MAYOR'S BUDGET MESSAGE

Dear City Councilmembers,

We are pleased to submit for your consideration the 2025 proposed annual budget for the City of Milton. Proposed 2025 expenditures and other uses, including interfund transfers out, compared to 2024 budgeted amounts are as follows:

Fund	2024 Amended Budget	2025 Proposed Budget	Increase/ (Decrease)	Percentage Change
GENERAL FUND				
General Fund	6,780,752	8,076,143	1,295,391	19.1%
Asset Replacement Fund	174,241	307,200	132,959	76.3%
Rainy Day Fund	-	-	-	0.0%
Criminal Justice Fund	4,541,965	4,815,836	273,871	6.0%
SPECIAL REVENUE FUNDS				
Street Fund	620,053	560,697	(59,356)	-9.6%
Drug Seizure Fund	25,000	25,000	-	0.0%
Community Events Fund	40,645	42,095	1,450	3.6%
Real Estate Excise Tax 1 Fund	100,000	300,000	200,000	200.0%
Real Estate Excise Tax 2 Fund	100,000	300,000	200,000	200.0%
Traffic Impact Fees Fund	600,000	1,700,000	1,100,000	183.3%
Parks Impact Fees Fund	-	50,000	50,000	0.0%
CAPITAL PROJECTS FUND				
Capital Improvement Fund	6,249,502	2,446,913	(3,802,589)	-60.8%
ENTERPRISE FUNDS				
Electric Utility Fund	6,292,844	6,322,301	29,457	0.5%
Electric Capital Improvement Fund	2,669,487	2,296,108	(373,379)	-14.0%
Electric Asset Replacement Fund	352,026	65,000	(287,026)	-81.5%
Water Utility Fund	3,606,666	3,838,913	232,247	6.4%
Water Capital Improvement Fund	2,113,090	2,560,660	447,570	21.2%
Water Asset Replacement Fund	182,026	177,000	(5,026)	-2.8%
Stormwater Utility Fund	1,395,365	1,447,337	51,972	3.7%
Stormwater Capital Improvement Fund	238,196	418,196	180,000	75.6%
Stormwater Asset Replacement Fund	101,724	121,800	20,076	19.7%
INTERNAL SERVICE FUNDS				
Vehicle Repair & Maintenance Fund	298,225	305,575	7,350	2.5%
Information Technology Fund	345,409	351,122	5,713	1.7%
TOTAL	36,827,216	36,527,896	(299,320)	-0.8%

Estimated 2025 revenues and other sources, including interfund transfers in, compared to 2024 budgeted amounts are as follows:

Fund	2024 Amended Budget	2025 Proposed Budget	Increase/ (Decrease)	Percentage Change
GENERAL FUND				
General Fund	6,170,408	7,139,986	969,578	15.7%
Asset Replacement Fund	127,096	649,700	522,604	411.2%
Rainy Day Fund	53,681	66,474	12,793	23.8%
Criminal Justice Fund	4,135,420	4,397,123	261,703	6.3%
SPECIAL REVENUE FUNDS				
Street Fund	606,382	576,085	(30,297)	-5.0%
Drug Seizure Fund	-	-	-	0.0%
Community Events Fund	32,045	32,380	335	1.0%
Real Estate Excise Tax 1 Fund	180,000	183,800	3,800	2.1%
Real Estate Excise Tax 2 Fund	181,400	184,900	3,500	1.9%
Traffic Impact Fees Fund	116,200	143,900	27,700	23.8%
Parks Impact Fees Fund	15,100	15,800	700	4.6%
CAPITAL PROJECTS FUND				
Capital Improvement Fund	4,089,428	2,414,800	(1,674,628)	-41.0%
ENTERPRISE FUNDS				
Electric Utility Fund	6,361,825	6,413,848	52,023	0.8%
Electric Capital Improvement Fund	482,714	541,743	59,029	12.2%
Electric Asset Replacement Fund	191,549	205,561	14,012	7.3%
Water Utility Fund	3,354,989	3,786,183	431,194	12.9%
Water Capital Improvement Fund	454,679	508,992	54,313	11.9%
Water Asset Replacement Fund	101,805	121,996	20,191	19.8%
Stormwater Utility Fund	1,199,300	1,305,501	106,201	8.9%
Stormwater Capital Improvement Fund	149,860	275,314	125,454	83.7%
Stormwater Asset Replacement Fund	31,840	40,730	8,890	27.9%
INTERNAL SERVICE FUNDS				
Vehicle Repair & Maintenance Fund	298,225	305,575	7,350	2.5%
Information Technology Fund	325,409	351,122	25,713	7.9%
TOTAL	28,659,355	29,661,513	1,002,158	3.5%

Total proposed expenditures for 2025 are 0.8% lower than the previous year. This is primarily due to decreased expenditures in the Capital Improvement Fund as well as in the Electric Capital and Asset Replacement Funds. These decreases total (\$4,462,994), with the largest decrease of (\$3,802,589) in the Capital Improvement Fund. Budget decreases in these funds reflect the efforts made in 2024 and planned for 2025 to continue and complete capital projects that have already been initiated.

General Fund expenditures increased a total of \$1,295,391, or 19.1%. Of this amount, \$756,697 is a result of increased Transfers Out to other funds. Transfers Out to the Criminal Justice Fund for Police Department operations increased by \$250,000, and a \$500,000 transfer to the Asset Replacement & Capital Reserve Fund is budgeted to begin accumulating funds to acquire property for parks, open space and City facilities when opportunities arise.

There are also combined increased expenditures of \$440,950 in the Judicial/Municipal Court and Photo Enforcement Departments, primarily due to implementation of an automated traffic safety camera program in 2025. This program will improve traffic and pedestrian safety throughout the City with an emphasis on school speed zones, park speed zones, and intersections of two or more arterials. Increased expenditures in the Judicial/Municipal Court Department largely reflect increases in contracts with the Milton Municipal Court Judge and the City of Puyallup to process cases related to the new program.

The indirect cost allocation plan was updated for the 2025 Budget as well. Wage and benefit allocations are based on the results of formal time studies performed in 2024. These updated allocations are the primary source of modest increases in various departments including City Council, Mayor & Executive, and Legal Services. The Facilities & Central Services Department also includes an increase of \$20,000 to retain grant consulting services for research and assistance with various grant opportunities for the City.

