XVI. MANAGER’S REPORT – Brian Reed, Township Manager

Manager Reed presented his updates to the Township Board:

- MDOT began work on the Nixon Rd/M43 traffic signal including installation of ADA ramps and crossings.
- Tri-County Regional Planning put out their 2022-2026 Transportation Improvement Plan for public comment until February 15.
 - Two projects in Delta Township have been included in that plan.
 - Received \$635,000 in CMAC funds to connect pathway in front of Waverly school, up to Ivan, and over to Mall Dr.
- Eaton County Road Commission has their annual meeting on Monday, February 21.
- Auto Owners has offered a tour to Board members of their new facility. 236,000 sq ft building with close to a \$1,000,000 investment.
- Vac Truck had 4 out of 5 companies bid on it. Budgeted \$480,000 dollars and bids came in close to what was planned.
- Pre-bid meeting for the Water Resources Recovery facility recently took place. Over 60 people attended. Anticipating 6-8 general contractors bidding on the project. Hopeful for better pricing. Bidders expressed concerns about supply chain issues and volatile pricing. Bids are due February 24.
- Article featured in the Lansing State Journal focusing on new black owned businesses that are thriving. The article featured three businesses located in Delta and one business that operates primarily out of the Township.

XVII. COMMITTEE OF THE WHOLE

6. General Motors Battery Facility and Infrastructure Update

Manager Reed provided an update to the Board regarding the GM Battery Facility and Township infrastructure related to the project. A brief discussion ensued among Board members regarding the information provided by Manager Reed and staff.

7. Assessing Annual Report

Mr. Droste presented the Assessing Department 2021 Annual Report to the Board.

Members Absent: Trustee Karen J. Mojica

Others Present: Manager Brian T. Reed, Assistant Manager Alannah Doak, Fire Chief Gregg Ginebaugh, Parks, Recreation, and Cemeteries Director Marcus Kirkpatrick, Finance Director Courtney Nicholls, Township Engineer Ernie West, Engineering Department Assistant Jennifer Bernardin, and Lt. Ross Tyrell

TRUSTEE CASCARILLA MOVED TO EXCUSE TRUSTEE MOJICA FROM THE FEBRUARY 14, 2022, BOARD MEETING.

TRUSTEE BOWEN SUPPORTED THE MOTION. MOTION PASSED 6-0.

IV. SET/ADJUST AGENDA

Trustee Bowen requested a discussion be added to the committee of the whole for the board to consider becoming the fourth municipality in Michigan to provide free menstrual products in all of the township's public bathrooms.

TRUSTEE BOWEN MOVED TO APPROVE THE AGENDA AS AMENDED.

TRUSTEE CASCARILLA SUPPORTED THE MOTION. MOTION PASSED 6-0.

V. PUBLIC COMMENTS

CHARTER TOWNSHIP OF DELTA
MONDAY, FEBRUARY 14, 2022 COMMITTEE OF THE WHOLE MINUTES

Alana Chriest, 6221 Delta River Dr., voiced her displeasure about the current state of Hawk Meadow Park. Asked questions related to the Parks Department annual report and conservation.

VI. MANAGER'S REPORT

Manager Reed presented his updates to the Township Board:

- Informed the Board that additional Delta masks had been ordered and are now available to them.
- Utility Department now has thermometers for residents to exchange their mercury thermometers for recycling.
- Water Resource Recovery Facility bids are due on February 24. Plans are available for review tonight in the hallway.
- Tomorrow the first responder retention and training grant is due. The Township plans to submit an application.
- Bids are out for well plugging.
- BWL is expanding testing of wells and have been working with homeowners. Municipal water is not affected.
- The South Entrance to the administration building will soon become ADA accessible.
- The Townships annual audit began today and will be a weeklong effort.
- The Accounting department had two new employees start today.
- Taxes are due today.

VII. ITEMS ADDED TO AGENDA UNDER SECTION IV. SET/ADJUST AGENDA

1. Discussion to Consider Providing Menstrual Products in All Township Owned Restrooms

Trustee Bowen asked the Board to consider becoming the fourth municipality in Michigan to provide free menstrual products in all of the township's public bathrooms. Consensus of the Board was to direct staff to research whether it is an allowed expenditure, what the anticipated cost would be for the Township, and explore the logistics of implementation.

VIII. COMMITTEE OF THE WHOLE

2. Sheriff's Substation Update and Next Steps

Township Engineer Ernie West provided a project update introduction to the Board regarding the Sheriff's Substation. Rob Crowe from Christman Company, Dennis Jensen from C2AE, and Tom Jamieson from Martin Commercial Properties gave a presentation to the Board on efforts taken so far to determine the project scope, project budget, and site selection.

