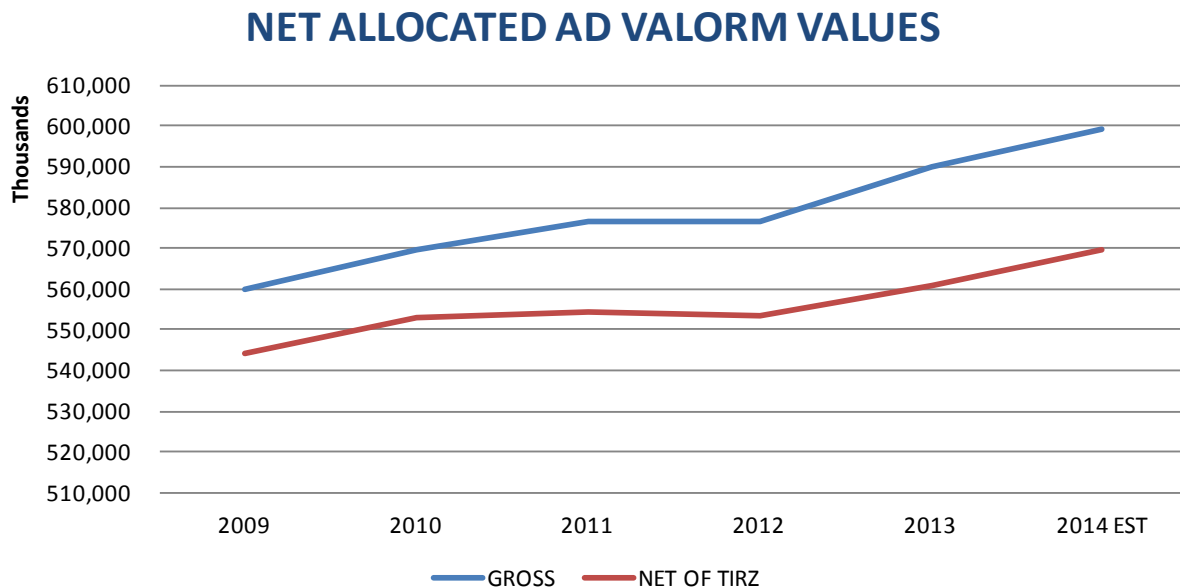

Property Taxes represent 35.45% of the total fiscal 2014-2015 budgeted operating revenues. Revenue projections were increased \$85,567 or by approximately 2%.

This modest increase reflects no change to the current property tax rate, no change in the allocation between operating / maintenance and the debt portions of the tax, an estimated collection rate of 95% and minor increases in valuations from the prior year.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

The following table illustrates net allocated values for the past five years in total and net of the values related to the City's Tax Increment Reinvestment Zone (TIRZ).

The TIRZ fund was authorized in 2009 to fund infrastructure projects for economic development in designated areas of the City.

The City agreed to allow incremental tax revenue from property values within the TIRZ to be used for infrastructure projects within the zone. The 2014 captured appraised value for the TIRZ was \$15,575,165 and was certified by the Cameron Appraisal District. Increased values from the base established in 2009 are not included in the City's taxable value for the calculation of revenue from property taxes.

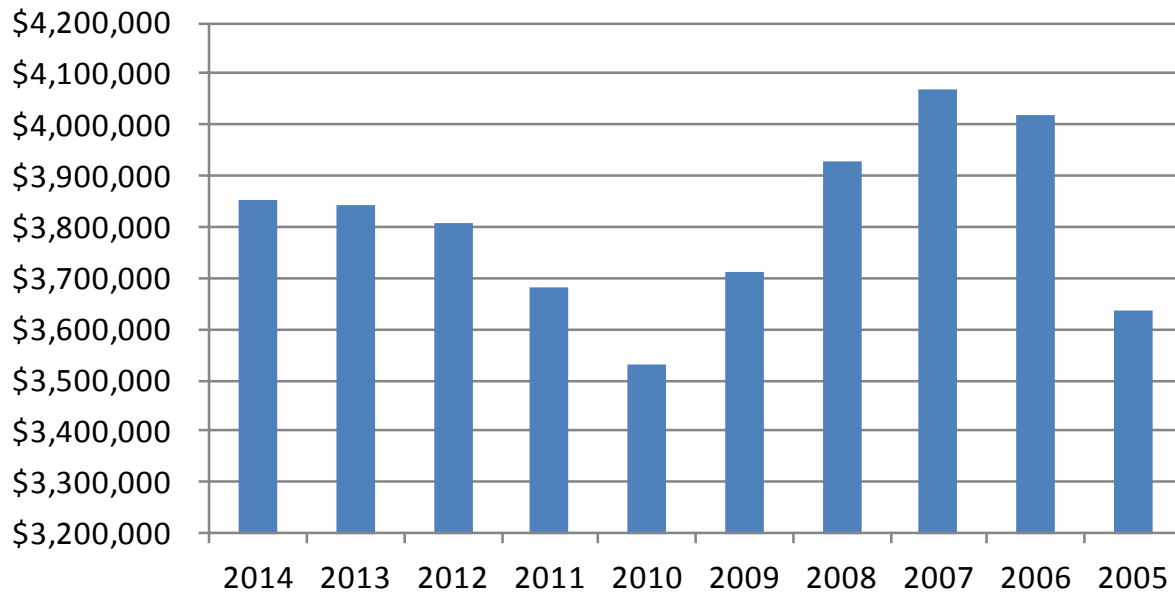

Sales Taxes represent 27.54% of the total fiscal 2014-2015 budgeted operating revenues. Sales tax revenue projections are budgeted equal to last year's budget of \$3.1 million due to anticipated modest economic growth and the amount of actual sales tax revenues received year to date.

While sales taxes have increased favorably from two years ago, the City has not experienced significant recoveries from levels experienced in 2006 through 2008.

The following table illustrates sales tax revenues for the last ten years.

Sales Tax

Building permit revenue is projected to increase 35.2% from fiscal 2014. These projections are based on a new multi-family apartment complex and several commercial developments in process.

Transfers

Transfers from the utility fund of \$1,279,411 remain the same as the previous year.

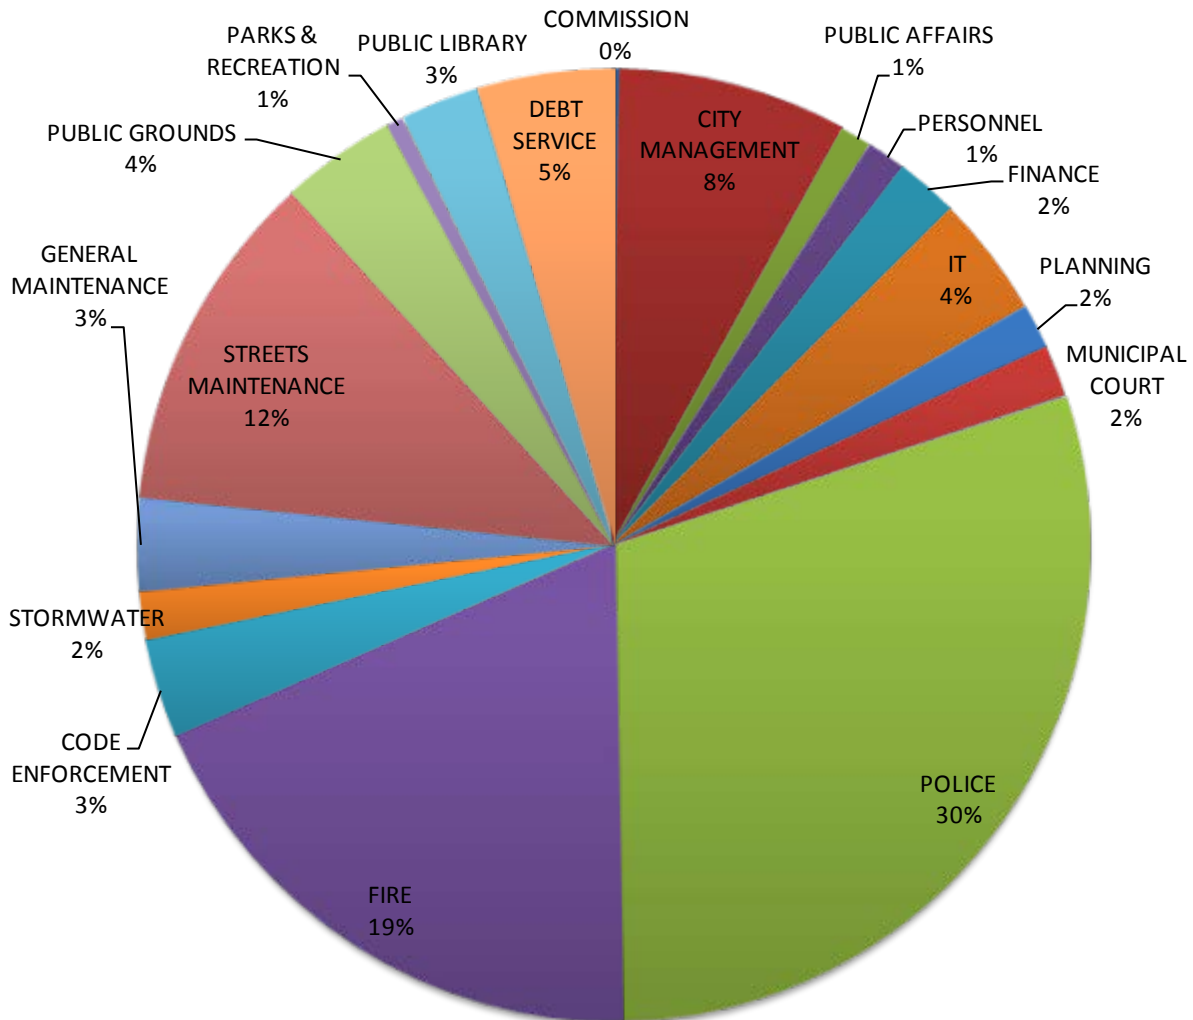

The General Fund budget for fiscal 2015 does not require a transfer from fund balance to cover projected expenditures.

General Fund Expenditures

Budgeted expenditures for operations and maintenance activities of \$11,348,360 are \$243,638 or 2.15% below that of prior year's budget. The following chart illustrates the projected use of funds on a percentage bases for the general fund.

GENERAL FUND EXPENDITURES FISCAL 2014-2015 BUDGET

The Police and Fire departments are the largest functions of the General fund with total expenditures of \$3.382 and 2.127 million or 30% and 19%, respectively. Police and Fire department budgets increased from the prior year budget due primarily to a \$.40 per hour increase for all civil service employees.

Utility Funds

The City's Utility funds include Water Production, Wastewater and Solid Waste Collection. The Water Production and Wastewater funds account for the operations of the City's water and sewer utilities which includes the production and distribution of drinking water to the collection and treatment of wastewater. These funds primary revenue source is service fees that are collected monthly from customers.

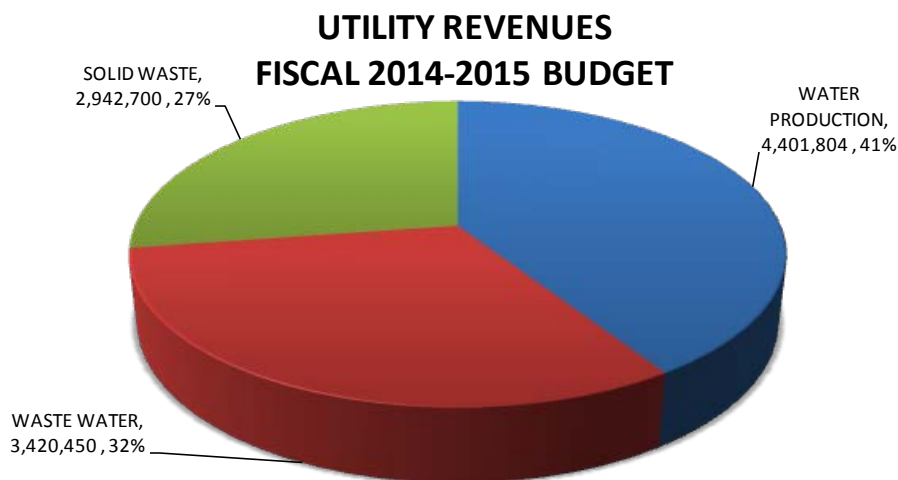

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

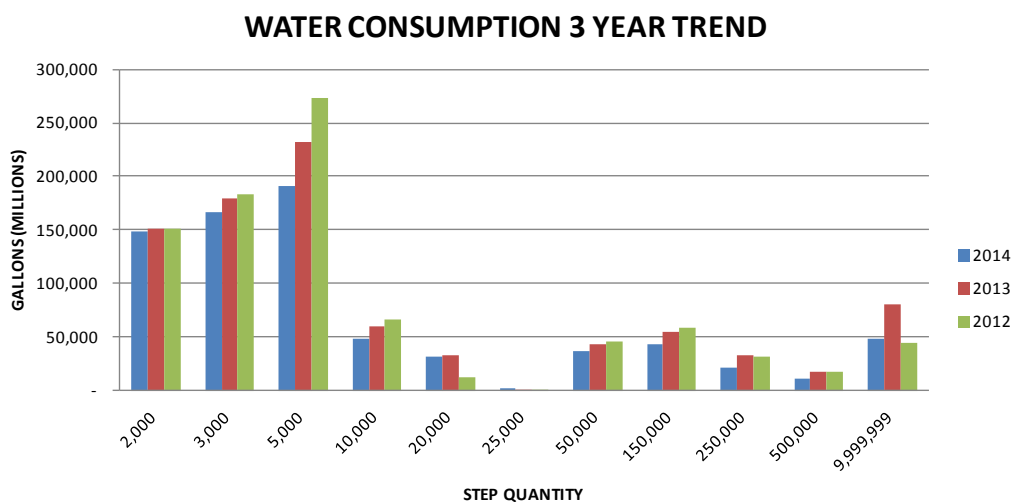

The Solid Waste Collection fund operates on a contractual, privatized bases and consists of revenues billed to customers for services rendered by a third party. Allied Waste / Republic Services serves as the City's current provider for Solid Waste collection. The billing and customer service functions are performed by City staff. Collection services are performed by Allied Waste personnel.