In the Criminal Justice Fund, expenditures increased a total of \$273,871, or 6%. Much of this increase is associated with wages and benefits. In accordance with the Milton Police Guild labor agreement, wages increased by the Consumer Price Index (CPI-U) of 3.8%. Increases to Jail and Animal Control Services also contributed to total increased expenditures in this fund.

The City's labor agreement with non-uniformed and non-exempt employees also provides for wage increases equal to the CPI-U of 3.8% in 2025. Exempt employee wages have been increased by 3.8% as well. As in previous years, wages for all employees have been budgeted at the top step of each pay range, and benefits have been budgeted at the highest applicable rates for all employees. These changes affected wages and benefits in all operating funds.

A few of the remaining larger expenditure increases are in the Water Utility Fund and Asset Replacement & Capital Reserve Fund. The Asset Replacement & Capital Reserve Fund increased by \$132,959 for various scheduled vehicle and equipment replacements. The Water Utility Fund increased by \$232,247, primarily due to increases in Supplies and Services expenditures including Utility Tax, Excise Tax, Public Utilities, and Allocated Operating Expenditures. Salaries and Wages, Personnel Benefits, and Transfers Out also include moderate increases.

Transfers Out from the Real Estate Excise Tax, Traffic Impact Fees, and Parks Impact Fees Funds increased by a combined total of \$1,550,000 as well. These transfers are used to support projects in the Capital Improvement Fund. Many of the larger Capital Improvement Fund projects address priorities expressed by the City Council and residents such as sidewalk maintenance and construction, traffic calming, and park improvements. These projects include:

- City-wide Parks Improvements \$ 233,065
- Playground Equipment \$ 357,512
- City-wide Traffic Calming Program \$ 256,841
- Sidewalk Missing Links \$ 1,027,202

The Water and Stormwater Capital Funds increased by a combined total of \$627,570. As noted previously, the City intends to focus on continuing and completing capital projects that have already been initiated. A few of these larger projects include:

- New Deep Well \$ 1,000,000
- Juniper Street Water Main \$ 950,000
- Oak Street Storm Improvements \$ 200,000

Total proposed revenues for 2025 are 3.5% higher than the previous year. Total revenues increased by \$1,002,158, primarily due to increased revenues in the General Fund of \$969,578. Much of this increase is due to the new automated traffic safety camera program the City will be implementing in 2025. Revenues associated with this new program are estimated at \$1,256,193 for 2025. Excess revenues will be used to support other governmental functions to be determined by the City Council through the budget process.

Also in the General Fund, property taxes and sales taxes have been budgeted at 1% over projected amounts for 2024. Utility taxes and investment earnings have been adjusted according to current trends.

A few of the remaining larger revenue increases are in the Asset Replacement & Capital Reserve Fund, Criminal Justice Fund, and Water Utility Fund. Revenues increased by a combined total of \$784,307 in the Asset Replacement & Capital Reserve Fund and Criminal Justice Fund, primarily due to increased Transfers In from the General Fund. Revenues in the Water Utility Fund increased by 12.9% as a result of rate increases.

Water Sales in the Water Utility Fund have been increased by 12.0% of 2023 Actual amounts, and Storm Drainage Fees in the Stormwater Utility Fund have been increased by 25% of 2023 Actual amounts. These increases were established through the Water Utility rate study completed in 2023 and the Stormwater Utility rate study completed in 2024. Electric Sales in the Electric Utility Fund have been increased by 4.6% of 2023 Actual amounts. This increase, per Milton Municipal Code, is equal to the previous year's CPI-U. Revenues in the Electric, Water and Stormwater Capital Improvement and Asset Replacement Funds are increased as a result of these rate increases as well.

There are also two funds with revenue decreases, the Street Fund and the Capital Improvement Fund. Revenues in the Street Fund are decreased due to reduced Transfers In from the General Fund as a result of debt elimination. One Public Works Trust Fund loan was paid off in 2022, and the remaining Public Works Trust Fund loans were paid off in 2024. Decreased revenues in the Capital Improvement Fund are largely a result of the drawing down of Transportation Improvement Fund grant funds as ongoing projects are completed, including the SR 99/Porter Way Intersection and the Street Overlays projects.

Several capital improvement projects have been completed or initiated in 2024. The SR 99/Porter Way Intersection project is scheduled to be completed by the end of 2024. This project will add much-needed capacity to the intersection and pedestrian improvements along Porter Way. The Street Overlays project is also scheduled to be completed by the end of 2024. This project will repair and resurface various streets including large portions of Milton Way, one of the City's major arterials. Installation of gateway signs at multiple entrances to the City was completed in 2024 as well.

In addition, playground equipment was upgraded at Olympic View Park in 2024, and a renovation of Hill Tower Park is scheduled for 2025. The sports fields at Milton Community Park were also renovated, and construction will begin on the Milton Community Park Outdoor Meeting Venue project near the end of 2024. A renovation of the Milton Activity Center was completed as well, installing new flooring, windows, ceiling tiles, lighting, and paint to create an updated venue for City activities and private rentals.

City programs and events continued and expanded in 2024 as well. The City held its traditional annual events including Milton Days, Craft Bazaar, Santa Parade and National Night Out, while also continuing newer events like Touch-a-Truck, Community Yard Sale and Trunk-or-Treat. Activities like Wednesday Morning Chats, Family Story Time and Pinochle continued in 2024, and the City expanded its programming by adding activities like Line Dancing, Crafting in the MAC, and Sock Hop Senior Prom.

Development revenues were also higher than expected in 2023. This trend has continued into 2024, and the City is currently experiencing strong growth in new business and residential development throughout the community. We look forward to continuing these important activities, improvements and accomplishments in the coming year.