CHARTER TOWNSHIP OF DELTA
MONDAY, FEBRUARY 14, 2022 COMMITTEE OF THE WHOLE MINUTES

Discussion ensued among Board members, staff, consultants, and the County Sheriff's Office regarding the information provided. Consensus of the Board was to direct staff to move forward with option A – the current location of the Sheriff's Substation - for the design of a potential new Sheriff's Substation.

3. Parks and Recreation Annual Report

Parks Director Marcus Kirkpatrick presented the Parks Department 2021 Annual Report to the Board.

IX. CLOSED SESSION

X. ADJOURNMENT

Supervisor Fletcher adjourned the meeting at 8:19 PM.

CHARTER TOWNSHIP OF DELTA

KENNETH R. FLETCHER, SUPERVISOR

MARY R. CLARK, TOWNSHIP CLERK

To: Supervisor Kenneth R. Fletcher and the Delta Township Board

From: Marcus Kirkpatrick, Parks, Recreation, and Cemeteries Department Director

Date: February 17, 2022

Subject: Set the Public Hearing for 2022 Michigan Department of Natural Resources (DNR) Grants

At the February 14, 2022, Committee of the Whole meeting, I shared our request to submit a 2022 DNR Grant. With acknowledgment of the board to pursue the grant, we have begun work to complete the grants by the April 1, 2022, deadline. The grant would be submitted to the Michigan Natural Resources Trust Fund. The grant, funding source, and additional information are listed below:

1. Construction of a shared use pathway between Delta Mills Park and Hawk Meadow Park.

One of the requirements to apply for the abovementioned grants, is for a public hearing to be held. We are also required to have the board to pass a resolution, for each grant, in support of pursuing the grant applications and agreeing to the match amounts. We would like to present the following motions for your support:

“I move that the Delta Township Board set a Public Hearing for Monday, March 21, 2022, for the purpose of presenting and discussing the proposed 2022 Delta Township grant application for the Michigan Department of Natural Resources Trust Fund grant program.

I further move, that the Clerk be hereby directed to publish notice of the Public Hearing in the newspaper.”

Subject: Purchase Approval Request – Replacement Toughbook Computers

Attached please find a quote provided by IT Director Dave Marquette from CDW in the amount of \$26,128.48 for the replacement of the Toughbook computers he recommends be replaced in our ambulances.

This equipment has been approved in the FY2022 budget under the EMS capital outlay line item.

The quote is through MiDEAL, which is a state-extended purchasing program that allows municipalities, and other governmental, educational and non-profit entities to buy goods and services via state-negotiated contracts.

Per the Purchasing Policy (*Cooperative Government Contracts*): Should the township be able to secure quality products at favorable prices by joining with other local units of government or participating in a State of Michigan or federal government purchasing program, the township manager may waive the formal bidding process.

I offer the following resolution for your consideration:

“I move the Delta Township Board direct the township manager to waive the formal bidding process and authorize the purchase of seven Toughbook computers with accidental damage coverage in the amount of \$26,128.48 from CDW-G.”

Thank you for your consideration of this request to proceed with this purchase.

RE: Request for Purchase Approval – Self Contained Breathing Apparatus (SCBA)

Summary

The Delta Township Fire Department is in the process of replacing our aging SCOTT Self-Contained Breathing Apparatus (SCBA). This process began a year ago while we were writing for a FEMA AFG (Assistance to Firefighter Grant). As part of our due diligence in the grant writing process, we requested price quotes for 2019 NFPA compliant SCBA from three of the major vendors available, and also requested that demo units of each brand be available for staff to evaluate.

The three major vendors that we requested demo units from were:

- SCOTT, (brand currently used)
- MSA
- Draeger

We requested cost estimates and demo units from these three vendors because of our experience with all of them, as well as their warranties, familiarity, serviceability, and fire service reputation.

The information received included costs for a complete SCBA, which includes the SCBA frame and two bottles, RIT (Rapid Intervention Team) bags that include one SCBA frame, bottle, and mask for use with trapped firefighters, and individual pricing for accessories such as spectacle kits; adapters; soft goods; shipping costs and staff training costs.

SCBA are an essential part of firefighter personal protection equipment when operating in environments that are Immediate Dangerous to Life and Health (IDLH). These environments include all fires; hazardous materials incidents; low oxygen level areas, confined spaces, and fire investigations.

Background

The Delta Township Fire Department submitted a grant request for Fiscal Year (FY) 2020 Assistance to Firefighters Grants grant number EMW-2020-FG-11637, for the replacement of Self-Contained Breathing Apparatus (SCBA) that ranges from eleven (11) years of age to twenty-nine (29) years of age.