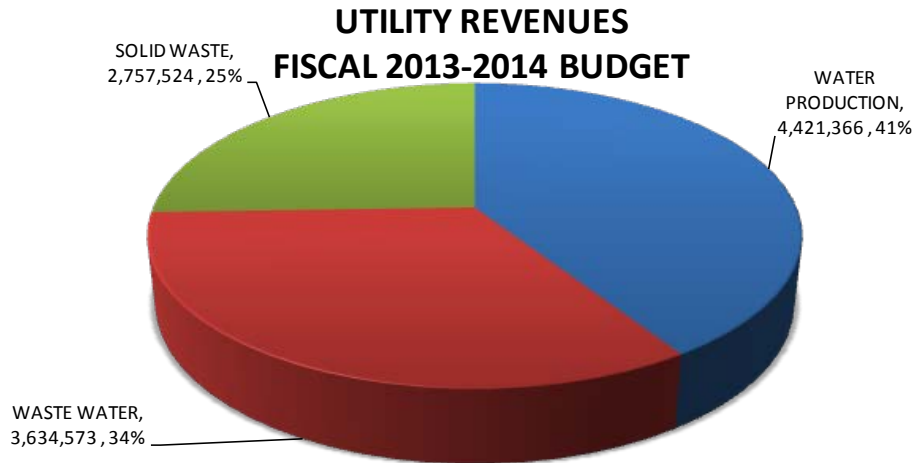

The Rio Grande River is the source of the City's water supply. Water is diverted from the river into a Resaca. From the Resaca the water is purchased from the Cameron County Irrigation District #2 and is treated and distributed by the City to customers throughout the system.

The City recognizes the pressures of drought and population growth on the water supplies throughout the region and the State. The City of San Benito is impacted by these pressures as well. The City continues to explore alternate sources of this resource including the installation of wells and desalinization.

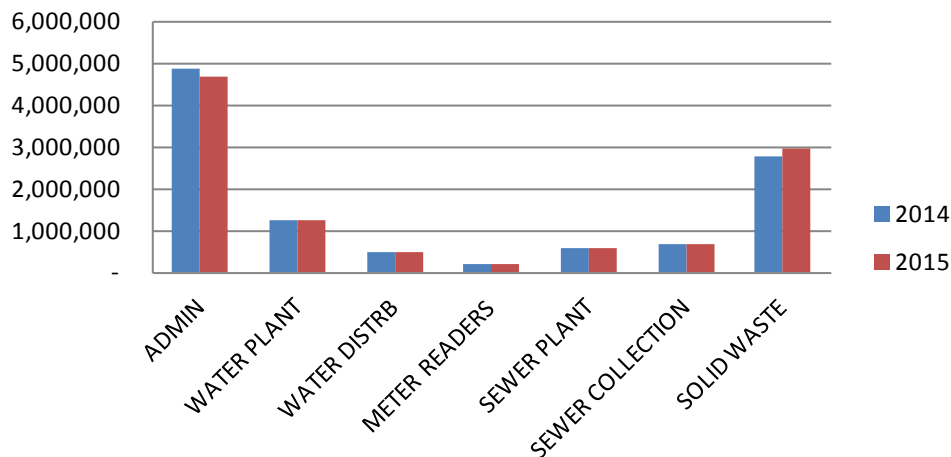

Fiscal 2014 Utility revenues have been below of those of the prior two years. We believe this to be a function of current weather patterns, (a locally wetter year) and changes in household water usage. As a result, the composition of budgeted utility revenues for fiscal 2014-2015 are relatively consistent with those of fiscal 2013-2014 as illustrated below.

In accordance with the revenue projections, budgeted expenses for the Water and Waste Water funds are lower than last year.

UTILITY FUNDS BUDGETED EXPENSES

In 2007 and in 2011 the Utility issued certificates of obligation for the expansion, improvement and replacement of City water and sewer systems. Proceeds of \$5.130 and \$7.430 million are being used for these purposes from the 2007 and 2011 issuances, respectively.

Funding for these debt service requirements is included within the budgets of the Water Production and Wastewater Funds.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

ESTIMATED FINANCIAL POSITION, REVENUES AND EXPENDITURES

The table below illustrates total sources, uses and projected fund balance positions at September 30, 2015 for all budgeted funds. A detail of each fund is identified and explained within the individual funds summaries appearing later within this document.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

COMPREHENSIVE PLAN

The City entered into an agreement for the development of a Comprehensive Plan (the Plan) in mid fiscal 2014. The project is underway at this time. The Comprehensive plan will set forth a vision for the City's future land use, physical and economic development and help to prioritize capital projects.

The Plan will act as a long range policy document which will be adopted by the City Commission, once completed. The Plan will establish action items for future growth and development which will include infrastructure, public works projects, land use designations, service boundaries, park and recreational areas and streets.

The Plan is expected to be completed before July of fiscal 2015.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

THE BUDGET PROCESS

Budgeting is an essential element of sound financial management. Budgeting is especially important for the City of San Benito. This year's budget serves four purposes:

1. To set policy – the budget represents the policy by which specific funding decisions will be made. Beginning in May, City management, the City Commission and department directors review the activities necessary to provide programs and services to the citizens.
2. To act as a control over revenues and expenditures – the budget acts to ensure the efficient and effective delivery of services to the citizen's during the course of the year. The budget establishes performance guidelines and benchmarks that are used to monitor the City's and each department's progress in the delivery of services.
3. To serve as a financial planning tool – the budget acts as a guide for determining the amounts of resource inflows needed for anticipated programs and activities (outflows). The budget also contemplates unanticipated events and provides a process for periodic adjustments.
4. To communicate policy – the budget describes the activities and related services that will be provided to the citizens in a manner that is both understandable and sufficiently detailed to reflect the City's commitment and responsibility to its constituency.

The City's budget is mandated by State law and the budget process is outlined in the City's charter. Annual budgets are adopted on a basis consistent with Generally Accepted Accounting Principles for all governmental funds except for capital project funds which adopt project – length budgets. The General, Debt Service, Community Development Block Grant, Water Production, Wastewater and Solid Waste funds use formal budgetary integration as a management control device during the year.

The legal level of budgetary responsibility is the department level. Any revisions that alter individual expenditure categories or department totals within a fund must be approved by the City Commission.

The City's fiscal year begins on October 1 and ends on September 30 as established by the City Charter. The Charter requires the City manager to submit a proposed budget and an accompanying budget message to the City Commission each year.

The planning and efforts made to present a balanced budget for review and approval begin months earlier than the October 1 budget adoption deadline. In April, the City manager and Finance staff began planning for next fiscal period's budget cycle. A budget calendar is distributed to the department directors. The budget calendar outlines the target dates for the completion of each step in the budget process.

City Commission members hold a retreat to discuss and prioritize goals for the coming year. In May, the department directors receive budget packets from the Finance Department. These packets include information about the department's current spending and a comparison of what was budgeted in the prior year.

While the department directors are preparing their budget requests, the Finance department works with the City manager to develop the revenue projections for the next fiscal period. Revenue projections are based on current and anticipated economic trends.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Budget workshops are held with the department directors, City manager and Finance to discuss the department's needs and "wish list" for the upcoming year. The City manager reviews each request and adjusts the budget as necessary. The budget must be balanced; revenues must equal expenditures as required by the charter.

Once the budget is balanced, the City manager presents the budget to the City Commission for review. Department directors are available for questions from the Commission. A series of workshops are held; usually between July and September, for the City Commission to evaluate the proposed budget in relation to their goals and objectives. The budget workshops are open to the public and the notices are posted in accordance with the State law.

The City Charter requires public hearings be held before the budget is adopted. These hearings provide an opportunity for the citizens to express their ideas and opinions about the budget to their elected officials. Once the public hearings have been conducted, the City Commission votes on the adoption of the budget.

The budget is approved and an ordinance is signed by the mayor which outlines the appropriations for funds that have legally adopted budgets. The Commission adopts the tax rate ordinance during the same meeting as the budget ordinance.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

BUDGET PREPARATION AND ADOPTION SCHEDULE

May 12 – 29	Budget workshops with department directors
June 2-5, 16-18	Budget workshops with department directors
June 30	Due date for Directors to submit budget changes
July 4	Finance submits draft budgets to City Manager

August 26	First public hearing on proposed tax rate
September 2	Second public hearing on proposed tax rate
September 8	4 th City Commission Budget Workshop
September 9	First reading of Budget Appropriation Ordinance / First vote on tax rate and first reading of tax ordinance
September 16	Second reading of Budget Appropriation Ordinance / Second reading on tax rate ordinance

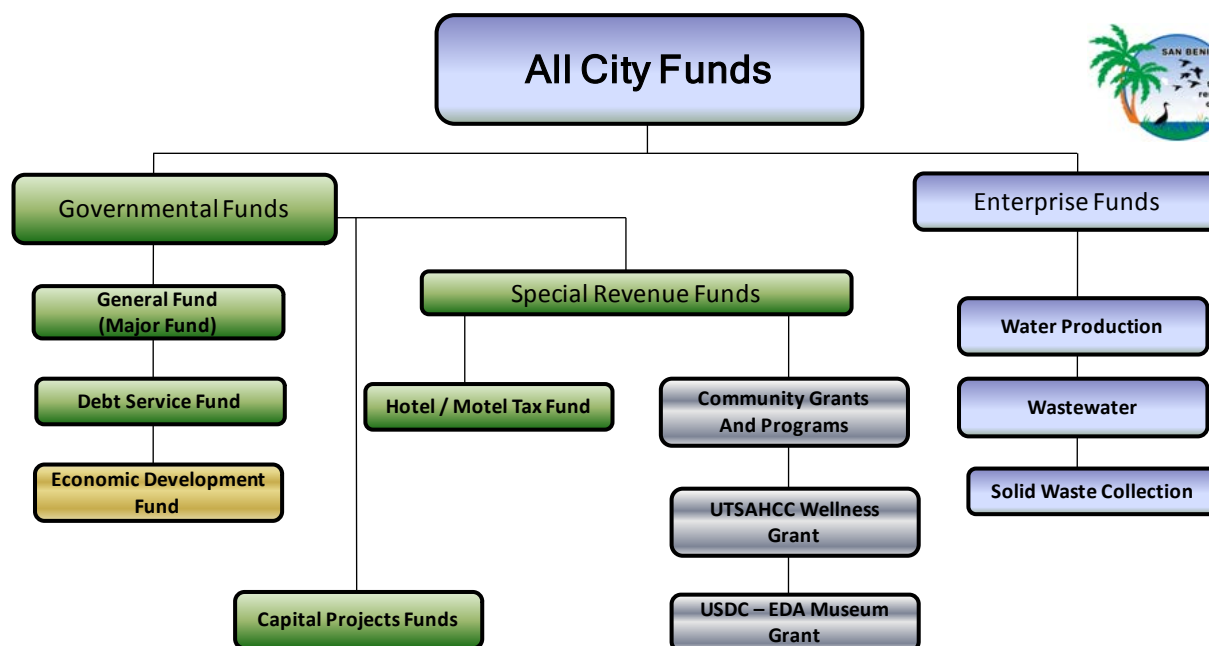

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

FUND DESCRIPTIONS, FUND STRUCTURE, BASIS OF ACCOUNTING AND BUDGETING

GOVERNMENTAL FUNDS

Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund type budget statements within this document provide a detailed short-term view of the City's general government operations and the basic services to be provided. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the resources that can be spent in the near future to finance the City's programs. The City's Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from its business-type activities, which primarily rely on fees and charges.

The **General Fund** is always considered a major fund. Other governmental funds are reported as major funds if the fund reports at least 10 percent of any of the following:

- a) total governmental fund assets,
- b) total governmental fund liabilities,
- c) total governmental fund revenues, or
- d) total governmental fund expenditures, excluding other financing sources and uses.