Sincerely,

Shanna Styron Sherrell, Mayor

ELECTED OFFICIALS

Term Expires:

Shanna Styron Sherrell	Mayor	December 31, 2025
Steve Whitaker	Councilmember - Position 1	December 31, 2025
Bruce White	Councilmember - Position 2	December 31, 2025
Steve Peretti	Councilmember - Position 3	December 31, 2025
Tim Ceder	Councilmember - Position 4	December 31, 2027
Dave Strader	Councilmember - Position 5	December 31, 2025
Frances Hall	Councilmember - Position 6	December 31, 2027
Bob Whalen	Councilmember - Position 7	December 31, 2027

ADMINISTRATIVE STAFF

Tony Hernandez	Police Chief
Dustin Madden	Public Works Director
Michelle Robbecke	Interim Finance Director
Angelie Stahlnecker	Planning Manager
Trisha Summers	City Clerk/Human Resources Manager

ORGANIZATIONAL CHART

BUDGET DEVELOPMENT PROCESS

The budget includes the financial planning and legal authority to obligate public funds. Additionally, the budget provides policy direction by the City Council to the staff and community.

The budget serves four functions:

It is a Policy Document

The budget functions as a policy document in that the decisions made within the budget will reflect the general principles or plans that guide the actions taken for the future. As a policy document, the budget makes specific attempts to link desired goals and policy direction to the actual day-to-day activities of the City staff.

It is an Operational Guide

The budget of the City reflects its operation. Activities of each City department or program have been planned, formalized and described in the following sections. This process will help to maintain an understanding of the various operations of the City and how they relate to each other and to the attainment of the policy issues and goals of the City Council.

It is a Link with the General Public

The budget provides a unique opportunity to allow and encourage public review of City operations. The budget describes the activities of the City, the purposes of those activities, future implications, and the direct relationship to citizens.

It is a Legally Required Financial Planning Tool

Preparing and adopting a budget is a state law requirement of all cities as stated in Title 35A of the Revised Code of Washington (RCW). The budget must be adopted as a balanced budget and must be in place prior to the beginning of the City's fiscal year. The budget is the legal authority to expend public funds and controls those expenditures by limiting the amount of appropriation at the fund level. The revenues of the City are estimated, along with available cash carry-forward, to determine funds available.

The City of Milton operates on a calendar-year basis. The City utilizes an incremental budgeting approach that assumes, for most functions of government, that the current year's budget is indicative of the base required for the following year. Any increases are incremental and based on need defined by budget policies, emerging issues, Council goals and available resources.

BUDGET CALENDAR

August 2, 2024	Preliminary budget estimates due from directors
October 14, 2024	Preliminary budget presentation to City Council
November 4, 2024	Public hearing on revenue sources First reading on tax levy
November 12, 2024	Updated preliminary budget presentation to City Council (if needed)
November 18, 2024	First public hearing/reading of final budget Second reading on tax levy
December 2, 2024	Second public hearing/adoption of final budget

After the budget is adopted, the City enters a budget implementation and monitoring stage. Throughout the year, expenditures are monitored by the Finance Department and department directors to ensure that funds are within the approved budget. As required by RCW 35A.33.140, the Finance Director provides the City Council with quarterly reports to keep them current with the City's financial condition.

The Mayor is authorized to transfer budgeted amounts within a fund, however, any revisions that alter the total expenditures of a fund, or that affect the number of authorized employee positions, position titles, salary ranges or other conditions of employment must be approved by the City Council.

When the City Council determines that it is in the best interest of the City to increase or decrease the appropriation for a fund, it may do so by ordinance adopted by the City Council.

BUDGET PRINCIPLES

General Principles

- Department directors have primary responsibility for formulating budget proposals in line with City Council and Mayor directions, and for implementing them once they are approved.
- The Finance Department is responsible for coordinating the overall preparation and administration of the City's budget. This function is fulfilled in compliance with applicable State of Washington statutes governing local government budgeting practices.
- The Finance Department assists department staff in identifying budget problems, formulating solutions and alternatives, and implementing any necessary corrective actions.
- Interfund charges will be based on recovery of costs associated with providing those services.
- Budget adjustments requiring City Council approval will occur through the ordinance process at the fund level prior to the end of the fiscal year.
- The City's budget presentation will be directed at displaying the City's services plan in a Council/Citizen friendly format.

Minimum Fund Balances

- *Enterprise Funds* - the targeted budgeted ending fund balance for utility operations funds shall equal at least 25% of budgeted operating expenditures.
- *General Fund* - the targeted budgeted ending fund balance for the General Fund shall equal at least 8% of budgeted operating expenditures.
- *Rainy Day Fund* - the targeted budgeted ending fund balance for the Rainy Day Fund shall equal at least 10% of budgeted operating expenditures of the General Fund. Use of the Rainy Day Fund shall be approved by Council through the budget process for temporary, unanticipated, one-time expenditures. If the balance in the Rainy Day Fund falls below the 10% target, the balance should be increased by at least one percent per year until the 10% target is met again.

Capital Asset Replacement and Improvement Funds

- *Enterprise Funds* - 7% of the monthly charges for electric, water and stormwater shall be transferred into the related capital improvement funds and 3% of the same monthly charges shall be transferred into the related asset replacement funds.

- *General Government* - 2% of General Fund operating revenues shall be transferred into the Asset Replacement Fund for necessary replacement and/or acquisition of assets for General Fund departments and funds supported by the General Fund.

Basis of Accounting

- Annual appropriated budgets are adopted for all funds on the cash basis of accounting.
- Budgets are adopted at the fund level that constitutes legal authority for expenditures. Annual appropriations lapse at the end of the fiscal period.
- **The General Fund** is the primary fund of the City. It accounts for all financial resources except those required or elected to be accounted for in another fund. The City also reports three General Fund subsidiary funds:

Asset Replacement Fund
Rainy Day Fund

Criminal Justice Fund

- **Special Revenue Funds** account for revenue sources that are legally restricted or designated to finance certain activities. Special revenue funds include:

Street Fund
Drug Seizure Fund
Community Events Fund

Real Estate Excise Tax 1 Fund
Real Estate Excise Tax 2 Fund
Traffic Impact Fees Fund
Parks Impact Fees Fund

- **Capital Projects Funds** account for financial resources which are designated for the acquisition or construction of general government capital projects. The city maintains one capital project fund:

Capital Improvement Fund

- **Enterprise Funds** account for operations that provide goods or services to the general public and are supported primarily by user charges. Enterprise funds include:

Electric Utility Operations Fund
Electric Capital Improvement Fund
Electric Asset Replacement Fund
Water Utility Operations Fund
Water Capital Improvement Fund
Water Asset Replacement Fund

Stormwater Utility Operations Fund
Stormwater Capital Improvement Fund
Stormwater Asset Replacement Fund

- **Internal Service Funds** account for operations that provide goods or services to other departments or funds of the City. Internal service funds include:

Vehicle Repair & Maintenance Fund

Information Technology Fund

CITY-WIDE BUDGET SUMMARY

INDIRECT COST ALLOCATION

Indirect cost allocation is a method to determine and assign the cost of central services to the internal users of those services. Cost allocation enables the City to more accurately account for the complete cost of the services it provides.