Unfortunately, we did not receive the AFG approval to use grant funding for purchasing new SCBA. We did, however, include the cost of purchasing replacement SCBA in the 2022 Capital Improvement Plan and the 2022 Annual Budget process in the event we did not receive the grant.

Currently the department has a total of 67 (sixty-seven) SCBA ensembles, of which only 21 (twenty-one) are still in service, and those 21 are at end of life. At the time of purchase of the units in our cache, the projected life expectancy was 10 (ten) years.

The replacement SCBA units have a 15 (fifteen) year life expectancy.

In addition to the age of our current SCBA, the soft goods parts (straps, material shoulder harnesses, waist belt) cannot be detached to be decontaminated. Therefore, our current SCBA cannot be completely decontaminated.

As part of our initiative to reduce cancer, we have recently received a Sutphen Fire Pumper with the clean cab concept to reduce our exposure to the cancer-causing byproducts of fire, as well as an additional Fire Pumper and Aerial Apparatus with the same clean cab concept. We also have a Capital Improvement budget item for an SCBA decontamination unit that will clean the chemicals from SCBA.

All of the demo SCBA units were evaluated for:

- Total weight
- Comfort
- Fit
- Universal fittings
- Range of vision of the facepiece/mask
- Range of motion
- Adjustability of SCBA frame to fit staff of varying sizes and stature
- SCBA bottle weight
- Ease of soft goods detachment for decontamination
- Training needed to service SCBA
- Evaluated in real-life scenarios at our live fire training building

Based upon physical evaluation of the three SCBA manufacturers, the Draeger Self Contained Breathing Apparatus was the preferred SCBA to purchase by the Delta Township Fire Department.

During our SCBA evaluation process, we learned that a competitive bid process had occurred in Muskegon. The “Muskegon Charter Township Fire Department Request for Proposals for Self-Contained Breathing Apparatus and Accessories County RFP for SCBA”, awarded Phoenix Safety Outfitters the bid for Draeger SCBA – the same units that we have elected to purchase.

That bid award expired on January 31, 2022. Phoenix Safety Outfitters has extended this price to February 28, 2022.

There is a significant cost savings by using this already awarded price RFP.

Policy

Cooperative Government Contracts: Should the Township be able to secure quality products at favorable prices by joining with other local units of government or participating in a State of Michigan or federal government purchasing program, the Township Manager may waive the formal bidding process.

Financial Impact

The Delta Township/Delta Township Fire Department will purchase the Self-Contained Breathing Apparatus on behalf of the Looking Glass Regional Fire Authority (LGRFA). The LGRFA will reimburse Delta Township for the cost of their portion of the purchase (see chart below).

The following shows the price breakdown utilizing the Muskegon RFP pricing. Clearly Phoenix Safety Outfitters will save both Delta Township and the Looking Glass Regional Fire Authority a combined total of \$120,259.79 by utilizing the Muskegon Charter Township Fire Department Request for Proposals for Self-Contained Breathing Apparatus and Accessories County RFP for SCBA.

Brand	DRAEGER
Vendor	*Phoenix Safety
	\$399,114.75

LGRFA	\$58,374.54
Delta	
Twp	\$340,740.21
Budgeted	\$461,000.00
SAVINGS	\$120,259.79

- Quote #189878 Draeger, Phoenix Safety Outfitters

Recommendation:

The Townships purchasing policy states any purchase over \$25,000 requires a formal bid process. The sealed bids conducted by Muskegon Charter Township for Self-Contained Breathing Apparatus (SCBA) and Accessories, meets the requirements of the Townships Purchasing Policy. Of the three manufacturer's distributors, 2 (two) distributors submitted competitive bids to Muskegon Charter Township. Phoenix Safety Products submitted the lowest responsible bid. It has been determined that it is in the best interest of the Township to waive the formal bidding process as specified in the purchasing policy and enter into a purchase agreement with Phoenix Safety Outfitters for the purchase of Self Contained SCBA and related accessories outlined in the attached Quote #189878.

To fully understand how the Draeger SCBA functions, please review the following Draeger video:

Thank you for your continued support!

Respectfully,

Gregory S. Ginebaugh, BS PEM
Fire Chief

Memo

To: Muskegon Charter Township Board
From: Chief Glotzbach
Date: January 13, 2021 
Re: Request to Purchase Drager Self Contained Breathing Apparatus

The 2021 Budget includes \$245,000.00 for the purchase of new SCBA's, in anticipation of this purchase an RFP was sent to three authorized sales representatives for the three different manufacturers under consideration. We received sealed proposals from two of the three sales representatives.

The committee was provided with the RFP, received proposals, the recommendation from Captain Morgan, our SCBA Committee Representative and the breakdown of SCBA's and components requested for purchase.

The committee recommends purchasing the Drager SCBA and listed items from Phoenix Safety Outfitters for \$224,753.92. The funds will come from the Fire Equipment Fund.