The City reports the following fund types and related major governmental funds:

The **General Fund** is the primary operating fund for the City. It accounts for all of the financial resources of the general government, except those required to be accounted for in another fund. It includes most tax revenues and such services as public safety, inspections, planning, and administration.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

The **Debt Service Fund** accounts for the financial resources accumulated for the payment of principal, interest and related costs for long-term debt primarily from ad valorem taxes levied by the City. The fund balance of the Debt Service fund is restricted to identify those amounts that can be used for debt service only.

The **Special Revenue Funds** are used to account for the proceeds of specific revenue sources, other than those established for major capital projects that are legally restricted to expenditure for specified purposes. The City does not report any special revenue funds as a major fund. The following Special Revenue Funds are budgeted:

- Community Development Block Grant (CDBG) is used to account for the annual entitlement grants received from the U.S. Department of Housing and Urban Development.
- Hotel/Motel Tax Fund is used to account for the 7% occupancy tax revenues received from hotels and motels within the City.

Capital Project Funds are used to account for the acquisition and construction of major capital assets other than those financed by proprietary funds and trust funds.

PROPRIETARY FUNDS

The proprietary funds are used to account for the operations of Water production, Wastewater and Solid Waste funds. These funds are financed and operated in a manner similar to private businesses where the goods and services provided are financed through user fees and charges. The budgets for these funds are also prepared using the modified accrual basis of accounting and the current financial resources measurement focus. The budget measures the change in net position (assets less liabilities).

The Water Production fund includes four activities (departments) established to account for its operations. These activities include administrative services, water production, the water distribution system and the utility customer service.

The Wastewater fund accounts for the three activities necessary to provide sewer collection and treatment services to the residents of the City. These activities include administration services, wastewater system operations and collections.

The Solid Waste Collection fund operates on a contractual, privatized bases and consists of revenues billed to customers for services rendered by a third party. Allied Waste / Republic Services serves as the City's current provider for Solid Waste collection. The billing and customer service functions are performed by City staff. Collection services are performed by Allied Waste personnel.

SAN BENITO ECONOMIC DEVELOPMENT CORPORATION (SBEDC)

The SBEDC is a component unit of the City of San Benito. It operates with its own independent budget and has a board of directors consisting of seven members. The fund is a Texas 4B Economic Development Corporation that collects one-half cent sales tax. The primary purpose of the fund is to promote economic development within the City and provide funding for projects that promote economic activities. The funds fiscal year runs from October 1 to September 30.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

GENERAL FUND

DEPARTMENT'S MISSION, STRATEGIC GOALS AND OPERATING BUDGETS

The General fund is the main operating fund of the City of San Benito. Primary sources of revenues are property taxes, sales and use taxes, franchise fees, permit fees and revenues from fines and forfeitures. As the main operating fund of the City, the general fund accounts and reports for the activities of the City Administration, Finance, Planning and Development, Public Works and Public Safety.

The following departmental mission statements, strategic goals and operating budgets are presented within the General Fund and the pages that follow.

City Commission

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long Term Outlook

City Employees - to serve the public in an atmosphere of courtesy, friendliness and respect, consistently treating everyone fairly within the policies, rules and regulations of the City of San Benito. To provide the highest quality municipal services in an effective, creative and fiscally responsible manner.

Fiscal Responsibility - To provide the highest quality municipal services, consistent with the resources available to us. To allocate such resources fairly to meet the needs of the community as a whole, while recognizing the needs of various segments within the community.

Economic Development - To recognize that high quality City Services are to a large extent dependent on a strong business community. To provide and further enhance a strong economic base by encouraging revenue producing, high quality, "clean" retail, commercial and industrial development that is compatible with our community atmosphere.

Education - To recognize that a major strength of our community is the educational system. To ensure that our efforts are consistent with maintaining the quality of education provided to our community. To support the Boards of Education in this critical area.

Quality of Life - To provide a pleasing community atmosphere and a level of maintenance of public streets, parks, right-of-way and other public facilities that are consistent with the level of maintenance our citizens provide to their private property. To recognize and promote individual property rights while ensuring that the rights of other are not infringed upon. To provide quality parks, recreation opportunities, library and other information services, senior and youth programs and medical services to our citizens. To promote positive community spirit and pride in the community.

Public Safety - To ensure that residents will be safe in their homes and neighborhoods. To be prepared for disasters and provide for the protection of life and property in such event.

Public Infrastructure - To protect, maintain and enhance the City's public infrastructure. To anticipate the long-term needs of the infrastructure and take prudent steps to provide for those needs.

Transportation - To provide quality streets and control systems for the efficient movement of traffic. To provide for alternative transportation needs of all segments of the community.

Communication - To educate the community on City programs and operations as well as their role in the governmental process.

Major Accomplishments

Implemented of a state of the art communication system upgrade for Police and Fire.

Increased service levels in street improvement and infrastructure upgrades.

Maintained Standard & Poors rating of A - Stable and Fitch Rating of A+ - Stable

Received approval to begin work on the City's Comprehensive Plan.

PUBLIC AFFAIRS

Department Description and Mission Statement

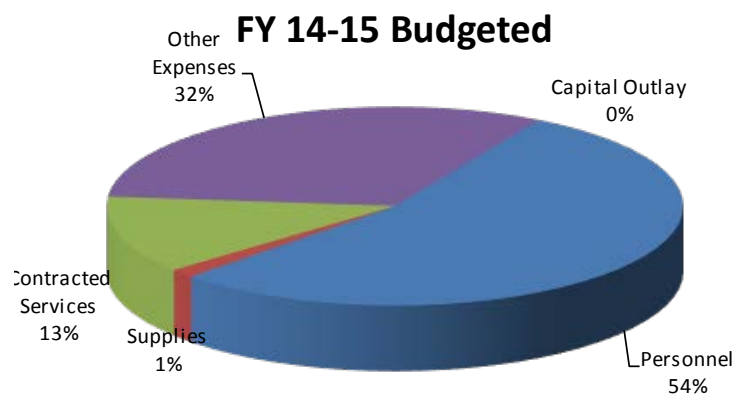

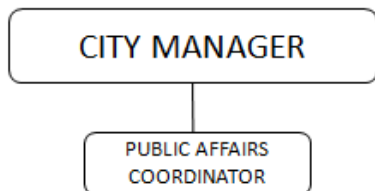

Public Affairs (previously Public Relations) covers a diverse function of activities that involve interaction with the at-large community, media, government officials, cultural/ arts programs, and creation and promotion of city-sponsored events.

Our mission is the enhancement and dissemination of knowledge and events.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long Term Outlook

- ♦ To encourage greater public participation in City Government by facilitating the promotion of a free exchange of ideas and information between citizens and officials by continually improving communication outlets. (Create online surveys and polls for citizens to express their wishes and suggestions for the City improvements.)
- ♦ To cultivate greater civic pride and enhance the quality of life by using the City's new website, and social media accounts, as well as through communication using print and broadcast media. Create video productions to use on the website, social media sites, LED sign, and possibly the proposed PEG channel.
- ♦ To recognize the contributions and service of those who strive to improve the quality of life here through a public recognition process. Create a Citizens' Award program to honor people who make San Benito a better place to live and work, with recognitions at public functions/City Commission meetings.
- ♦ Facilitate efforts to convert ResacaFest to a non-profit 501(c) entity.

Major Accomplishments

- ♦ Coordinated the launch of a modern website that facilitates the flow of information between all City departments and our Citizens. (Using the technical services of CiviPlus, we successfully created a platform to enhance government financial transparency, improve citizen engagement, expedite the flow of information and bridge the gap between the general public and the City.)
- ♦ Produced the 2014 version of the City of San Benito Annual Report, expanding the document from 16 to 32 pages with information about each individual City department and focusing on their major accomplishments.
- ♦ Successfully produced two of the City's most popular outdoor community festivals: Resacafest and the longest lighted Christmas Parade & Bazaar through the Special Events Board. (The scope of the Christmas Parade expanded to include a festive bazaar and carnival which drew even more traffic to the city. These quality special events are a source of pride for our city, providing positive exposure and drawing citizen participation and visitors from outside our community. Both events continue to grow in popularity and size as they evolve into activities that showcase the city and position it in an even more favorable business and family-oriented community.)
- ♦ Produced *2014 City of San Benito Annual Report*. Expanded the full-color document from 16 to 32 pages of information about each individual city department and focusing on major accomplishments.

HUMAN RESOURCE/CIVIL SERVICE

Department Description and Mission Statement

The Human Resources Department strives to maintain a fair, equitable and positive work environment for all employees based on the belief that the success of any organization and its ultimate value is primarily dependent upon its people. In addition, the development of greatest potential for each employee will create job satisfaction and career opportunities for individuals plus provide maximum benefits for the City of San Benito.

FINANCE

Department Description and Mission Statement

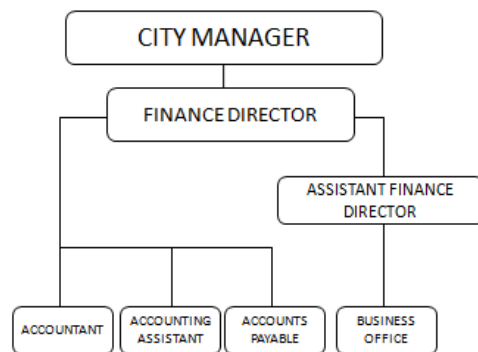

The Finance Department plans, directs and coordinates the financial affairs of the City in accordance with specific objectives established by legal and professional standards. The department maintains financial records, safeguards the assets of the City and provides management with information necessary for sound decisions. The department is responsible for the day-to-day and strategic operations of the City in accounts payable, budget development, debt issuance and administration, financial reporting, grant management and treasury management.

The mission of the Finance Department is to earn and maintain the public trust by practicing strict internal controls in compliance with City policy, State and Federal law, governmental accounting and regulatory requirements and doing so in a professional and courteous manner.

Goals and Objectives - Long Term Outlook

The Finance Department will continue to set and meet high standards for fiscal responsibility by implementing more efficient processes, improving existing controls and providing improved financial information to the City's stakeholders.

The department anticipates upgrading to the latest version of the City's integrated financial platforms within the next two fiscal years.

Continue to receive the Government Finance Officer's Associations (GFOA) Certificate of Excellence in Financial Reporting.

Receive the Government Finance Officers Association's (GFOA) Distinguished Budget Award.

Continue to receive Leadership Circle awards from the Texas Comptroller of Public Accounts for financial transparency.

Prepare and submit monthly financial reports to City management and the Commission within seven days of accounting period close.

Maintain "**A stable**" bond ratings on General obligation bonds and work to improve them.

Establish and implement a paperless environment for the department.

Major Accomplishments

Received the Government Finance Officer's Associations (GFOA) Certificate of Achievement for Excellence in Financial Reporting (CAEFR)

Maintained "**A stable**" bond ratings on General Obligation Bonds

Received the Platinum level Leadership Circle award from the Texas Comptroller of Public Accounts for financial transparency.

INFORMATION TECHNOLOGY

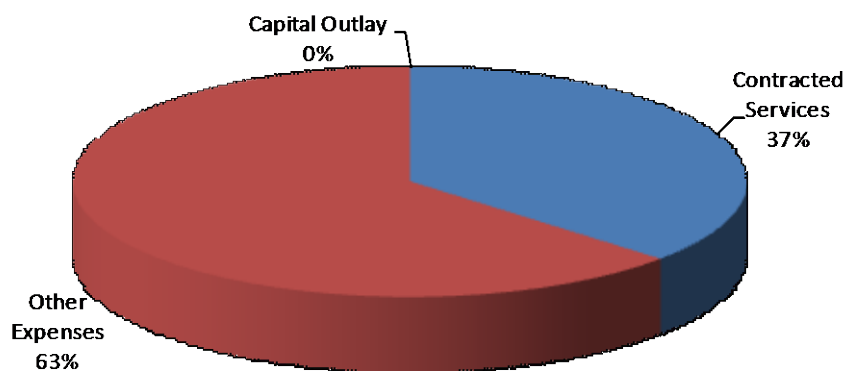

Department Description and Mission Statement

Information Technology plays a critical role in the daily operation of our municipal government. Our department's role is to support and empower our employees and citizens through the use of technology and technological advancements. Our goal is to ensure the greatest access to technology resources and advancements while maintaining operation, security and development of those resources.

Goals & Objectives - Long Term Outlook

Our goals surround continually supporting the research, development, and utilization of new and existing technological resources. Our objective is to effectively accomplish our goals while operating within the guidelines of our budget and administration.

Some future goals include:

- ♦ Establishing high availability broadband connections, ie, fiber optics, between key municipal sites to ensure the greatest stability and availability of resources to remote sites.
- ♦ Increased utilization of cloud based infrastructure to improve resilience and protection of our resources.
- ♦ Continue to research and develop solutions to serve individual department or city wide needs.
- ♦ Continue to standardize and deploy industry standards and well supported and documented hardware and software solutions according to best practices.
- ♦ Continue to seek out cost cutting measures and best value options when developing solutions.
- ♦ Continue to improve user and citizen facing technology such as websites, payment processing availability of information, access to technology and library technology resources, and audio visual resources for meeting areas.
- ♦ Continue to improve and maintain security levels to protect technical resources and information.
- ♦ Continue to maintain infrastructure, hardware, and software update and replacement cycles to ensure reliable, secure, and functioning resources are available to our users.
- ♦ Continually monitor and evaluate outside progress and developments among other government bodies and industry leaders in an effort to use their progress to the benefit of our users and citizens.
- ♦ Continually strive to resolve user issues quickly, effectively, and completely and allow users access to our knowledge and experience for their own benefit and training.