Indirect costs include central services costs related to information technology, accounting, human resources, facilities operating and maintenance costs, and other general and administrative expenses.

Cost allocation plans share indirect costs across programs, activities, funds and departments. The term “allocation” implies that there is no precise method for charging indirect costs, however, cost allocations should be designed to provide a consistent, reasonable and equitable means to allocate costs.

An indirect cost allocation plan is intended to charge restricted funds for a fair and equitable portion of central services costs. The City has two fund types that are eligible for indirect cost allocation – special revenue funds and business-type funds.

Special revenue funds must be at least partially funded by an externally restricted or internally designated revenue source, however, the special revenue funds can be, and are, subsidized by the General Fund. Therefore, there is no benefit to be had by including the special revenue funds in the indirect cost allocation plan as increasing expenditures in those funds would simply increase the amount of General Fund subsidy required.

In contrast, the City’s business-type funds must be self-supporting and cannot receive General Fund support in the form of subsidization or services provided at no charge. An indirect cost allocation plan is the appropriate way to charge business-type funds for services provided by the General Fund. The City’s current business-type funds subject to allocation are Water Operations, Electric Operations, Stormwater Operations, Information Technology and Vehicle Repair & Maintenance. Utility capital improvement and asset replacement funds are excluded from allocation.

The indirect cost allocation plan is developed based on the principle that costs will be split between general government activities (those pertaining to the General Fund and special revenue funds) and business-type activities. Business-type activities will be further allocated by fund, based on the criteria described below. General government activities will remain in the General Fund.

Costs to be Allocated

The following central services costs are subject to allocation:

- Wages, benefits, supplies, training, equipment, etc. associated with:
 - City Clerk/Human Resources Manager
 - Deputy City Clerk
 - Community Outreach Coordinator
 - Finance Department

- Building and maintenance costs:
City Hall
Finance Department
- Audit costs
- Insurance
- City-wide technology
- Mayor and City Council costs

Activities and Measurement Criteria

The activities on which to base allocations and the measurement criteria for those activities are identified in the following table.

Activities <i>(tracked during 2024 time study)</i>	Measurement Criteria
Payroll	Full-time Equivalent Employees - 2024 Budget
Human Resources	Full-time Equivalent Employees - 2024 Budget
Accounts Payable	Non-wage Expenses - 2024 Budget
City Council <i>(including meetings/prep/communication)</i>	Number of Agenda Items - 2022 Actual
Payment Processing	Number of Payments - 2022 Actual
Utility Billing	Number of Invoices - 2022 Actual
Insurance	Total Expenses - 2024 Budget
City-wide Technology	Time Study Results
Public Records	Total Expenses - 2024 Budget
Vehicle Maintenance and Repairs	Time Study Results
Budget Monitoring - City-wide	Total Expenses - 2024 Budget
Meetings and Admin Time - City-wide	Total Expenses - 2024 Budget
Meetings and Admin Time - Utilities	Number of Invoices - 2022 Actual
Meetings and Admin Time - Public Safety	Time Study Results
Wellness Program	Full-time Equivalent Employees - 2024 Budget

Budget and Accounting Procedures

Costs allocated from the General Fund will be shown on separate line items as negative expenditures. Costs allocated to business-type funds will be shown as separate expenditure line items.

The Finance Director will monitor budget to actual amounts for the costs included in the cost allocation plan. If there is a variance of greater than 15% between budgeted and annual costs, then a one-time adjustment will be made as close to the end of the year as is practical.

Wage and Benefit Allocations

Wage and benefit allocations are based on the results of formal time studies performed in 2024. Time studies are valid for three years. The existing allocations will remain valid for budget years 2025, 2026 and 2027. Time studies should be performed again in 2027 for use in the 2028 budget.

Wage and benefit allocation percentages and amounts for the City Council and the Mayor are included in the following tables, however, the City Council and the Mayor do not receive any employment benefits. These amounts represent mandatory employment taxes including Paid Family and Medical Leave, WA Cares Fund, Workers' Compensation, Social Security and Medicare.

INTERFUND ACTIVITY

Information Technology

Interfund charges for services in the Information Technology Fund are based on full-time equivalent employee counts. The allocation is as follows:

Function	FTE	Percentage	Allocation
Mayor & Executive	3.00	5.77%	20,257
Finance	5.00	9.62%	33,762
Facilities & Central Services	1.29	2.48%	8,711
Building	2.10	4.04%	14,180
Planning	1.44	2.77%	9,723
Park Facilities	1.00	1.92%	6,752
Street Fund	2.17	4.17%	14,653
Criminal Justice Fund	17.00	32.69%	114,790
Electric Utility Fund	4.93	9.48%	33,289
Water Utility Fund	8.92	17.15%	60,230
Stormwater Utility Fund	3.93	7.56%	26,537
Vehicle Repair & Maintenance Fund	1.22	2.35%	8,238
Total	52.00	100.00%	351,122

Vehicle Repair & Maintenance

Interfund charges for services in the Vehicle Repair & Maintenance Fund are based on actual costs incurred during the year.

Interfund Rentals

Interfund rental revenue is recorded in the Electric Utility Fund to reflect the use of space by the Water Utility Fund and Stormwater Utility Fund.

Interfund rental revenue is also recorded in the Stormwater Utility Fund to reflect use of the vector truck by other funds.