Muskegon Charter Township Fire Department
Request for Proposals
Self Contained Breathing Apparatus and Accessories

Intent of Request for Proposal

It is the intent of the Muskegon Charter Township Fire Department to receive bid proposals on behalf of any fire department, in the State of Michigan, choosing to utilize this specification; known as Muskegon Area S.C.B.A. Specification 2020. All bid proposals received must be for purchasing new, NIOSH & NFPA 1981 & 1982 Standard, 2018 edition compliant, Self Contained Breathing Apparatus.

All questions regarding this proposal shall be directed to Chief David Glotzbach 1117 S. Walker Road Muskegon, MI 49442; office phone (231) 773-4316.

Firm Time and Price

The company shall provide quantity pricing based upon a multi-department order of no less than 150 complete Self Contained Breathing Apparatus', with one additional air cylinder per SCBA ordered. Pricing must be itemized by the following individual components then totaled for a price per complete unit:

- Complete SCBA with face piece w/detachable regulator/hose and spare cylinder
- Voice Amplification System Option/s
- Buddy Breather Hose & Carrying Pouch
- SCBA face piece storage bag
- Shipping Costs
- N-100 Cartridge Adapter
- 2 sets N100 Cartridges

This price shall be valid for one year from the date of bid opening.

Additional price quotes are requested for the following items, based on single unit pricing when ordered with the SCBA quantity order.

- Complete Set of Spare straps/soft goods for SCBA
- Integrated Thermal Imaging Option
- Integrated Accountability/Tracking Software
- Datalogging Software/Hardware
- Spare Regulator and hose assembly w/universal quick connect
- Spare face piece & Storage Bag
- 1 hour 4500 psi Cylinder w/ quick connect option
- SCBA Vehicle in seat Bracket
- SCBA Vehicle Cabinet Bracket
- Spectacle Kit

- All sizes of face pieces configured for utilization to complete fit testing with a *Port A Count* fit testing unit.
- RIC Pack with UIC Buddy breather and face piece connections w/ 1 hour 4500 psi cylinder
- Software compatible with Honeywell *Posi-Check Unit*
- Spare Rechargeable Battery Pack
- Battery Recharge Station
- SCBA Hard Carry Case

All pricing shall be entered on the itemized price sheet provided.

Sales Tax

All items will be exempt from payment of State and Local sales tax. Exemption certificates will be provided by each municipality if requested.

Warranty

The submitted proposal must include warranty information, specific for each item, providing against defects in materials and workmanship. Warranty documentation will be clear and concise to facilitate evaluation between makes and models.

Transportation/Delivery

All proposals must include the cost of delivery to each individual fire department that places an order from this proposal.

Training

The vendor shall supply initial training of SCBA and all related components, after delivery. One training session shall be provided for every quantity of twenty SCBA units ordered at one time. Time and location will be coordinated with the vendor and all departments who order.

Separate initial and first re-certification training cost to certify personnel to a level of competency to conduct field service and repairs are to be included in the proposal. The specific training, including hours required for certification, training location and the duration the certification is valid shall be included in the proposal.

Cleaning/Decontamination Documentation

Bid proposal must include manufacturer recommended step by step cleaning instructions for all components, including but not limited to, the SCBA back-frame, straps/soft goods, Cylinder, face piece, regulator and N-100 cartridge adaptor.

Proposal Delivery

All proposals must be submitted to the Muskegon Charter Township Clerk 1990 Apple Ave. Muskegon MI 49442, sealed and clearly marked "Proposal for Muskegon Area S.C.B.A. Specifications 2020" **before** 2:00 PM, on December 1, 2020. Bid opening will occur on December 1, 2020, 2:00 PM at the Muskegon Charter Township Hall 1990 Apple Ave. Muskegon MI 49442.

Bid Evaluation Factors

Muskegon Charter Township expressly reserves the right to:

- Reject or cancel any or all proposals
- Not accept any proposal that does not meet the bid specifications
- Reissue the request for proposals
- Consider and accept any proposal based on best value rather than lowest proposed pricing

A major consideration in choosing a final supplier and a product will be based on the following factors:

- Comfort/Ergonomics when wearing SCBA
- Ease of Operational Maintenance/Inspection; including frequency for replacing/charging of batteries
- Ease of washing/decontamination of face piece and regulator
- Ease of washing/decontamination all straps/soft goods on SCBA harness. Time needed to remove, wash, dry and reinstall soft goods
- Ease of "in the field" maintenance and repairs
- Ease and Expenses Associated with Annual flow testing
- Availability of reliable, timely and on-site service

Consideration will be given to a product's past performance, warranty, cost of service and maintenance including batteries, cost of optional equipment, field testing and current user feedback.