Major Accomplishments

Phone system Upgrade

Phone system migration, equipment upgrades for City Hall, PD and City Shop with service upgrades to enhance communication for staff and ultimately to better reach the public.

Camera and Security System Installation

High resolution security surveillance cameras were installed at the following locations: City Hall area, City Shop, Fire Station 1 & 2, Water Plant, Wastewater Plant. Deployed Security and Access control system for City Hall building, which will help secure the newly remodeled facility.

New website design for City Website

New website to replace older, dysfunctional website with a modern interface and enhanced communication technologies to help better serve the community.

Computer deployment

Continuous refreshing of outdated computer hardware. Goal of upgrade is to enhance the productivity and secure the IT infrastructure by purchasing computer systems that will not be running obsolete systems.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Major Accomplishments

City Hall server room

Design and implementation of new upgraded City Hall IT rooms that will securely host the IT infrastructure core systems within the City Hall area.

Fiber Internet and Fiber point-to-point

Deployed a fiber internet connection to City Hall and a direct connection between City Hall and the PD for increased reliability and speed of crucial IT services.

Migration to Verizon Wireless as cell phone provider

Negotiated better service and pricing for cell phone provider begun early this year and is expected to be fully transitioned by early 2014.

EOC Equipment

Refreshed and redesigned EOC communications equipment and expanded capabilities for operators and call volume.

Server Migrations and additions

Migrated and balanced critical server roles for the city across new and existing hardware to better utilize current resources and provide better services to the staff.

Data Safeguards

Standardized data protection and backup methods across city facilities to ensure higher levels of data security and data safety.

Time Clock

Implemented new time clock services city wide to provide HR and administration with reliable time management and payroll information for employees.

Support Services

Received and resolved over 1,000 support incidences for city personnel ranging from minor desktop or communication issues to full data recoveries and system replacements.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long Term Outlook

Incorporating teamwork for the achievement of our goals, we will continue to work closely with Cameron County GIS Department by interchanging data and maps for the most up to date regional improvements, thoughfare, development, land use, emergency responders. We will continue our newly established relationship with local government and private entities, assist other city departments to keep an updated Geographic Information System data base for the city and public use. Our long term outlook is to complete the first ever City Comprehensive Master Plan.

Major Accomplishments

- ♦ Joined Texas A&M at Kingsville (TAMUK) and Stormwater Task Force to create a Geographic Information System (GIS) / Global Positioning System (GPS) committee to create a short course program for all participating cities.
- ♦ The Planning and Development team grew with the addition of a new City Planner I.
- ♦ San Benito Landscape Improvement Project with Texas Department of Transportation (TxDot) to create the now installed "Welcome to the City of San Benito" signs.
- ♦ Created a City Street Light Inventory using Global Positioning System (GPS) for the Geographic Information Systems to be uploaded onto city GIS map.
- ♦ Initiated a Texas A&M University Kingsville and the Stormwater Task Force and all participating cities to design and develop an interactive website to identify and maintain Low Impact Development and Better Management Practice projects.
- ♦ Inter-local subcontract for the Geographic Information System (GIS) training and Better Management Inventory for the 5 year Stormwater Management Plan and reporting to the Texas Commission on Environmental Quality MS-4 permit; City is to receive \$16,000 in two parts (\$8,000 has already been paid to the City) <http://lidprogram.tamuk.edu/map/index.html>
- ♦ Negotiated FREE Basic Geographic Information Systems training for all Code Enforcement and Planning & Development city employees. (Certificates were issued to those that completed the 16 hour course)
- ♦ Teamed up with Cameron County Department of Transportation Geographic Information Systems division to create newly adopted Cameron County Emergency Services District Maps for Emergency Responders.
- ♦ Planning & Development with the guidance of City Manager's Office initiated a Request For Qualifications for a Professional Consultant Planning Services or a new City Comprehensive Plan.

MUNICIPAL COURT

Department Description and Mission Statement

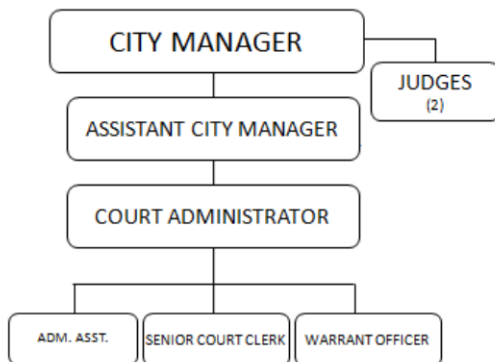

The Municipal Court is the judicial branch of city government, responsible for handling all violations of city ordinances, traffic and Class C misdemeanors within the city limits. These violations are referred to the Municipal Court by the San Benito Police Department, Code Enforcement, Animal Control, and the Fire Marshal. The Municipal Court is the entity entrusted with accepting payments for violations.

The mission of the Municipal Court is to provide high quality customer service and assistance to citizens in disposing of their cases before the court. The Court strives to provide accurate, timely and thorough processing of court records and to ensure the proper collection of fines and penalties.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long Term Outlook

- ♦Improve electronic technology for Municipal Court record keeping
- ♦Develop and improve procedures to collect past due payments for fines and fees
- ♦Maintain on-going training for Municipal Court Judges and staff to make sure that decisions are based on an understanding of current law and court procedures
- ♦Begin to move toward a more "paper on demand" system.

Major Accomplishments

The department continues to use specially designed programs supported by the State of Texas which include Scofflaw and OmniBase. Both have proved to be a valuable tool in collecting delinquent fines from offenders.

POLICE

Department Description and Mission Statement

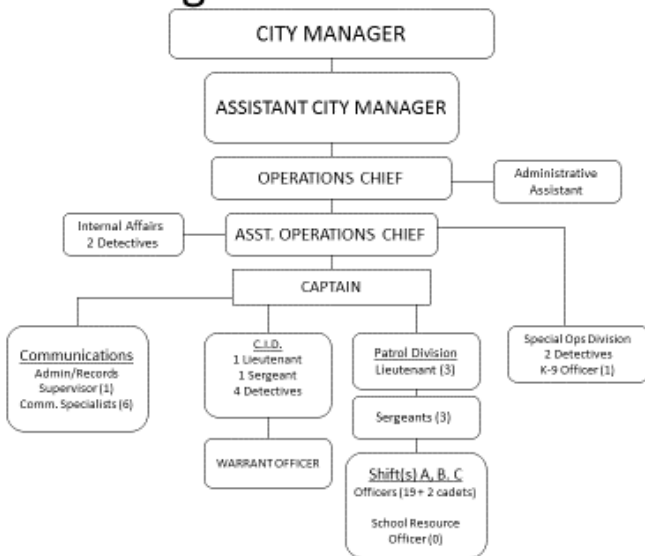

The San Benito Police Department currently employs 43 sworn officers, along with 8 civilian staff members, who are committed in taking San Benito to a higher level. Our vision is to strive for excellence through community partnerships. Our department is determined to accomplish our tasks, protect lives and property to the fullest extent possible.

Mission Statement: It is our mission in a coordinated effort with the community to protect all life and property, using all resources available, to understand and provide for the service needs of the community, and to improve the quality of life by building capacities to maintain order, resolve problems and enforce the law in a manner consistent with the law and reflective of shared community values.

Goals and Objectives - Long Term Outlook

- ♦ Improve understanding between police and the community.
- ♦ Help to improve the quality of live in San Benito by reducing the rate of crime in the city.
- ♦ Improve community and neighborhood participation in fighting crime in the city.
- ♦ Prepare for city growth.
- ♦ Achieve higher level of professionalism within the department.
- ♦ To begin community interaction teams within the department.
- ♦ To plan and prepare strategies which will help the community work toward making San Benito a great place to live, work and play.
- ♦ Create crime prevention and education programs which will promote neighborhoods to protect themselves against crime.
- ♦ Institute innovative programs and projects requesting such funds as might be necessary.

Major Accomplishments

- ♦ Obtained a new K-9 dog to add to the departments resources to deter illegal narcotics.
- ♦ Created a warrants office position to enhance efforts in resolving unpaid citations and fines in Municipal court.
- ♦ Participated with the District Attorney's office in Operation Bishop to investigate the game room machines, an illegal money payouts.
- ♦ San Benito Police Officer Carlos Romero was awarded the "Top Performer" award by the MADD (Mother's Against Drunk Drivers) for the highest DWI arrests in Cameron County. He was recognized at an award banquet presentation in McAllen, Texas as the award winner for Cameron County.
- ♦ The department was successful in establishing an online auction with Lonestar Auctioneers, in which 20 seized vehicles were sold for a total of \$40,000.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Major Accomplishments - continued

- ♦ The department was awarded a grant on a federal program named Operation StoneGarden for over time use in efforts to combat crime within the city. A second grant was also granted for overtime use named Operation Border Star, which is a state grant, also used to combat crime within the city.
- ♦ In August 2013 the process began to bring new technology to the San Benito Police Department to upgrade to a better system of communication. Through the use of New World Technology and Motorola, upgraded Records Management systems, computer aided dispatch, and laptops for the patrols, modern technology will be in place once the system is fully operational
- ♦ The department established CRASH system technology to enable officers to complete their accident reports online directly to the state.
- ♦ The department has redesigned the department's patch to modernize the uniform appearance.
- ♦ The officers are sent to to take mandated courses and training to handle crisis situations.
- ♦ We obtained a \$733,000 military armored vehicle donated by the government for emergency use.

FIRE

Department Description and Mission Statement

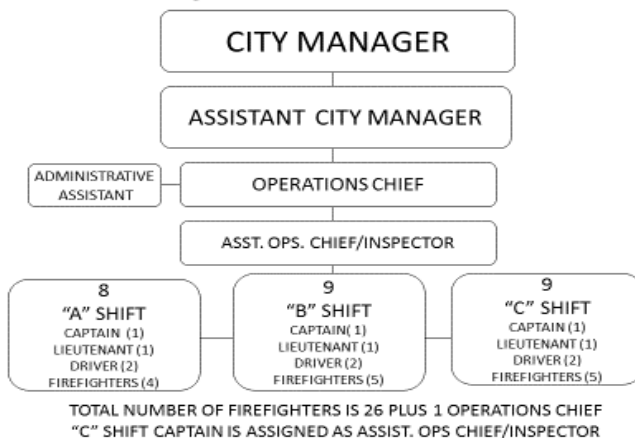

The San Benito Fire Department is currently comprised of 26 dedicated Fire Fighters and Emergency Medical Technicians distributed between 3 shifts and 2 fire stations. These Fire Fighters are armed with 4 engines, 1 ladder truck, 1 water tanker, 3 brush trucks, and a fire boat ready to immediately respond to any emergency its citizens might have.

Our Mission is to protect the lives and property of all citizens of San Benito and unincorporated areas covered by county contract from natural and man-made emergencies utilizing mitigation efforts, control systems and support services.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long - Term Outlook

- Immediate Goals:**
- ♦ Purchase new vehicles for department personnel
 - ♦ Modify notice procedures for new businesses and new construction to have shorter wait time on requirements
- Long-term Goals:**
- ♦ Initiate a new Code Enforcement computer program, for a more efficient reporting system
 - ♦ Initiate a new Code Enforcement computer program, for a more accurate monitoring of complaint calls and handling of calls
 - ♦ Provide all department personnel with unit laptops/handheld devices for quicker handling of complaints and reporting time
 - ♦ Change uniform style to present a more professional image
 - ♦ Review fee schedule

Major Accomplishments

- ♦ Increased personnel within the department
- ♦ Initiated new procedures to increase efficiency in permit processing
- ♦ Cross training of personnel to have un-abrupt service to the public
- ♦ Modified brush and trash service complaint process, so customers have service provided more efficiently
- ♦ Conducting round table meetings for all new businesses within the city departments.

STORMWATER DIVISION

Department Description and Mission Statement

The Stormwater division is an awareness program designed to help improve quality in our local waterways including the Arroyo Colorado and the Lower Laguna Madre.

The mission of the Stormwater Program is to provide guidance for selecting and implementing Best Management Practices (BMPs) to reduce pollutants in runoff from municipal operations. Assist municipal staff with incorporating pollution prevention controls into their overall storm water management program and educate the public in the benefits of clean water techniques that reduce runoff accumulate pollutants such as oil, gas, and other hydrocarbons, heavy metals, deicers, pesticides, fine sediment, fertilizers, and bacteria; all of which can impair water quality.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long Term Outlook

The specific objectives are to:

- ♦ Provide a commonly accepted set of technical standards and guidance on stormwater management measures that will control the quality and quantity of stormwater produced by municipal activities, new development and redevelopment.
- ♦ Assist the municipality in meeting Stormwater Phase II requirements:
 - Encourage the use of targeted best management practices (BMPs) within the watershed with long-term goal of consistent application by all regulated entities within the watershed.
 - Promote behavior that will improve the water quality of the Arroyo Colorado and Laguna Madre.
 - Encourage cost saving for MS4s through proper and timely maintenance of stormwater systems.