Interfund Transfers

Budgeted interfund transfers are as follows:

2025 Budget	Transfers Out Fund	Transfers In Fund	Description
142,800	General Fund	Asset Replacement Fund	Asset replacement and capital improvements
500,000	General Fund	Asset Replacement Fund	Future property acquisition
400,000	General Fund	Street Fund	Subsidize Street Fund operations
55,374	General Fund	Rainy Day Fund	Maintain target ending fund balance
4,000,000	General Fund	Criminal Justice Fund	Subsidize Police Department operations
13,400	General Fund	Community Events Fund	Staffing costs associated with Milton Days
300,000	Real Estate Excise Tax 1	Capital Improvement Fund	Eligible capital improvements
300,000	Real Estate Excise Tax 2	Capital Improvement Fund	Eligible capital improvements

The City Council, or Legislative Department of the City, accounts for the cost of providing effective elective representation to the citizens of the City. The seven-member Council makes policy decisions for the City and is accountable to Milton citizens by determining how resources are allocated, the appropriate levels of services, and establishing goals and policies for the City.

JUDICIAL/MUNICIPAL COURT

General Fund

The Judicial/Municipal Court Department is used to account for expenditures of the Milton Municipal Court. The Milton Municipal Court is a court of limited jurisdiction, hearing cases involving alleged violations of City ordinances and State misdemeanor statutes, traffic and parking infractions. The City currently contracts with the City of Puyallup for court services.

In 2025, the City will be implementing an automated traffic safety camera program. Increased expenditures for this department in 2025 largely reflect increases in contracts with the Milton Municipal Court Judge and the City of Puyallup to process cases related to this new program.

MAYOR & EXECUTIVE

General Fund

The Mayor & Executive Department is accountable to the City Council for the operational results of the organization, effective support of elected officials in achieving their goals, fulfillment of the statutory requirements of the City, implementation of City Council policies, and providing for a communication linkage between citizens, the City Council, City departments, and other government agencies. Positions in this department include the Mayor, City Clerk/Human Resources Manager, Deputy City Clerk and Community Outreach Coordinator. The Deputy City Clerk position was added to this department in 2024 to address increased workload.

FINANCE

General Fund

The Finance Department is responsible for ensuring sound financial management of all City operations, safekeeping of City assets, budget development, financial statement preparation, debt administration and investing. Major functions include payroll, accounts payable, and utility billing.

A Finance Administrative Assistant position was added to this department in 2024 to address increased workload.

FACILITIES & CENTRAL SERVICES

General Fund

The Facilities & Central Services Department accounts for support activities that benefit the entire organization. Department expenditures primarily include facilities maintenance for the City Hall complex as well as city-wide insurance premiums. Facilities maintenance includes maintaining, repairing, cleaning and protecting all general property. Responsibilities include custodial, general maintenance, pest control, small repairs and coordination of significant repair projects. Costs are allocated to other funds based on the indirect cost plan.

In 2025, a Professional Services budget of \$20,000 has been added to retain grant consulting services for research and assistance with various grant opportunities for the City.

PHOTO ENFORCEMENT

General Fund

The Photo Enforcement Department is used to account for expenditures of the City's automated traffic safety camera program. This program will improve traffic and pedestrian safety throughout the City with an emphasis on school speed zones, park speed zones, and intersections of two or more arterials.

The automated traffic safety camera program will be initiated in 2025, so the revenues and expenditures presented reflect six months of activity. The portion of judicial and municipal court expenditures related to the new program are presented to clearly display total revenues and expenditures associated with the program. Total judicial and municipal court expenditures, including those associated with the automated traffic safety camera program, are presented in the Judicial/Municipal Court Department.

The City has contracted with an external vendor to assist with infrastructure installation, system operation, and infraction issuance. Excess revenues will be used to support other governmental functions to be determined by the City Council through the budget process.

BUILDING

General Fund

The Building Department accounts for the cost of providing building services for the City, including building plan reviews, permits, and building/construction inspections. Department staff review building permit applications and issue building permits pursuant to the International Building Code (IBC). This department is also responsible for providing information and direction to the public, builders, architects and engineers related to buildings including mechanical, plumbing, electrical, and general construction, and related to sites including environmental and fire safety. Staff is also responsible for reviewing and inspecting developments to ensure they conform with all applicable codes.

PLANNING

General Fund

The Planning Department is responsible for the City's land use and construction code compliance services. This department is also responsible for the development and administration of long-range plans to achieve the growth and development of the City as well as the State Growth Management Act. The Planning Department works in conjunction with the Planning Commission, City Council and Administration, and is dedicated primarily to drafting public land use policy, compliance, and inter-jurisdictional planning efforts. This department is also responsible for preparing and publishing all legal notices required for land use related permits. These notices are typically provided via newspaper and household mailing to fulfill various notification requirements.

PARK FACILITIES

General Fund

The Park Facilities Department accounts for costs to maintain the City's parks, trails, and open spaces. Work includes specific maintenance and repair of 2.5 miles of the Interurban Trail, in addition to all other public spaces within the City. The City does not have any staff dedicated full-time to parks. Staff is shared with other departments, and all work performed by this group is prioritized to address safety and high community use areas. Mowing of the parks has been outsourced to a private company. This has freed up staff to focus on maintenance and other high-priority issues. This outsourcing has reduced the level of maintenance needed for the City's mowers and other equipment as well.

TRANSFERS OUT

General Fund

Transfers Out are used to reflect General Fund support of other funds. The most significant operating subsidies are provided to the Criminal Justice Fund for Police Department operations and the Street Fund for street maintenance. Transfers to the Community Events Fund are budgeted to cover the costs of wages and benefits associated with staff time spent on the Milton Days event. Transfers to the Asset Replacement Fund are equivalent to two percent of budgeted General Fund revenues. These transfers are dedicated to the purchase of general government assets and capital projects.

The 2025 Budget also includes a transfer out to the Rainy Day Fund equal to 10% of the fund's 2023 Actual Ending Fund Balance. The Rainy Day Fund is used to hold funds for future use in case of emergency or economic downturn. In 2025, a \$500,000 transfer to the Asset Replacement Fund is budgeted as well to begin accumulating funds to acquire property for parks, open space and City facilities when opportunities arise.

ASSET REPLACEMENT FUND

General Fund

The Asset Replacement and Capital Reserve Fund represents amounts dedicated to the purchase of general government assets and capital projects. Amounts included in this fund's budget represent the portion allocated to general government functions only. Amounts allocated to non-general government functions are included in the Electric, Water and Stormwater Asset Replacement Funds.