Proposals will only be accepted from manufacture authorized distributors.

All written proposals must be accompanied with one of each item listed in the specification details sheet below for evaluation purposes. You the additional blank lines for any optional equipment that may be included with each SCBA.

Re: Cleaning the PSS SCBA

Thank you for considering the NFPA 2018/2019 ed. PSS 7000 Sentinel 7000 SCBA. The Dräger SCBA features an easy to disinfect and clean strap system, facemask, and regulator. In fact it is the only SCBA available today that affords users a total solution for the proper mitigation of carcinogen exposure. The first step in cleaning your apparatus is to protect yourself from further exposure by utilizing PPE like disposable gloves, perhaps a particulate respirator, eye protection, apron, etc. Gather your cleaning supplies including brushes, buckets, cleaning solutions, etc.

There is a simple reality of any procedure regarding the cleaning of the breathing apparatus: it will not occur if it is not quick, easy, and effective. You can very quickly, easily, and effectively clean the straps on the Dräger SCBA without removal by just spraying with soapy cleaner, giving it a soft plastic bristle brush rub down, and rinsing with a garden hose. Note to either leave the cylinder connected to the backframe pneumatics, or cap the 1st stage regulator quick connect fitting to prevent contaminants from entering the 1st stage regulator pneumatics. Unlike old strap systems of nomex over open cell foam padding, the Dräger SCBA straps are harnesses are rubber encased and prevent contamination of the padding.

If you prefer, straps can also be easily removed in 30 seconds and washed. Dräger will soon be offering a kit to further facilitate the post fire quick return to service of your SCBA and the front line apparatus. This kit will include a military style mesh laundry bag with a complete replacement SCBA harness system and facemask headnet for a list price of approximately \$550. This option will set a new standard for rapid cleaning and disinfection and returning apparatus quickly back to service. Remove your straps from your contaminated SCBA and headnet from the facemask, soap and rinse the backframe and cylinder and facemask, apply your clean spare harness system to the backframe and headnet to the facemask, and immediately return to service. Meanwhile in the military mesh laundry bag, your contaminated harness set is being cleaned within the extractor for the next time you need a fresh set.

Also, you can very quickly, easily, and effectively clean your facemasks and LDVs. Note our facemask is fully submersible without any disassembly of electronics. Simply create a cleaning bucket with baby bath warm water and soap and submerge clean your entire facepiece without removing any electronics. Rinse under the sink faucet or with a 2nd bucket with rinse water, wipe it down inside and out with non scratching cloth, and leave the mask sitting visor up until completely dry. The soft goods can be removed quickly and laundered individually if desired. Lastly, our LDV (2nd stage regulator) can be cleaned inside and out. You can either spray the inner and outer surfaces with a contact cleaner and disinfectant and rinse, or you can submerge the regulator entirely in cleaner to wash out any debris and rinse. After rinsing, remember to hook the regulator back up to a breathing air supply and blow air through the regulator until it is thoroughly dry.

When returning the LDV and facemask to service post cleaning, add a very light application of Dow Molykote to both the regulator port of the mask and to the barrel of the regulator. The molykote should appear as a satin sheen with no visible build up remaining. The molykote enhances the connectivity of the LDV and the facemask.

Regarding our recommendation for cleaners, there are many off the shelf solutions that can be utilized to clean your SCBA, including solutions like Cavacide. Dräger does offer Spurrier 1008 Green Liquid Detergent for a soap solution, Spurrier Tex 800 as a cleaner and disinfectant, and Ecolab Neutral for manufacturer stated effectiveness for Corona virus. These cleaners and disinfectants we offer are supplied in concentrate form and must be diluted for use (instructions on container).

We clean our turnouts, our hoods and gloves, our boots and helmets, now lets really clean these SCBAs. We cannot control many of the risks that firefighters face on a daily basis, but we can greatly mitigate the risk of carcinogen exposure by deploying SCBAs that can be quickly, easily, and effectively cleaned.

The Dräger SCBA is the only option to afford firefighters a complete quick, easy, and effective solution to truly mitigate carcinogen exposure from all components of their breathing apparatus.

Respectfully,

John M. Duncan
Regional Sales Manager – Responder
Dräger, Inc.

john.duncan@draeger.com

Chief,

Early in 2020 I was placed on the County wide SCBA Purchasing committee to research the available SCBA's and help determine which SCBA we should purchase to replace our current ISI SCBA. I'm writing You to give You my official recommendation on SCBA Purchasing.

In the process we initially started with four manufacturers of SCBA's. One of those was eliminated by the committee right away because it did not have the ability for the mask to be converted to a particulate filter mask. This left us with three possibilities. The committee agreed to pursue bids from MSA, Draeger and Scott. A generic RFP was created and presented to the committee for approval and then submitted to the vendors for the three different manufacturers. The RFP had specific deadline for the sealed bids to be received by Dec. 1st 2020 2:00 PM.