Major Accomplishments

- ♦ Educating business owners of the new Stormwater program and help them become compliant
- ♦ Working on the Wetland Project that will provide for the educational usage of the site as well as the recreational usage by the our cities citizens.
- ♦ Initiated Stormwater education and enforcement procedures

PUBLIC GROUNDS

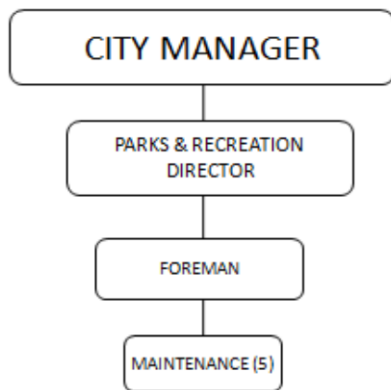

Department Description and Mission Statement

The maintenance division is responsible for maintaining public grounds that include parks, trails and wetlands. The staff is focused on enhancing our park system. This includes general mowing, edging, trimming, litter control and graffiti removal. Currently, the City of San Benito is 15.76 miles. The maintenance staff works one section at a time by mowing, picking up litter, edging, trimming, etc. In addition, the staff maintains all playgrounds, minor sprinkler repairs and maintains sports complex.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goals and Objectives - Long Term Outlook

- ♦ Provide outstanding customer service daily with well trained staff, quick responses to each citizen's concerns and adequate public information.
- ♦ Further the Parks & Recreation staff's professional development through training and continuing education.
- ♦ Utilizing the current budget effectively while securing alternative funding sources such as grants, sponsors and user fees.
- ♦ Provide family friendly recreational programs and activities.
- ♦ Market and promote the benefits of parks and recreation through all available media.

Objectives:

- ♦ Publicize 10 park activities on facebook this fiscal year
- ♦ Respond to citizen concerns within 2 business days
- ♦ Attain 250 likes on the San Benito PARK Facebook page
- ♦ Attend 1 Cross-Training Session, Workshop, Conference, or continuing education course
- ♦ Operate within annual budgetary limits of current fiscal year
- ♦ Offer 1 new recreational program
- ♦ Host or facilitate 2 Special Events during the fiscal year
- ♦ Provide 5 Recreational Programs throughout year

Major Accomplishments

- ♦ Co-Hosted Hog Dash 4, a 5k Mud Obstacle Course that drew between three to four thousand people.
- ♦ We had a total of 2,300 people registered to participate. In addition, there was 1,214 cars accounted for.
- ♦ Started Inaugural Jr. High 7on7 summer league. Only city in Cameron County to provide this league.
- ♦ Worked with Community Grants Department and Public Works to acquire Texas Parks and Wildlife Grant to expand trails.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

UTILITY FUNDS

DEPARTMENT'S MISSION, STRATEGIC GOALS AND OPERATING BUDGETS

The City's Utility Funds are used to account for the operations of the Water Production, Wastewater and Solid Waste Collection activities.

These funds' operations are financed primarily through user charges. These funds operate in a manner similar to a private business. It is the intent of the governing body that the costs of providing goods and services to the general public on a continuing basis be financed or recovered through user charges and that the governing body has determined that the determination of periodic net income is appropriate for accounting purposes.

Each Utility fund has departments whose function is to support the operations of the fund. Each fund and corresponding department is listed below.

Water Production

- Administration

- Water Plan Operations

- Water Distribution

- Customer service (meter readers)

Waste Water

- Administration

- Wastewater Operations

- Wastewater Line Maintenance

Solid Waste Collection

- Administration

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

UTILITY ADMINISTRATION - WATER FUND BILLING

Department Description and Mission Statement

The Business Office is responsible for utility billing and the collection of all payments received by the City from finance, utility customers, permits, licensing, public facility rentals, cemetery and the public library.

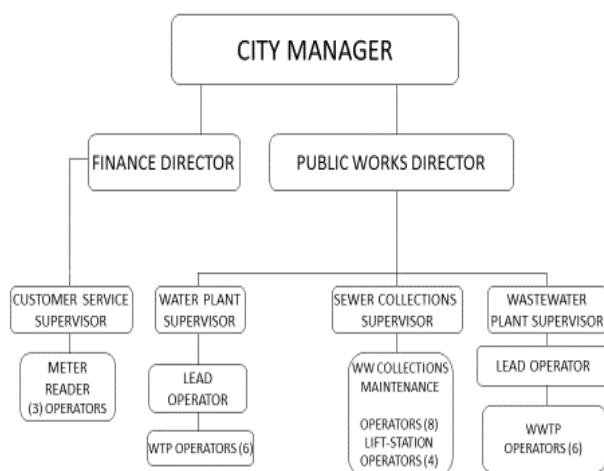

Utility Billing is a function of the Business office and is responsible for billing, recording, and collecting charges for water, sewer and sanitation services provided to City of San Benito residents.

The mission of the Business Office is to provide high quality customer service, ensure accuracy and efficiency in the collection and assesment of user charges and to do so in a professional and courteous manner.

Business Office Cashiers	0.5	0.5	0.5
Administrative Assistant	0.34	0.34	0.34

Goals & Objectives

The Business Office will be installing a kiosk as an additional payment option for customers. It will accept cash, checks, credit and debit cards for utility and municipal court payments which will be accessible 24/7 as a drive-up convenience.

To provide utility customers with the option to receive electronic/paperless billing statement via e-mail.

Implement mobile app for additional utility payment option thru smartphones and tablets.

Implement automated messaging system that will deliver messages to customers for notifications of service interruptions in the area, past due balances or pending service disconnections.

Establish and implement a paperless work order process between the Utility departments.

Major Accomplishments

Alternate payment locations were established to allow customers to pay their utility bills at HEB, Lopez Brothers, Walmart and other national participating retail locations.

Additional customer service enhancement was successfully implemented which provides customers an additional convenient method of paying their utility bill from the comfort of their home or office via the internet or phone.

Online utility account management was successfully implemented free of charge for all utility customers. This feature allows customers to view consumption trends for their account(s), billing and payment history, and enables them to update their contact information online.

Implemented online forms for service requests on the newly designed City website.

WATER TREATMENT PLANT

Department Description and Mission Statement

We treat water from the Resaca at an average rate of 106 to 145 million gallons per month. That is somewhere between two to five million gallons per day. The time of year is the factor that will dictate how much water will be treated.

Under the direct supervision of the water treatment plant lead operator, the water treatment plant operator controls treatment plant machines and equipment to purify and clarify water for human consumption and for industrial use.

Our mission is to proactively serve our customers by providing reliable, safe and high quality drinking water.

Goals and Objectives - Long Term Outlook

- ◆ Produce high quality water at the most efficient way.
- ◆ Replace all the malfunctioning mechanical and electrical equipment and upgrade our current gravity sand filters at the Water Treatment Plant No. 1.
- ◆ Improve the skills of the water treatment plants personnel with advance training available especially in the Micro Filtration Plant.

Major Accomplishments

We were able to keep running both Water Treatment plants using what we have at the present time, even with all the bad conditions of the mechanical and electrical equipment at the Water Treatment Plant No. 1.

UTILITY ADMINISTRATION - WASTEWATER FUND

Department Description and Mission Statement

The Business Office is responsible for utility billing and the collection of all payments received by the City from finance, utility customers, permits, licensing, public facility rentals, cemetery and the public library.

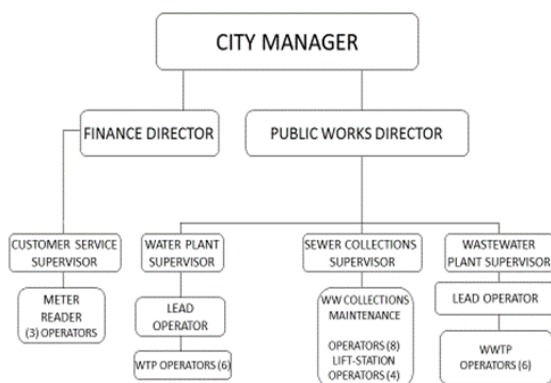

Utility Billing is a function of the Business office and is responsible for billing, recording, and collecting charges for water, sewer and sanitation services provided to City of San Benito residents.

The mission of the Business Office is to provide high quality customer service, ensure accuracy and efficiency in the collection and assesment of user charges and to do so in a professional and courteous manner.

Business Office Cashiers	0.5	0.5	0.5
Administrative Assistant	0.33	0.33	0.33

Goals & Objectives

The Business Office will be installing a kiosk as an additional payment option for customers. It will accept cash, checks, credit and debit cards for utility and municipal court payments which will be accessible 24/7 as a drive-up convenience.

To provide utility customers with the option to receive electronic/paperless billing statement via e-mail.

Implement mobile app for additional utility payment option thru smartphones and tablets.

Implement automated messaging system that will deliver messages to customers for notifications of service interruptions in the area, past due balances or pending service disconnections.

Establish and implement a paperless work order process between the Utility departments.

Major Accomplishments

Alternate payment locations were established to allow customers to pay their utility bills at HEB, Lopez Brothers, Walmart and other national participating retail locations.

Additional customer service enhancement was successfully implemented which provides customers an additional convenient method of paying their utility bill from the comfort of their home or office via the internet or phone.

Online utility account management was successfully implemented free of charge for all utility customers. This feature allows customers to view consumption trends for their account(s), billing and payment history, and enables them to update their contact information online.

Implemented online forms for service requests on the newly designed City website.

WASTEWATER PLANT

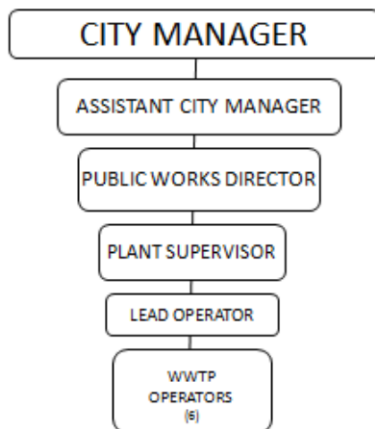

Department Description and Mission Statement

The Mission of the Wastewater Treatment Plant operator is to ensure that the sewage generated from the City (via domestic commercial and industrial waste) is properly treated and disinfected before it is discharged to receiving waters of the state. The Wastewater Treatment Plant has been issued a state permit and must maintain the set standard requirements to insure the effluent discharge quality is met at all times.

LIFT STATIONS/ COLLECTIONS/ MAINTENANCE

Department Description and Mission Statement

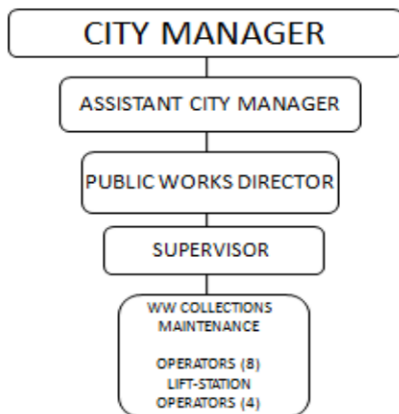

The collection system is responsible for the city sewer system by repairing or replacing sewer lines, manholes, sewer taps and check for stoppages throughout the city. The city has 40 lift-stations that are used to pump sewer water to the waste water plant.

Our mission is to ensure that the sewage generated from the City (via domestic, commercial and industrial waste) is properly transported by gravity and force main at a steady flow approximately 2 feet per second via lift-station to the wastewater treatment plant for proper treatment. The wastewater treatment plant has been issued a state permit and must maintain the set standard requirements to insure the effluent discharge quality is met at all times.

UTILITY ADMINISTRATION - SOLID WASTE COLLECTION

Department Description and Mission Statement

The Business Office is responsible for utility billing and the collection of all payments received by the City from finance, utility customers, permits, licensing, public facility rentals, cemetery and the public library.

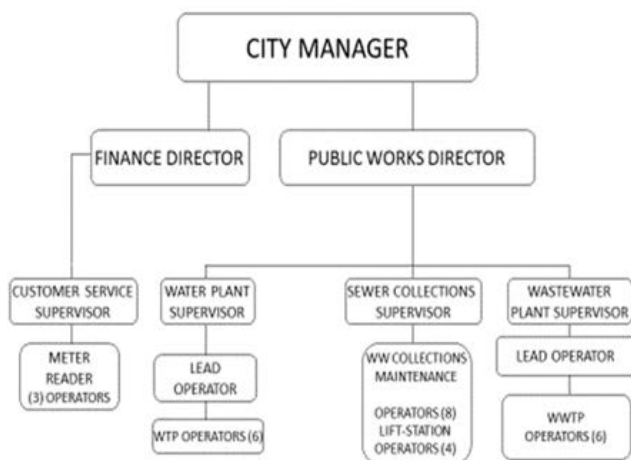

Utility Billing is a function of the Business office and is responsible for billing, recording, and collecting charges for water, sewer and sanitation services provided to City of San Benito residents.

The mission of the Business Office is to provide high quality customer service, ensure accuracy and efficiency in the collection and assesment of user charges and to do so in a professional and courteous manner.