Funding includes a transfer from the General Fund equivalent to two percent of budgeted General Fund revenues.

The City would prefer to replace vehicles with electric and hybrid options whenever possible in future years, and intends to continue researching the feasibility of incorporating these types of vehicles into the City's fleet.

In 2025, a \$500,000 transfer from the General Fund is budgeted to begin accumulating funds to acquire property for parks, open space and City facilities when opportunities arise.

RAINY DAY FUND

General Fund

The Rainy Day Fund is used to hold funds for future use in case of emergency or economic downturn. The target for this fund is to maintain an ending fund balance equal to at least 10% of budgeted General Fund operating expenditures. Use of the Rainy Day Fund shall be approved by the City Council through the budget process for temporary, unanticipated, one-time expenditures. If the balance in the Rainy Day Fund falls below the 10% target, the balance should be increased by at least one percent per year until the 10% target is met again. The 2025 Budget includes a transfer in from the General Fund equal to 10% of the 2023 Actual Ending Fund Balance.

The Criminal Justice Fund accounts for expenditures of the Milton Police Department.

The Police Department is dedicated to excellence as a world class public safety agency. We are committed to establishing an environment in which members of the department and community thrive. We seek to be a catalyst for positive change through persistent, personalized and cost-effective use of public safety resources. By embracing the values of pride, professionalism and integrity, we remain committed to maintaining the public trust.

Administration Division. The Administration Division is staffed by both sworn officers and civilian employees. This division is comprised of the Police Chief, an Assistant Police Chief and a Police Administrative Assistant.

Patrol Division. The Patrol Division is the backbone of the Milton Police Department, as they are available twenty-four hours a day, seven days a week. The Patrol Division has the responsibility of being the first responders to all calls for police service in the City. The Patrol Division is comprised of Patrol Sergeants, Patrol Corporals and Patrol Officers.

Detective Division. The Detective Division investigates an array of serious offenses such as aggravated assault, aggravated battery, stalking, kidnapping, attempted murder, homicide, arsons with injury or death, missing and vulnerable persons, firearm offenses and traffic fatalities. These cases require more time than a Patrol Officer can commit and may last several days or even months. Detectives also have specialized training.

In a bid to share resources and capabilities with nearby law enforcement agencies to protect life and property, the cities of Bonney Lake, Buckley, Dupont, Fife, Fircrest, Gig Harbor, Lakewood, Milton, Orting, Puyallup, Sumner, and the Town of Steilacoom entered into an interlocal agreement for joint cooperation. This agreement has been in place since 2005, and provides a multi-agency team of investigators and support resources designed to provide quality investigative assistance to the City of Milton such as:

- Crime Response Unit Specialty Team comprised of individual officers organized to provide quality investigative assistance for major incidents.
- Major Law Enforcement Operations Response Team, which will assist in the event of an actual or suspected emergency which requires extraordinary and/or specialty expertise, or a major crime incident which demands specialty expertise, or where additional resources are needed for effective resolution.
- Tactical Response Team comprised of individual officers to respond to situations which require additional or extraordinary tactical equipment or expertise.
- Metro Collision Response Team comprised of individual officers of the member agencies organized to respond to and investigate serious injury, fatality, or officer involved collisions occurring within our jurisdiction.

CRIMINAL JUSTICE FUND

General Fund

Growth in calls for service, the need for additional personnel to comply with best business practices, and an increase in the City's day and night population have all placed significant demands on the City's resources. In addition, existing personnel salaries and benefits continue to increase through contract periods. The Milton Police Department will continue to do its best to provide the highest level of services to the citizens of Milton with the resources available.

The Street Fund is used to account for activities to maintain public infrastructure by effectively administering and managing the design, engineering, construction, environmental compliance, and maintenance of City-owned streets, transportation systems, roadway shoulders, landscape strips, sidewalks, traffic signals, and other assets.

There are five primary programs in the Street Division, including Pavement Management, Street Lights, Safety, Sidewalk/Right of Way Maintenance, and Winter De-icing and Plowing. The City's street crew performs routine maintenance limited to filling potholes and minor repairs. A limited amount of asphalt patching is contracted out each year, primarily focused on patching small areas of pavement that are approaching failure and experiencing extensive cracking and settling. Current funding levels for this program are not adequate to provide for preventive pavement maintenance, only routine maintenance at the most basic level is done throughout the year.

The Safety Program includes cleaning and repair of street signs, guardrails, and all other traffic control devices within the City. Maintenance and repairs to traffic signals is currently handled by Pierce County or, on state routes, by the Washington State Department of Transportation.

Cleaning of sidewalks, maintaining landscaping, and mowing roadway shoulders is covered under the Sidewalk/Right of Way Maintenance Program.

De-icing and plowing is performed as needed by the City's street crew during inclement weather. The Winter De-icing and Plowing Program is not inclusive of all City streets, and only focuses on pre-determined primary and secondary routes through town.

Financing the programs and activities of the Street Fund has been very challenging over the past several years. The fund receives shared monies from the Motor Vehicle Fuel Tax, but this distribution is based on population, so the City receives a minimal amount each year. Unfortunately, this distribution is not enough to cover the annual expenditures of this fund. To make up for the shortfall between current program revenues and current operational expenditures, the City transfers General Fund monies to the Street Fund annually to subsidize the programs. Budgeting for some street-related projects is included in the Capital Improvement Fund.

Debt service expenditures in this fund will be eliminated in 2025. One Public Works Trust Fund loan was paid off in 2022, and the remaining Public Works Trust Fund loans were paid off in 2024.

DRUG SEIZURE

Fund 105

The Drug Seizure Fund is used to account for revenues from seizures and forfeitures. These monies are used to offset training and equipment costs of the Police Department. To ensure that criminals do not benefit financially from their illegal acts, federal law provides that profits from drug-related crimes, as well as property used to facilitate certain crimes, are subject to forfeiture to the City.

COMMUNITY EVENTS

Fund 116

The Community Events Fund is used to account for revenues and expenditures associated with annual Milton Days, Craft Bazaar and Santa Parade events. Salaries and benefits costs will be subsidized by transfers from the General Fund as needed and as approved during the budget process.