While waiting for bids we had the opportunity to have demo packs from all of the manufacturers in our station to evaluate. Based on those evaluations nobody had any interest in the Scott SCBA so that possibility was all but eliminated. I offered several opportunities for our personnel to come in and meet with me to go over all of the packs. Based on form, fit, function and features, the slight majority stated they preferred the Draeger pack.

The vendors for the Scott and Draeger SCBA's submitted their bids prior to the deadline. The vendor for the MSA never submitted a bid. Even though up until the day of the bid, they had indicated they would submit a bid. Some neighboring departments left the County Committee and decided to purchase MSA packs prior to the bids being received because of a special offer MSA was offering. We were able to find out the pricing that those departments got and it was significantly higher than the Draeger pack which we were leaning towards anyways.

Based on all factors considered It is my recommendation that we move forward with purchasing the Draeger 7000 SCBA. This SCBA meets the latest NFPA standard. It is very easy to clean and maintain. The Draeger SCBA can be decontaminated and disinfected faster and more thoroughly than any other SCBA on the market. Draeger also just happens to be the most affordable.

Captain N. Morgan

To: Supervisor Kenneth R. Fletcher and the Delta Township Board

From: Brian Reed, Township Manager

Date: February 21, 2022

Re: Retention and Recruitment Memorandum of Understanding

In 2017, the Township Board supported adding six new suppression fire department positions to react to the increasing number of EMS runs throughout the Township and Looking Glass Regional Fire Authority. These positions were added using a SAFER grant. Since that time, we have had challenges remaining at full staffing. In December, we had three departures which left us with eight open positions.

This has been a problem across fire departments, EMS agencies, and in general all public safety including law enforcement (see graphic). There is currently a statewide and national paramedic shortage. Of the employees we have hired, we have lost some to regional departments, some to other careers such as nursing, I.T., mechanic, private EMS, moving closer to their home, and to retirements.

The Township has generally insisted on hiring firefighters only with paramedic certifications (FF/EMT-P). We have had basic EMT (FF/EMT-B) who have been part-time employees in the past. In addition, we have often had paramedics filling part-time roles who have moved into full-time roles when there are vacancies. We have not been able to attract any part-time help for several years.

Over the last few months we have increased our marketing of job postings for full-time paramedics, streamlined the hiring process, eliminated the residency requirement to draw from further out in the state, and have offered double overtime in order to keep per day staffing levels up. We hired a part-time paramedic who is being sponsored through the fire academy. We continue to strengthen our relationship with Lansing Community College and have recruited through other colleges and paramedic programs. There are just not a lot of paramedics in the state to choose from. Our continuing shortages lead to paramedic burnout, stresses mutual aid, and impacts our service delivery under the Looking Glass Regional Fire Authority partnership.

Forward and Better Workgroup

In December 2021, we began a workgroup consisting of myself, both Chiefs, the Union president and vice president, and several representatives from the department to brainstorm solutions for staffing and called it the "Forward and Better" workgroup. We needed to think boldly and move quickly to address the existing problem, but also find solutions that will work moving forward as we will have as many as six to nine retirements over the next three years as these firefighters reach 25 years of service and 50 years of age. In addition, we recognized that a model of every department trying to poach from other departments is not a sustainable model for service delivery. This workgroup met weekly, analyzed information and sought

feedback from the different shifts. I am very proud of the collaborative nature and commend those who served on this workgroup. We have many dedicated Fire and EMS professionals who care about this department. It was agreed upon that there is not one “perfect” solution, however there is excitement about moving forward with trying different options.

Proposed Solutions:

The Forward and Better workgroup had the following goals to guide us:

1. Fill all open positions (Explore strategies to attract and retain new talent, refine hiring practices)
2. Expand positions of employment (Develop different models of employment to fill positions and work together to ensure cooperation)
3. Recruit (Develop strategies for the recruitment of paramedics, EMTs)
4. Retention (Develop strategies to refine strategies for retention of Delta personnel)
5. Maintain excellent Delta Service (Reduce burden on DTFD, ensure good training, ensure path toward FF/EMT-P)

In general, we have strategies to recognize the burden short staffing has had on our existing employees, while developing models to recruit talent to grow our workforce.

Current Staff Retention:

Currently we have 36 FF/EMT-P. They have served through the pandemic and short staffing. They were not able to work from home or participate in the worksharing program as many of our other employees have. The MOU would utilize approximately \$144,000 of ARP funds to provide a one-time payment of \$4,000 to anyone employed at this time.