Goals & Objectives

The Business Office will be installing a kiosk as an additional payment option for customers. It will accept cash, checks, credit and debit cards for utility and municipal court payments which will be accessible 24/7 as a drive-up convenience.

To provide utility customers with the option to receive electronic/paperless billing statement via e-mail.

Implement mobile app for additional utility payment option thru smartphones and tablets.

Implement automated messaging system that will deliver messages to customers for notifications of service interruptions in the area, past due balances or pending service disconnections.

Establish and implement a paperless work order process between the Utility departments.

Major Accomplishments

Alternate payment locations were established to allow customers to pay their utility bills at HEB, Lopez Brothers, Walmart and other national participating retail locations.

Additional customer service enhancement was successfully implemented which provides customers an additional convenient method of paying their utility bill from the comfort of their home or office via the internet or phone.

Online utility account management was successfully implemented free of charge for all utility customers. This feature allows customers to view consumption trends for their account(s), billing and payment history, and enables them to update their contact information online.

Implemented online forms for service requests on the newly designed City website.

San Benito Economic Development Corporation
Organizational Structure
FY 2014-2015

Department Description and Mission Statement

About

The San Benito Economic Development Corporation (956-361-3800 Ext. 302 or Ext. 304) is dedicated to the economic progress and growth of San Benito.

Description

The San Benito Economic Development Corporation is funded through a local 1/2 cent sales tax, a portion of the 2 cents allotted to the City of San Benito. Dedicated to economic development, the SBEDC provides support and assistance to create and facilitate sustainable economic growth for San Benito and enhance the quality of life.

Goals and Objectives - Long Term Outlook

Goal: Administration Policies

- Adopted current Interlocal Agreement with City.
- Adopted Personnel Policies & Procedures.

Goal: Support of Local Businesses

- Surveyed Downtown Businesses and conducted meetings.
- Issued 4 loans to small businesses under Small Business Loan Program.
- Secured additional \$400,000 federal loan award to expand program.
- Awarded incentive awards to three businesses who in turn invested in property improvements and in job creation.
- Operated Market Days.

Goal: Recruitment of New Businesses & Employers

- Recruited three restaurants.
- Prepared proposal and study of old municipal airport on behalf of city to UT to place new administration building in San Benito.

Goal: Paso Real Retail District

- In negotiations with prospect for development involving multiple tenants.
- Developed marketing brochure for the district.

Goal: Resaca District

- Provided financial support to city's ResacaFest and National Night Out community events.
- Purchased Christmas lights for city.
- Secured federal grant to purchase the vacant 9.8 acres formerly owned by First National Bank.
- Acquired Resaca property and developed ResacaWalk development concept.
- Adopted Conceptual Master Plan for ResacaWalk.

Goal: Master Planning

- Adopted Conceptual Master Plan for ResacaWalk.
- Conducted market study for Paso Real Retail District prospect.
- Prepared proposal and study of old municipal airport on behalf of city to UT to place new administration building in San Benito.

Goal: Development of Other Sites

- Prepared proposal and study of old municipal airport on behalf of city to UT to place new administration building in San Benito.
- Recruited potential power plant investors for redevelopment of La Palma Power Plant.

Goal: Community Development

- National Night Out.
- Annual Conjunto Festival.
- Annual Indian Cultural PowWow.
- Annual Squeezebox Run & Walk.
- Texas Heritage & Independence Celebration.
- Resaca Fest.
- Market Days.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Goal: San Benito Industrial Park

- Provided loan to tenant to purchase equipment for new business.
- Provided incentive award to build new business.
- Recruited manufacturer prospect to relocate to the Coca Cola Building (relocation did not occur).

Goal: Marketing & Promotion

- Operated Downtown Market Days.
- Published promotional ads in various publications.
- Created Facebook page (facebook.com/SanBenitoEDC).
- Launched website (sanbenitoBusiness.com).
- Developed promotional materials to promote: Paso Real Retail District and the Free Trade/Los Indios International Bridge.
- Attended trade shows x, y, and z to promote San Benito

Goal: Legislative

- Invited congressional representatives for grant and loan award announcements.
- Met with USDA Rural Development officials in Washington, D.C. to advocate successfully for San Benito's eligibility for federal funds.

Other Potential Projects

- Developed promotional materials to promote the Free Trade/Los Indios International Bridge.
- Joined the Cameron County Logistics Alliance to promote use of the Free Trade/Los Indios International Bridge.

Major Accomplishments

See above as listed under Goals and Objectives.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

COMMUNITY GRANTS AND PROGRAMS

DEPARTMENT’S MISSION, STRATEGIC GOALS AND OPERATING BUDGETS

The Community Grants and Programs Department serves as the City’s liaison with funding agencies and related agencies, providing grant related guidance and support to all City Departments and ensuring compliance with grant requirements.

The City receives an annual grant from the U.S. Department of Housing and Urban Development for participation in the Community Development Block Grant (CDBG) program. These grant funds are used to improve areas of the community populated by citizens with low to moderate incomes.

Fiscal 2014-2015 program activities include expenditures for public facilities and improvements, public services and administration.

Within the department there are three funds:

Community Development Block Grant

University of Texas at San Antonio – Health Science Center Wellness Grant

United States Department of Commerce – Museum Grant

COMMUNITY GRANTS AND PROGRAMS

Department Description and Mission Statement

The Community Grants and Programs Department strives to effectively identify, secure and manage federal, state, and local grant-funding opportunities that will promote an increased quality of life for the San Benito community. It also serves as the City's liaison with funding agencies and related entities, providing grant related guidance and support to all City Departments, and ensuring compliance with grant requirements.

Goals and Objectives - Long Term Outlook

The Community Grant and Program Department's defined goal is to become a broader-based department with additional revenue streams to offer new services to the City of San Benito. The department will continue to administer the Community Development Block Grant (CDBG) Program, but will seek out additional prospects in providing services and funding for city programs and public activities. Major restructuring will need to take place in an effort to separate defined duties for the employees that will be responsible for specific duties such as grant writing, grant administration and overall clerical administrative duties.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Major Accomplishments

The department realized a major transformation in 2013 as it evolved from the CDBG Program into a broader based entity with additional revenue streams to offer new services to the citizens of San Benito. One of its major accomplishments is highlighted by its partnership with the University Health Science Center at San Antonio to administer a community-wide campaign, an ambitious program offering great educational and technical support. It features training and community instruction with the ultimate goal of disease prevention and healthier living habits. Other accomplishments included the administration and completion of the State Energy Conservation Office grant and the Disaster Recovery Grant with the General Land Office.

HOTEL OCCUPANCY TAX (HOT) FUND

The City of San Benito levies a 7% hotel occupancy tax, which by law must be used to promote tourism within the City. In fiscal 2010-2011, the City established the Hotel / Motel Tax Fund. The funds expenditures include those related to cultural heritage, tourism and city events. Major initiatives for fiscal 2014-2015 include continued development of tourism and cultural awareness programs.

Those agencies within the City that request Hotel / Motel Tax Funds have been asked to provide their goals and objectives and identify how the funds requested will meet the criteria established over how these funds can be utilized.

TAX INCREMENT REINVESTMENT ZONE FUND (TIRZ)

The Tax Increment Reinvestment Zone fund was established in 2009 to fund infrastructure projects within the zone. The TIRZ was established by ordinance. Under the terms of the ordinance; ad-valorem taxes from within the zone are transferred from the General Fund to the TIRZ. Additionally, ad-valorem taxes collected by Cameron County within the zone are also paid into the TIRZ.

DEBT – LEGAL DEBT MARGIN

The City budgets for debt service in three different ways. The first is supported by ad-valorem taxes (General Fund and Debt Service fund) and sales taxes (Economic Development Corporation). The second is supported by federal grants (HUD – CDBG) and the third is supported by charges for services within the Utility funds.

During fiscal 2014 Standard and Poor's performed a biannual bond rating review for outstanding General Obligation and Certificates of Obligation bonds. The City's A /Stable rating was reaffirmed.

The Debt Service fund was established to account for the payment of principal and interest on outstanding ad-valorem tax supported debt. When this debt was issued, property taxes were pledged to repay the bondholders. Property taxes is the primary source of revenues in this fund.

City of San Benito, Texas

COMPUTATION OF LEGAL DEBT MARGIN

SEPTEMBER 30, 2014

(UNAUDITED)

LEGAL DEBT MARGIN

Texas Statutes do not prescribe a debt limit; however, by custom, a practical economic debt limit of 5% of the assessed valuation is used.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

INTERNAL CONTROLS

POLICY

The City will maintain an effective system of internal control to ensure the safeguarding of assets, and to monitor compliance with policies and procedures established by management.

PROCEDURES

Accounting controls are designed to achieve five basic objectives.

Validation

The examination, by the Finance Director or the Assistant Finance Director, for evidence that a recorded transaction actually took place, and that it occurred in accordance with the prescribed procedures.

Accuracy

The accuracy of amounts and account classification is achieved by establishing control tasks to check calculations, extensions, additions, and account classifications.

Completeness

Completeness controls ensure that all transactions are initially recorded on a control document and accepted for processing one time only.

Maintenance

The objective of maintenance controls is to monitor accounting records after the entry of transactions to ensure that they continue to reflect accurately the operations of the City.

Physical Security

Adequate physical protection of assets requires that access to assets be limited to authorized personnel.

1. Determination of Validity

- A. All transactions will be reviewed by the Finance Director or the Assistant Finance Director.
- B. Determination of validity will be made by examination of supporting documentation and check for appropriate approvals.

2. Control of Documents

- A. All transactions will be entered on a control document.
- B. Control documents will be pre-numbered, and physical control will be maintained over unissued documents.
- C. Control documents include the following:

- * Journal Vouchers/Debit Memoranda
- * Checks

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

- * Purchase Requisitions/Purchase Orders
- * Travel Authorization/Trip Report
- * Receipts

3. Check for Accuracy

- A. Documents supporting transactions will be checked for mathematical accuracy. The individual performing the check will initial or sign the document.

4. Record in Appropriate Journals

- A. As transactions are completed, they will be filed promptly in the appropriate filing area, including a notation or cross-reference indicating the completion of the transactions.

5. Check for Completeness

- A. Completeness of the transaction records will be established by reviewing the numerical control of items (Section 2 above) that have not been matched with supporting documentation, or are not complete. Review of control documents will be performed randomly.

6. Investigation of Unprocessed Transactions

- A. Unprocessed transactions will be investigated periodically by the Accounting Coordinator or a designee of the Finance Director.

7. Performance of Monthly Reconciliations

- A. Reconciliations between subsidiary records and control accounts will be performed monthly to ensure that postings are correct and adjustments have been properly processed.
- B. All differences will be investigated and resolved on a timely basis.

8. Safeguarding of Accounting Records

- A. All assets and the accounting records will be properly safeguarded to prevent theft.
- B. Assets will be tagged with sequential numbers, and recorded by the Finance Department.
- C. A physical inventory will be performed regularly, and compared to property records.
- D. Access to accounting records will be limited to authorized personnel.

- E. Electronic accounting records will be backed up daily to a reliable media. The most recent backup will be preferably stored off-site.

A. Independent Audits

- A. Audits by an independent CPA firm will be performed annually.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

- B. Consistent with the terms of the Purchasing Policy, a Request For Proposal will be issued for the purposes of contracting for audit services to ensure that qualified auditors are retained at the lowest cost possible.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

FINANCIAL POLICIES

FINANCIAL AND REPORTING SYSTEMS

The City's accounting and financial reporting systems shall be maintained in accordance with the standards prescribed by Generally Accepted Accounting Principles (GAAP) and the Governmental Accounting Standards Board (GASB).

INDEPENDENT AUDIT

The City Commission shall provide for an independent annual audit of all City accounts and may provide for more frequent audits as it deems necessary. Such audits shall be made by a certified public accountant or firm of such accountants who no personal interest, direct or indirect, in the fiscal affairs of the City governments or any of its officers. The City Commission may designate such accountant or firm annually or for a period not exceeding three years, but the designation for any particular year shall be made no later than thirty (30) days after the beginning of such fiscal year.

BUDGET

On or before the 15th day of July of each year, the City Manager shall submit to the City Commission a budget for the ensuing fiscal year and an accompanying message. The City Manager's message shall explain the budget both in fiscal terms and in terms of the work programs. It shall outline the proposed financial policies of the City for the ensuing fiscal year, describe the important features of the budget, indicate any major changes from the current year in financial policies, expenditures and revenues together with the reasons for such changes, summarize the City's debt position and include such other material as the City Manager deems desirable.

The budget shall provide a complete financial plan of all City funds and activities for the ensuing fiscal year and, except as required by law or this Charter, shall be in such form as the City Manager deems desirable or the City Commission may require. The budget shall begin with a clear general summary of its contents, shall show in detail all estimated income, indicating the proposed property tax levy, and all proposed expenditures, including debt service, for the ensuing fiscal year, and shall be so arranged as to show comparative figures for actual and estimated income and expenditures of the preceding fiscal year. It shall indicate in separate sections:

- (1) The proposed goals and objectives and expenditures for current operations during the ensuing fiscal year, detailed for each fund by organization unit and program, purpose or activity, and the method of financing such expenditures;
- (2) Proposed capital expenditures during the ensuing fiscal year, detailed for each fund by organization unit when practical, and the proposed method of financing each such capital expenditure; and
- (3) The anticipated income and expense and profit and loss for the ensuing year for each utility or other enterprise fund operated by the City.