REAL ESTATE EXCISE TAX 1

Fund 130

The Real Estate Excise Tax (REET) is a tax on the sale of real estate, usually paid by the seller. REET is collected by the County and distributed to the State and the appropriate local government. In 1982, cities and counties were authorized to impose an additional 0.25% to finance capital improvements (RCW 82.46.010). This is commonly referred to as REET 1 or the "first quarter percent".

REET 1 funding can be utilized to fund capital projects that are listed in the capital facilities plan element of the City's comprehensive plan. Capital projects are defined as those public works projects of a local government for planning, acquisition, construction, reconstruction, repair, replacement, rehabilitation, or improvement of streets, roads, highways, sidewalks, street and road lighting systems, traffic signals, bridges, domestic water systems, storm and sanitary sewer systems, parks, recreational facilities, law enforcement facilities, fire protection facilities, trails, libraries, administrative facilities, judicial facilities, river flood control projects, and technology infrastructure that is integral to the capital project.

REAL ESTATE EXCISE TAX 2

Fund 131

The Real Estate Excise Tax (REET) is a tax on the sale of real estate, usually paid by the seller. REET is collected by the County and distributed to the State and the appropriate local government. In 1990, cities and counties were authorized to impose an additional 0.25% to finance capital improvements (RCW 82.46.035). This is commonly referred to as REET 2 or the "second quarter percent".

REET 2 funding can be utilized to fund capital projects that are listed in the capital facilities plan element of the City's comprehensive plan. Capital projects are defined as those public works projects of a local government for planning, acquisition, construction, reconstruction, repair, replacement, rehabilitation, or improvement of streets, roads, highways, sidewalks, street and road lighting systems, traffic signals, bridges, domestic water systems, and storm and sanitary sewer systems as well as planning, construction, reconstruction, repair, rehabilitation, or improvement of parks.

TRAFFIC IMPACT FEES

Fund 140

Impact fees are one-time charges assessed against a new development project to help pay for new or expanded public facilities that will directly address the increased demand for services created by that development. Impact fees may only be imposed for "system improvements", or public capital facilities that are designed to provide service to the community at large, are reasonably related to the new development, and will benefit the new development.

Traffic impact fees must be used for public streets and roads that are addressed by the capital facilities plan element of the City's comprehensive plan adopted under the Growth Management Act.

PARKS IMPACT FEES

Fund 150

Impact fees are one-time charges assessed against a new development project to help pay for new or expanded public facilities that will directly address the increased demand for services created by that development. Impact fees may only be imposed for "system improvements", or public capital facilities that are designed to provide service to the community at large, are reasonably related to the new development, and will benefit the new development.

Parks impact fees must be used for publicly owned parks, open space, and recreation facilities that are addressed by the capital facilities plan element of the City's comprehensive plan adopted under the Growth Management Act.

CAPITAL IMPROVEMENT

Fund 310

The Capital Improvement Fund supports the City's transportation, parks and facility improvements. Projects are funded by transfers in from the Traffic Impact Fees, Parks Impact Fees, and Real Estate Excise Tax Funds as well as various State and Federal funding programs.

2025 projects include the following:

City Hall Retrofit **\$123,490**

This budget item is for continued improvements to the City Hall complex to modernize and improve the appearance and performance of the facilities.

City-wide Parks Improvements **\$233,065**

This budget item is for various City park improvements which may include irrigation, tree planting, lighting, benches, and parking.

Community Park Outdoor Meeting Venue **\$250,000**

This budget item is to construct an outdoor meeting venue at the Milton Community Park to provide a covered, well-ventilated space for City meetings and gatherings as well as other community events. This project will be partially funded with Coronavirus Local Fiscal Recovery Funds from the American Rescue Plan Act (ARPA).

Playground Equipment **\$357,512**

This budget item is for the continued repair and replacement of playground equipment at City parks to ensure safety compliance and usability.

City-wide Traffic Calming Program **\$256,841**

This budget item is to install physical design and other measures, such as speed humps, traffic circles, and speed readers, in residential neighborhoods to improve the safety of motorists and pedestrians.

Miscellaneous Street Overlay **\$100,000**

This budget item is to improve pavement condition by asphalt patching, crack sealing and spot removal and replacement.

Miscellaneous Striping and Markings **\$78,964**

This budget item is for the City's line striping and raised pavement markings. This is part of an annual program to keep pavement markings up to current standards at various locations throughout the City.

Sidewalk Missing Links **\$1,027,202**

This budget item is for installation of new sidewalks as well as replacement and repair of failing sidewalk sections at various locations throughout the City. Project locations include, but are not limited to, Oak Street from 11th to 17th, 27th Avenue north of Milton Way, 23rd Avenue, Porter Way near the Interurban Trail, and Milton Way from 20th Street East to Porter Way.

City-wide Transportation Beautifications \$19,839

This budget item is to improve the appearance of the City's transportation system by installing decorative banners on poles, taking measures for litter prevention, planting trees, and installing flower beds and stamped concrete for crosswalks.

ELECTRIC UTILITY

Fund 401

The Electric Utility is a division of the Public Works Department and was established to provide a safe and reliable electric system to the citizens of Milton. Electricity is provided by the Bonneville Power Administration (BPA) and delivered to the City at the substation located along Fife Way.

The Electric Utility Fund is an enterprise fund that operates like a business. The primary source of revenue for this fund is through the sale of electricity to customers. Expenditures from this fund include administration as well as maintenance and operations of the utility. Administrative functions include monthly customer billing, planning, coordination with BPA, and participation in other electric related organizations. Maintenance and operations activities include regular maintenance and repair of poles, transformers, vaults, and distribution lines. In addition, transfers are made out of this fund to support the Electric Capital Improvement Fund and the Electric Asset Replacement Fund.

This fund was established to separate Electric Utility capital improvements from regular administration, maintenance and operations activities. The intent is to have resources available when needs arise. Seven percent of Electric Sales revenue is contributed to this fund each year.

2025 projects include the following:

Substation	\$1,654,294
-------------------	--------------------

Electrical substation design, surveying, geotechnical investigations, studies and services, and permitting as well as the creation of plans, specifications and estimates, construction management, and construction engineering services.

Miscellaneous Cable Replacement	\$50,000
--	-----------------

This budget item is for the purchase of electrical cable as needed to replace aging and failing segments of cable at various locations throughout the City.