EMS Recruitment

The Township has generally hired FF/EMT-P. Paramedics have a higher license and can provide Advanced Life Support including more cardiac intervention, intubating patients, and administering medications. With the shortage of FF/EMT-P, we need to bolster our staffing with FF/EMT-B. There are many organizations that run staffing models with both. We are fortunate to have several employees who have experience in those models prior to coming to Delta.

The Township has had the ability to hire EMT-B but typically has only hired part-time in the recent past. This MOU recognizes the organizational shift to hiring FF/EMT-B and also Paramedics without Firefighter 1 and 2 certifications with the goal of sponsoring them through a paramedic program or fire academy. We cannot predict the future, but the ultimate goal is to grow from within with new hires eventually obtaining full FF/EMT-P status. We will have certain clawbacks and commitments for new hires in exchange for sponsoring through licensure programs. Paramedic programs range from \$5,000 to \$10,000 per student. There will also be some costs for overtime backfill and clinical hours. A fire academy for individuals already licensed as paramedics is less costly. The total estimated cost will vary depending on how many individuals hired and where they are at in their programs.

We will continue to recruit FF/EMT-P as our ultimate goal, however in order to maintain staffing levels we must expand our positions.

Ongoing Paramedic Retention

Our FF/EMT-P are highly trained and skilled individuals. Moving to this model will not change that, however we recognize that any organizational change comes with challenges. We value the level of service provided by FF/EMT-P. To recognize a differential for paramedics, this MOU modifies existing contract language to increase the paramedic incentive offered in the contract right now at \$800/annually to \$2,500/annually to be paid in November. We estimate this cost to be \$90,000-\$100,000.

In addition, DTFD has a robust Field Training Officer program. We dedicate individuals to working with probationary employees for an entire year. Given the number of new employees we will be taking on and recognizing the burden of training multiple new staff, the FTO rate of \$.40/hour will be increased to \$2.00/hour. We will readdress this in the future through collective bargaining when we are able to stabilize our staffing levels. We estimate the costs of the FTO program to be \$40,000 for 2022.

Recommended Action:

On February 16, 2022, the Union voted to ratify the MOU attached.

This past week, we did submit a grant request for the Michigan Department of Treasury First Responder Grant program for the maximum amount allowed (\$200,000). The components of the MOU were included in the grant request. The State allocated \$5 million for the grant program, however they received 400-500 applications illustrating the statewide need for assistance with recruitment and retention.

I recognize this is a significant investment for the Township. These forward thinking strategic investments address several objectives in the Board's strategic plan: Continue to support strong public safety, hire highly qualified staff, and encourage professional development for all staff. There will undoubtedly be some growing pains as we operationalize these changes. However, I believe this will be transformational for our department. This collaboration will be a bridge to strengthen our department from within to ensure we are able to maintain the extremely high level of service that the Delta community is accustomed to and can be proud of.

The following resolution is offered for your consideration:

"I move that the Delta Township Board authorize the Township Manager to enter into the attached Memorandum of Understanding with the Delta Township Professional Firefighters Union I.A.F.F. Local 2846 for retention and recruitment efforts in the Delta Township Fire Department."

MEMORANDUM OF UNDERSTANDING 2022-2

BETWEEN
DELTA CHARTER TOWNSHIP (TOWNSHIP)
and
DELTA TOWNSHIP PROFESSIONAL FIREFIGHTERS I.A.F.F. LOCAL 2846 (UNION)

The parties hereby agree as follows:

The Township and the Delta Township Fire Department has been short-staffed since 2018 due to the shortage of paramedics statewide and nationally. In order to address staffing and attract, develop, and retain talent, the Township will recruit FF/EMT-B with Firefighter I and II certification along with Paramedic only with the goal of developing these individuals in addition to recruiting FF/EMT-P. In recognition of the additional short-term burden of changing the full-time model, the following MOU is presented.

1. This Memorandum of Understanding shall be effective on February ____, 2022 and shall remain in place until a new contract is ratified.
2. Nothing in this Memorandum of Understanding shall constitute a precedent, practice or establish working condition for the future or other circumstances involving the application or interpretation of any past, current or future Master Agreements between the parties.

Retention:

3. In recognition of extraordinary circumstances presented by the COVID-19 pandemic, continual low staffing, and the effort of the Delta Township Firefighters over the last two years, the Township agrees to provide each full-time member of the Delta Township Firefighters Association I.A.F.F. Local 2846 a one-time \$4,000 retention bonus.
4. The bonus will be paid to all full-time non-probationary personnel employed at time of ratification.
5. Probationary employees employed at the time of ratification will receive the one-time bonus upon successfully completing probation.
6. The bonus will be included in the next possible payroll after a signed MOU (expected to be on February 25th or March 11).
7. The one-time \$4,000 bonus will not be considered compensation for the purposes of MERS retirement.