For any fund, the total of proposed expenditures shall not exceed the total of estimated income plus carried forward fund balance, exclusive of reserves.

The City Commission shall publish in one or more newspapers of general circulation in the city a brief summary of the budget and a notice stating:

- (1) The times and places where copies of the message and budget are available for inspection by the public, and

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

(2) The time and place, not less than two weeks after such publication, for a public hearing on the budget.

After the public hearing, the City Commission may adopt the budget with or without amendment. In amending the budget, it may add or increase programs or amounts and may delete or decrease any programs or amounts, except expenditures required by law or for debt service or for an estimated cash deficit, provided that no amendment to the budget shall increase the authorized expenditures to an amount greater than total estimated income.

The City Commission shall adopt the budget on or before the 30th day of September of each year. If it fails to adopt the budget by this date, the then existing budget, together with any tax-levying Ordinance and appropriation Ordinance, shall be deemed adopted for the ensuing fiscal year on a month to month basis with all items in it prorated accordingly until such time as the City Commission adopts a budget for the balance of that fiscal year.

To implement the adopted budget, the City Commission shall adopt, prior to the beginning of the ensuing fiscal year:

- (a) An appropriation Ordinance making appropriations by department or major organizational unit and authorizing a single appropriation for each program or activity;
- (b) A tax levy Ordinance authorizing the property tax levy or levies and setting the tax rate or rates; and
- (c) Any other Ordinances required to authorize new revenues or to amend the rates or other features of existing taxes or other revenue sources.

If during the fiscal year the City Manager certifies that there are available for appropriation revenues in excess of those estimated in the budget, the City Commission may make supplemental appropriations for the year up to the amount of such excess.

To meet a public emergency affecting life, health, property or the public peace, the City Commission may make emergency appropriations. Such appropriations may be made by emergency Ordinance in accordance with the provisions of §2.13. To the extent that there are no available unappropriated revenues or a sufficient fund balance to meet such appropriations, the City Commission may by such emergency Ordinance authorize the issuance of emergency notes, which may be renewed from time to time, but the emergency notes and renewals of any fiscal year shall be paid not later than the last day of the fiscal year next succeeding that in which the emergency appropriation was made.

If at any time during the fiscal year it appears probable to the City Manager that the revenues or fund balances available will be insufficient to finance the expenditures for which appropriations have been authorized, the Manager shall report to the City Commission without delay, indicating the estimated amount of the deficit, any remedial action taken by the Manager and recommendations as to any other steps to be taken. The City Commission shall then take such further action as it deems necessary to prevent or reduce any deficit and for that purpose it may by Ordinance reduce one or more appropriations.

At any time during the fiscal year the City Commission may by Resolution or Ordinance transfer part or all of the unencumbered appropriation balance from one department or major organizational unit to other departments or major organizational units. To meet a public emergency affecting life, health, property or the public peace only, the City Manager may transfer part or all of any unencumbered appropriation balances among programs within a department or organizational unit and shall report such transfers to the City Commission in writing in a timely manner.

No appropriation for debt service may be reduced or transferred, and no appropriation may be reduced below any amount required by law to be appropriated or by more than the amount of the unencumbered

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

balance thereof. The supplemental and emergency appropriations and reduction or transfer of appropriations authorized by this section may be made effective immediately upon adoption.

Every appropriation, except an appropriation for a capital expenditure, shall lapse at the close of the fiscal year to the extent that it has not been expended or encumbered. An appropriation for a capital expenditure shall continue in force until expended, revised or repealed: the purpose of any such appropriation shall be deemed abandoned if three years pass without any disbursement from or encumbrance of the appropriation.

No payment shall be made or obligation incurred against any allotment or appropriation except in accordance with appropriation duly made and unless the City Manager or his designee first certifies that there is a sufficient unencumbered balance in such allotment or appropriation and that sufficient funds there from are or will be available to cover the claim or meet the obligation when it becomes due and payable. Any authorization of payment or incurring of obligation in violation of the provision of this Charter shall be void and any payment so made illegal. A violation of this provision shall be cause for removal of any officer who knowingly authorized or made such payment or incurred such obligation. Such officer may also be liable to the City for any amount so paid. Except where prohibited by law, however, nothing in this Charter shall be constructed to prevent the making or authorizing of payments or making of contracts for capital improvements to be financed wholly or partly by the issuance of bonds or to prevent the making of any contract or lease providing for payments beyond the end of the fiscal year, but only if such action is made or approved by Ordinance.

The City Manager shall prepare and submit to the City Commission a five year capital program no later than the final date for submission of the budget. The capital program shall include:

- (1) A clear general summary of its contents;
- (2) A list of all capital improvements and other capital expenditures which are proposed to be undertaken during the five fiscal years next ensuing with appropriate supporting information as to the necessity of each;
- (3) Cost estimates and recommended time schedules for each improvement or other capital expenditure;
- (4) Method of financing, upon which each expenditure is to be reliant; and
- (5) The estimated annual cost of operating and maintaining the facilities to be constructed or acquired.

The above shall be revised and extended each year with regard to capital improvements still pending or in process of construction or acquisition.

The City Commission shall publish in one or more newspapers of general circulation, in the City the general summary of the capital program and a notice stating:

- (1) The times and places where copies of the capital program are available for inspection by the public, and
- (2) The time and place, not less than two weeks after such publication, for a public hearing on the capital program.

The City Commission by resolution shall adopt the capital program with or without amendment after the public hearing on or before the 30th day of September of the current fiscal year.

The City Commission shall provide by Ordinance the procedures for administering the budget.

Copies of the budget, capital program and appropriation and revenue Ordinances shall be public records and shall be made available to the public at suitable places in the City.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

BUDGETING AS A CONTROL MECHANISM

On a monthly basis, departmental revenue and expenditure statements will be provided to the City manager and to the department managers for review. The statements provide monthly and year to date amounts and percentages of budgeted appropriations expended by fund, department and account (line-item). An explanation for any budget line item that exceeds or falls below 10% of the year to date budget benchmark will be forwarded to the Director of Finance. The year to date budget benchmark is the sum of the number of months lapsed in the fiscal year, divided by 12.

INVESTMENT POLICY

The City's Investment Policy establishes policies for the cash management and investment of funds of the City of San Benito in accordance with the Public Funds Investment Act, Chapter 2256, Texas Government Code, (the "Act"), Public Funds Collateral Act, Chapter 2257, Texas Government Code, and other applicable federal, state and local requirements. The cash management and investment of all funds shall be governed by the following investment objectives, in order of priority:

Safety – The primary objective of the CITY's investment activity is the preservation and safety of principal. Each investment transaction shall seek to first avoid capital losses, whether they arise from issuer defaults or erosion of market value. Credit risk shall be managed through collateralization of bank deposits and prohibition of corporate entity risk.

Liquidity – The second objective of the CITY's investment portfolio is to remain sufficiently liquid to meet operating requirements. Liquidity shall be achieved by matching investment maturities with estimated cash flow requirements, maintaining liquid reserves and by investing in securities with active secondary markets.

Diversification – It is the CITY's policy to diversify its investment portfolio. Invested funds shall be diversified to minimize risk or loss resulting from over-concentration of assets in a specific maturity, specific issuer, or specific class of investment, when appropriate. Cash flow projections shall be utilized to spread investment maturities, smooth market fluctuations, and reduce reinvestment risk.

Yield – Subordinate to the safety and liquidity objectives, the CITY's investment activity shall seek to earn competitive market rates of return commensurate with the appropriate level of risk.

PLANT, PROPERTY, AND EQUIPMENT

All additions to plant, property, and equipment will be properly authorized. Expenditures for tangible assets used actively in City operations that benefit a period exceeding one fiscal year, and whose acquisition cost basis is \$500 or greater, will be capitalized.

Accurate records will be maintained of the cost and accumulated depreciation of property, plant, and equipment.

The cost (less salvage value) of all capitalized assets will be allocated (depreciated) over their estimated useful lives in a rational and systematic manner. One of four generally accepted depreciation methods can

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

be used to systematically allocate an asset's cost over its useful life: straight-line, declining balance, sum of the year's digits, or units of production.

Control will be maintained over capital assets and their related records to ensure that all recorded assets exist and are in use for operations. The physical existence of capital assets will be verified and reconciled to the fixed asset records.

Disposal of capital assets will occur only after proper authorization has been given. Control over the disposition of property will be maintained not only to preserve the accuracy of records but also to ensure that assets are safeguarded, improper disposal is avoided, and the best possible terms are received for disposal.

DEBT ISSUANCE POLICY

This policy applies to all long-term debt securities issued by the City and may include general obligation bonds G.O., certificates of obligation C.O., revenue bonds, capital leases, private placements, and letters of credit.

General purpose debt and tax-supported debt instruments are recorded in the City's Long-term Debt Account Group while current principal and interest requirements and necessary resources to service debt instruments are recorded in the City's Debt Service Fund.

Certificates of Obligation are recorded in the fund that generates user fees that are pledged to repay the debt. For example, Water Certificates of Obligation are recorded in the Water Enterprise Fund, Wastewater Certificates of Obligation in the Wastewater Enterprise Fund. A Certificate of Obligation may be allocated between the Water and Wastewater funds based on the stated purpose of the debt issuance. All certificates of obligation issued by the City shall be approved by ordinance and issued in accordance with the laws of the State of Texas.

An exception may occur when a self-supported issuance is supported by a dedicated tax such as Hotel/Motel Tax. In this situation, the certificates will be recorded in the City's Long Term Debt Account Group, because they are considered general-purpose debt.

Revenue bonds are recorded in the Enterprise Fund that generates the user fees that represent the underlying revenue pledge for the debt. For example, Water and Wastewater Revenue Bonds are recorded as a liability in the Water and/or Wastewater Enterprise Fund(s).

Capital leases for governmental funds are recorded in the Long-Term Debt Account Group. Capital leases for enterprise funds are recorded in the Enterprise Funds.

Each of the funds referred to above is accounted for in the City of San Benito Comprehensive Annual Financial Report ("CAFR").

All bond funds approved by a vote of the citizens of the City of San Benito, Texas will be expended only for the purposes stated in the bond issue.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

FUND BALANCE POLICY

Purpose

The purpose of this policy is to ensure that fund balances are reported in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Government Accounting Standards Board (GASB). GASB No. 54 Fund Balance Reporting and Governmental Fund Type Definitions was issued to improve the usefulness and comparability of fund balance information. The standard clarifies the definitions of the different types of funds that a governmental entity may establish for financial reporting purposes.

Definitions

The standard also requires the classification of fund balance among the following categories:

- Non-spendable Fund Balance – Fund balance reported as “non-spendable” represents fund balance associated with non-current receivables, inventory or prepaid items. The cash outlay for these types of items has already been made and therefore the resources represented by this fund balance category cannot be spent again; hence the term “non-spendable”.
- Restricted Fund Balance – Fund balance reported as “restricted” represents amounts that can be spent only on the specific purposes stipulated by law or by the external providers of those resources.
- Committed Fund Balance – Fund balance reported as “committed” includes amounts that can be used only for the specific purposes determined by a formal action of our City’s highest level of decision-making authority, the City Commissioners.
- Assigned Fund Balance – Fund balance reported as “assigned” represents amounts intended to be used for specific purposes, but not meeting the criteria to be reported as committed or restricted fund balance. In addition, our governing body may grant to an administrator within our organization the authority to “assign” fund balance.
- Unassigned Fund Balance – Fund balance reported as “unassigned” represents the residual classification of fund balance and includes all spendable amounts not contained within the other classifications.

Policy

It is the policy of the City that the governing body may commit fund balance for any reason that is consistent with the definition of Committed Fund Balance contained within GASB-54. Examples of reasons to commit fund balance would be to display intentions to use portions of fund balance for future capital projects, stabilization funds, or to earmark special General Fund revenue streams unspent at year-end that are intended to be used for specific purposes.

After approval by the City Commissioners, the amount reported as Committed Fund Balance cannot be undone without utilizing the same process required to commit the funds. Therefore, in accordance with GASB-54, it is the policy of the City that funds can only be removed from the Committed Fund Balance category after motion and approval by the City Commissioners.

In accordance with GASB-54, funds that are intended to be used for a specific purpose but have not received the formal approval action at the governing body level may be recorded as Assigned Fund Balance.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Likewise, redeploying assigned resources to an alternative use does not require formal action by the governing body.

GASB-54 states that resources can be assigned by the governing body or by another internal body or person whom the governing body gives the authority to do so, such as the City Manager or Director of Finance.

Therefore, having considered the requirements to assign fund balance, it is the policy of the City that the City Manager will have the authority to assign fund balance of this organization based on intentions for use of fund balance communicated by the governing body.

It is the policy of the City that when expenditures are incurred that would qualify as expenditures of either Restricted Fund Balance or Unrestricted Fund Balance (Committed, Assigned, or Unassigned), those expenditures will first be applied to the Restricted Fund Balance category.

Furthermore, it is the policy of the City that when expenditures are incurred that would qualify as a use of any of the Unrestricted Fund Balance categories (Committed, Assigned, or Unassigned), those expenditures will be applied in the order of Committed first, then Assigned, and then Unassigned.

It is the policy of this City to maintain at all times an overall Unrestricted Fund Balance: that not otherwise designated for a specific purpose (Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance) of not less than two (2) months of regular General Fund operating expenditures, measured based on the most recently completed fiscal year. If it is determined that the City is below this minimum established fund balance level, the governing body will be informed of this condition and take necessary budgetary steps to bring the fund balance level into compliance with this policy through budgetary actions.

PERSONNEL POLICIES

The purpose of these policies is to provide a uniform policy for the City's employees, with all of the benefits that such a program insures and with the expectation that this will result in a high degree of understanding, cooperation, efficiency, and unity to better serve the citizens of San Benito.

The basic objectives of these personnel policies are:

- a. To promote and increase efficiency and economy in the service of the City.
- b. To provide fair and equal opportunity to all qualified applicants to enter City employment on the basis of demonstrated qualifications, merit and fitness as ascertained through fair and practical methods of recruitment and selection.
- c. To develop a program of recruitment, advancement, and tenure which will make employment with the City attractive as a career and encourage each employee to render his/her best services to the City.
- d. To establish and promote high morale among City employees by providing a good working environment, uniform personnel policies, opportunity for advancement, and consideration for employee needs and desires.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

GLOSSARY

Account: A term used to identify an individual asset, liability, expenditure control, revenue control, encumbrance control, or fund balance.

Accounting System: The total structure of records and procedures which discover, record, classify, and report information on the financial position and operations of a governmental unit or any of its funds, balanced account groups, and organizational components. Sometimes referred to as Chart of Accounts and/or Account Classification System.

Accounts Receivable: Amounts owing on open account from private persons, firms, or corporations for goods and services furnished by a governmental unit (but not including amounts due from other funds of the same governmental unit).

Accrual Basis: The basis of accounting under which revenues are recorded when earned and expenditures are recorded as soon as they result in liabilities for benefits received, notwithstanding that the receipt of the revenue or the payment of the expenditure may take place, in whole or in part, in another accounting period.

Accrue: To record revenues when earned and to record expenditures as soon as they result in liabilities for benefits received, notwithstanding that the receipt of the revenue or payment of the expenditure may take place, in whole or in part, in another accounting period.

Accrued Expenses: Expenses incurred during the current account period but which are not payable until a subsequent accounting period.

Accrued Interest Payable: A liability account which represents the amount of interest accrued at the balance sheet date but which is not due until a later date.

Accrued Revenue: Revenue earned during the current accounting period but which is not collected until a subsequent accounting period.

Activity: A specific and distinguishable line of work performed by one or more organizational components of a governmental unit for the purpose of accomplishing a function for which the governmental unit is responsible. For example, "Code Enforcement" is an activity performed in the discharge of the "Public Safety" function.

Ad Valorem: In proportion to value. A basis for levy of taxes upon property.

Budget Document: The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body. The budget document usually consists of three parts. The first part contains a message from the budget-making authority, together with a summary of the proposed expenditures and the means of financing them. The second part consists of schedules supporting the summary. These schedules show in detail the information as to past years' actual revenues, expenditures, and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue, and borrowing measures necessary to put the budget into effect.

Budgetary Accounts: Those accounts which reflect budgetary operations and condition, such as estimated revenues, appropriations, and encumbrances, as distinguished from proprietary accounts.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Budgetary Control: The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitation of available appropriations and available revenues.

Capital Budget: A plan of proposed capital outlays and the means of financing them for the current fiscal period. It is usually a part of the current budget. If a Capital Program is in operation, it will be the first year thereof. A Capital Program is sometimes referred to as a Capital Budget.

Capital Outlays: Expenditures, which result in the acquisition of or addition to fixed assets.

Capital Projects Fund: A fund created to account for financial resources to be used for the acquisition or construction of major capital facilities and/or designated fixed assets (other than those financed by special assessment, trust, special revenue, and enterprise funds).

Cash Basis: The basis of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

CDBG: Acronym for “Community Development Block Grant.”

Current Liabilities: Liabilities which are payable within a relatively short period of time, usually no longer than a year.

Current Revenue: Revenues of a governmental unit that is available to meet expenditures of the current fiscal year.

Current Taxes: (1) Taxes levied and becoming due during the current fiscal period, from the time the amount of the tax levy is first established to the date on which a penalty for nonpayment is attached. (2) Taxes levied in the preceding fiscal period but becoming due in the current fiscal period, from the time they become due until a penalty for nonpayment is attached.

Current Year's Tax Levy: Taxes levied for the current fiscal period.

Debt: An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of governmental units include bonds, time warrants, notes, and floating debt.

Debt Service Fund: A fund established to finance and account for the payment of interest and principal on all general obligation debt, serial and term, other than that payable exclusively from special assessments and revenue debt issued for and serviced by a governmental enterprise. Formally called a Sinking Fund.

Debt Service Fund Requirements: The amounts of revenue which must be provided for a debt service fund so that all principal and interest payments can be made in full on schedule.

Deficit: (1) The excess of the liabilities and reserves of a fund over its assets. (2) The excess of expenditures over revenues during an accounting period; or, in the case of Enterprise and Intra-governmental Service Funds, the excess of expense over income during an accounting period.

Depreciation: (1) Expiration of the service life of fixed assets, other than wasting assets, attributable to wear and tear through use and lapse of time, obsolescence, inadequacy, or other physical elements for functional causes. (2) The portion of the cost of a fixed asset charged as an expense during a particular period.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Encumbrances: Obligations in the form of purchase orders, contracts, or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or when the actual liability is set up.

Enterprise Debt: Debt that is to be retired primarily from the earnings of publicly owned and operated enterprises. See also **Revenue Bonds**.

Enterprise Fund: A fund established to finance and account for the acquisition, operation, and maintenance of governmental facilities and services that are entirely or predominantly self-supporting by user charges. Examples of enterprise funds are those for water, gas, and electric utilities, swimming pools, airports, parking garages, and transit systems.

Modified Accrual Basis.

Expenditures: Where the accounts are kept on the accrual basis or the modified accrual basis, this term designates the cost of goods delivered or services rendered, whether paid or unpaid, including expenses, provision for debt retirement not reported as a liability of the fund from which retired and capital outlays. Where the accounts are kept on the cash basis, the term designates only actual cash disbursements for these purposes.

Expenses: Charges incurred, whether paid or unpaid, for operation, maintenance, interest, and other charges which are presumed to benefit the current fiscal period.

Fiscal Year: A twelve-month period of time to which the annual budget applies and at the end of which a governmental unit determines its financial position and the results of its operations.

Fixed Assets: Assets of a long-term character which are intended to continue to be held or used, such as land, buildings, machinery, furniture, and other equipment.

Franchise: A special privilege granted by a government permitting the continuing use of public property, such as city streets, and usually involving the elements of monopoly and regulation.

Function: A group of related activities aimed at accomplishing a major service or regulatory program for which the City is responsible. For example, public safety is a function.

Functional Classification: A grouping of expenditures on the basis of the principal purposes for which they are made. Examples are public safety, public health, public welfare, etc.

Fund Accounts: All accounts necessary to set forth the financial operations and financial condition of a fund.

Fund Balance: The excess of the assets of a fund over its liabilities and reserves, except in the case of funds subject to budgetary accounting where, prior to the end of a fiscal period, it represents the excess of the fund's assets and estimated revenues for the period over its liabilities, reserves, and appropriations for the period.

General Fund: A fund used to account for all transactions of a governmental unit that are not accounted for in another fund. The General Fund is used to account for the ordinary operations of a governmental unit that are financed from taxes and other general revenues.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Governmental Accounting: The composite activity of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of governmental units and agencies.

Governmental Fund Types: Funds used to account for the acquisition, use and balances of expendable financial resources and the related current liabilities - except those accounted for in proprietary funds and fiduciary funds. In essence, these funds are accounting segregations of financial resources. Expendable assets are assigned to a particular governmental fund type according to the purposes for which they may or must be used. Current liabilities are assigned to the fund type from which they are to be paid. The difference between the assets and liabilities of governmental fund types is referred to as fund balance. The measurement focus in these fund types is on the determination of financial position and changes in financial position (sources, uses and balances of financial resources), rather than on net income determination. The statement of revenues, expenditures and changes in fund balance is the primary governmental fund type operating statement. It may be supported or supplemented by more detailed schedules of revenues, expenditures, transfers and other changes in fund balance.

Transfers.

Inter-fund Transfers: Amounts transferred from one fund to another.

Liabilities: Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date.

Long-Term Debt: Debt with a maturity of more than one year after the date of issuance.

Modified Accrual Basis: A system under which some accruals, usually costs, are recorded but others, usually revenues, are not. The extent of modification varies in practice, depending upon the accountant's judgment.

Non-operating Expenses: Expenses incurred for non-operating properties or in the performance of activities not directly related to supplying the basic services of a governmental enterprise. An example of a non-operating expense is interest paid on outstanding revenue bonds.

Non-operating Income: Income of governmental enterprises that is not derived from the basic operations of such enterprises. An example is interest on investments or on bank time deposits.

Operating Budget: Operating budgets serve many purposes within a government entity, but they have two primary purposes: (1) to plan the services that are going to be offered during the coming year and set priorities; (2) to conform to legal requirements to ensure that expenditures do not exceed those appropriated. Operating budgets are also called Annual Budgets.

Operating Expenses: (1) As used in the accounts of governmental enterprises, the term means those costs which are necessary to the maintenance of the enterprise, the rendering of services, the sale of merchandise, the production and disposition of commodities produced, and the collection of enterprise revenues, and (2) the term is also sometimes used to describe expenses for general governmental purposes.

Operating Income: Income of a governmental enterprise that is derived from the sale of its goods and/or services. For example, income from the sale of water by a municipal water utility is operating income.

Operating Revenues: Revenues derived from the operation of governmental enterprises of a business character.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

Ordinance: A formal legislative enactment by the council or governing body of a municipality. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies. **Note:** The difference between an ordinance and a resolution is that the latter requires less legal formality and has a lower legal status. Ordinarily, the statutes or charter will specify or imply those legislative actions that must be by ordinance and those which may be by resolution. Revenue raising measures, such as the imposition of taxes, special assessments and service charges, universally require ordinances.

Proprietary Accounts: Those accounts which show actual financial position and operations, such as actual assets, liabilities, reserves, fund balances, revenues, and expenditures, as distinguished from budgetary accounts.

Proprietary Fund Types: Sometimes referred to as income determination or commercial-type funds, the classification used to account for a government's ongoing organizations and activities that are similar to those often found in the private sector (i.e., enterprise and internal service funds). All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business and quasi-business activities are accounted for through proprietary funds. The GAAP used are generally those applicable to similar businesses in the private sector and the measurement focus is on determination of net income, financial position and changes in financial position.

Reserve: An account which records a portion of the fund balance which must be segregated for some future use and which is, therefore, not available for further appropriation or expenditure. A Reserve for Inventories equal in amount to the Inventory of Supplies on the balance sheet of a General Fund is an example of such a reserve.

Retained Earnings: The accumulated earnings of an Enterprise or Internal Service Fund which have been retained in the fund and which are not reserved for any specific purpose.

Revenue: For those revenues which are recorded on the accrual basis, this term designates additions to assets which: (a) do not increase any liability; (b) do not represent the recovery of an expenditure; (c) do not represent the cancellation of certain liabilities without a corresponding increase in other liabilities or a decrease in assets; and (d) do not represent contributions of fund in Enterprise and Internal Service Funds. The same definition applies to those cases where revenues are recorded on the modified accrual or cash basis, except that additions would be partially or entirely to cash.

Special Revenue Fund: A fund used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government. Includes intergovernmental revenue in the form of state and federal grant funds.

Tax Levy: The total amount to be raised by general property taxes for purposes specified in the Tax Levy Ordinance.

Tax Levy Ordinance: An ordinance by means of which taxes are levied.

Tax Rate: The amount of tax levied for each \$100 of assessed valuation.

Utility Fund: See **Enterprise Fund**.

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

APPENDIX

CITY OF SAN BENITO – ANNUAL OPERATING BUDGET

TAX RATE ORDINANCE NO. 2516

TAX RATE ORDINANCE NO. 2516

AN ORDINANCE LEVYING THE TAX RATE FOR THE CITY OF SAN BENITO, TEXAS FOR THE YEAR 2014.

NOW THEREFORE, BE IT ORDAINED AND ORDERED BY THE CITY COMMISSION OF THE CITY OF SAN BENITO, TEXAS THAT:

We, the City Commission of the City of San Benito, do hereby levy or adopt the tax rate on \$100.00 valuation for tax year 2014 as follows:

\$0.656844 maintenance and operations (General Fund)
\$0.071281 principal and interest on bonds
\$0.728125 total tax rate

THIS TAX RATE WILL RAISE NO MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE.