EMS recruitment – FF/EMT-B

8. Full-time FF/EMT-B will be hired at the minimum level (see payscale attachment 1) as bargaining unit members.
9. Full-time FF/EMT-B receiving tuition reimbursement for paramedic certification from the Township will be given 36 months to obtain a paramedic license.

10. A Full-time FF/EMT-B receiving tuition reimbursement for paramedic certification may be given additional time upon evaluation by the Chief or the Township of up to a year.
11. The Township will pay tuition for a township approved paramedic program. The Township will pay an equal amount to a program that a new hire may already be participating in and is approved by the Township.
12. FF/EMT-B receiving paid tuition must obtain a paramedic license or may be subject to tuition repayment.
13. Upon obtaining a paramedic license, the FF/EMT-P must stay with Delta Township Fire for at least 3 years or may be subject to repayment of tuition.
14. A FF/EMT-B is not eligible for tuition reimbursement under 57.2 until obtaining paramedic licensure.

Paramedic Only

15. A Paramedic without Firefighter 1&2 certification will be hired at the minimum level and work a 40 hour week (See payscale attachment 1) as bargaining unit members.
16. The Township will fund the Firefighter 1&2 academy.
17. A Paramedic receiving tuition support for firefighter 1 &2 certification must obtain Firefighter 1 & 2 certification within 12 months.
18. A Paramedic receiving tuition support for firefighter 1&2 may be given additional time up to a year to complete Firefighter 1&2 certification upon evaluation by the Chief or the Township up to a year.
19. A Paramedic is not eligible for scheduled shift or administrative overtime unless emergency conditions exist or is held over due to a EMS or Fire response until obtaining Firefighter 1 and 2 certification.
20. Paramedic must stay with Delta Township Fire for at least 1 year or may have to reimburse the Township for the fire academy.
21. A Paramedic is not eligible for tuition reimbursement under 57.2 until obtaining Firefighter 1 and 2 certification.
22. A Paramedic is not eligible for Educational Incentives under article 58.1 until obtaining Firefighter 1 and 2 certification.
23. A Paramedic is not eligible for Food allowance in Article 40.1 until obtaining full-time firefighter status.
24. A Paramedic is not eligible for holiday pay in Article 38.1-38.4 until obtaining full-time firefighter status.

Paramedic Retention

25. In order to recognize a differential between FF/EMT-P and FF/EMT-B and Paramedic only – The Township will provide an increased paramedic incentive (at or around November 15th) to replace 58.1b to read:
“b. Any employee that is a rank of FF/EMT-P and above and maintains their Paramedic license shall receive \$2,500 annually.”
26. In order to recognize the burden on those serving in an FTO capacity, the Township will pay assigned FTO’s an increased rate of \$2.00/hour under Article 65.2:5

“65.2:5. The assigned F.T.O.’s will be paid an hourly premium of \$2.00/hour. The premium will be a flat rate added to the base rate. Unit members on overtime will be eligible for the premium, however the premium will not be calculated based on overtime rates.

The date of execution of this Agreement is

_____, 2022.

Grand Ledge facing shortage of emergency responders

By Adriana Cortese | December 15, 2021

LIKE TWEET EMAIL PRINT MORE

Grand Ledge is facing an emergency responder shortage crisis affecting much of the rest of the country.

Grand Ledge Area Emergency Services Authority Chief Rodney VanDeCastele said there has been a shortage of volunteer and career firefighters. The lack of firefighters comes despite community support for the department, including funding a new fire engine, he said.

Michigan is burning through EMTs and paramedics, leaving shortages

Paramedics undergo a lot of training for a job that is stressful and doesn't pay a great deal of money. (Shutterstock)

Paramedic Shortage Leads to "Grow Your Own" Partnership

Faced with 25 open paramedic positions and no qualified candidates on file, Mobile Medical Response (MMR) turned to the Talent Experts at Great Lakes Bay Michigan Works! last year for help. The result? An accelerated emergency medical technician (EMT)-to-paramedic training program that pays students to train. A model for success, the program was nominated for the 2017 Michigan Works Association Impact Award.

"The lack of paramedics poses a significant health risk to citizens across our local communities, around the state and nation," says Steve Myers, MMR's director of patient access. "MMR's ability to respond with the appropriate resources in the expected time frame is threatened due to the shortage. It is a critical community need and the problem requires innovative solutions."

Ambulance companies concerned EMT and Paramedic shortage will impact Michigan response times

They are used to responding to your emergency. Now ambulance providers say they are facing an emergency. They are "hemorrhaging" workers. Statewide there are one thousand openings for EMTs and paramedics. It is leading to a labor shortage they say has the potential to put lives at risk.