Pole Replacement Project	\$231,652
---------------------------------	------------------

This budget item is for inspection and treatment of electrical poles as well as the purchase and installation of new poles as needed to replace aging and failing poles at various locations throughout the City.

Tree Trimming	\$63,886
----------------------	-----------------

This budget item is to provide funding for the trimming of trees to reduce outages caused by wind storms. This is part of the Electric Utility's effort to continue to provide a reliable electric system.

Meter Replacement Project	\$40,329
----------------------------------	-----------------

This budget item is for the equipment and staff time needed for the Electric Utility's continued effort to implement a totally automated meter reading and control system.

Resiliency Improvements	\$100,000
--------------------------------	------------------

This budget item is for planning and design needs associated with increasing resiliency of existing grid system loop transmission and distribution tie upgrades.

ELECTRIC ASSET REPLACEMENT

Fund 409

The Electric Asset Replacement Fund was established to provide for replacement of assets such as rolling stock, major equipment, and technology upgrades. The intent is to have resources available when needs arise.

Amounts included in this fund's budget represent the portion allocated to electric utility functions only. Amounts allocated to non-electric utility functions are included in the Asset Replacement and Capital Reserve Fund, a subsidiary fund of the General Fund, and the Water and Stormwater Asset Replacement Funds.

Three percent of Electric Sales revenue is contributed to this fund each year.

WATER UTILITY

Fund 403

The Water Utility is a division of the Public Works Department and was established to provide, operate, and maintain a quality water supply for customers inside and outside of the City that effectively and economically meets or exceeds all federal and state drinking water regulations.

The Water Utility Fund is an enterprise fund that operates like a business. The primary source of revenue for this fund is through the sale of water to customers. Expenditures from this fund include administration as well as maintenance and operations of the utility. Administrative functions include monthly customer billing, planning, coordination with the Department of Health, working with hydrogeologists and legal counsel to protect the City's water sources, and participation in other water related organizations. Maintenance and operations activities include regular maintenance and repair of wells, pump stations, valves, water mains, distribution lines and hydrants. In addition, transfers are made out of this fund to support the Water Capital Improvement Fund and the Water Asset Replacement Fund.

This fund was established to separate Water Utility capital improvements from regular administration, maintenance and operations activities. The intent is to have resources available when needs arise. Seven percent of Water Sales revenue is contributed to this fund each year.

2025 projects include the following:

Miscellaneous Pump Station Component Upgrades **\$100,000**

This project will continue to replace failing components at the City's pump stations to ensure uninterrupted delivery of treated water to customers. The City's pump stations are aging and need upgrades every year. This project will also upgrade treatment systems with on-site chlorine generation.

Fire Hydrant/Gate Valve Upgrades **\$26,358**

This project will replace pumper ports on fire hydrants with 5" Storz quick connect adapters for faster response times and to meet the standards of East Pierce Fire & Rescue. The project will also replace aging and failing hydrants in the City's distribution system.

Miscellaneous Well Rehabilitation **\$50,000**

This budget item is to investigate and, if necessary, rehabilitate wells within the City as issues arise.

Miscellaneous Service Line Replacements/Connections **\$60,000**

This project will entail tying over service lines to new mains in areas where the City currently has multiple mains in the roadway. This is a proactive approach to abandon older failing water mains.

New Deep Well **\$1,000,000**

This project will develop an additional water supply source at the 18th Street Court site near the 2 MG Reservoir and Booster Pump Station site. Project costs include design, engineering, and equipping a new well and well building. This project will utilize Coronavirus Local Fiscal Recovery Funds from the American Rescue Plan Act (ARPA) for eligible expenditures.

Pump Station Building Upgrades **\$45,000**

This project replaces failing roof and gutter systems at four pump station facilities located throughout the City's Water Utility District. Current asphalt shingle roofs have surpassed their anticipated life cycle and are in need of replacement. To reduce future maintenance costs and adequately protect pump station components within these structures, this project will replace asphalt shingle roofs with metal roofs.

Miscellaneous Security Upgrades **\$23,924**

Security is a very important aspect of operating a reliable and dependable water system. This budget item provides for the purchase and installation of equipment necessary to monitor and issue alarms when a security concern arises regarding the City's water system.

Miscellaneous Water Main Replacements/Upgrades **\$45,378**

This project includes repair and replacement of aging and failing water pipes at various locations throughout the City.

Juniper Street Water Main Replacement \$950,000

This project will replace 1,318 linear feet of existing undersized 4-inch pipe, increase fire flow availability by eliminating pressure and velocity constraints, and create looping in the system.

Miscellaneous Technology Upgrades \$10,000

This project upgrades the City's Sensus software system to streamline operations, and installs new technology upgrades in the field. These technology upgrades were not available when the original infrastructure was installed. The upgrades will also provide the ability to monitor water pressure and temperature at designated areas in the system, and receive alerts when conditions are not within set parameters.

Decommission of Wells #1, #4, #9 \$50,000

Wells #1, #4 and #9 are no longer in use and will be properly decommissioned by a licensed contractor. Wells that are not properly decommissioned provide a direct channel for contaminants to seep into aquifers. These wells were abandoned years ago for various reasons such as loss of production or cost-prohibitive repairs.

Porter Way Water Main Improvements \$200,000

This project is for repair and replacement of critical Water Utility infrastructure parallel to Porter Way below Interstate 5. The existing water main failed in 2024. This main is critical for adequate fire flow west of Interstate 5, and will remain isolated until design and permitting is complete and construction funds can be sourced. Fire flow is currently supported by the sole remaining Interstate 5 undercrossing and the intertie with an adjacent water purveyor. The amount budgeted in 2025 is for design and permitting only.

WATER ASSET REPLACEMENT

Fund 405

The Water Asset Replacement Fund was established to provide for replacement of assets such as rolling stock, major equipment, and technology upgrades. The intent is to have resources available when needs arise.

Amounts included in this fund's budget represent the portion allocated to water utility functions only. Amounts allocated to non-water utility functions are included in the Asset Replacement and Capital Reserve Fund, a subsidiary fund of the General Fund, and the Electric and Stormwater Asset Replacement Funds.

Three percent of Water Sales revenue is contributed to this fund each year.

STORMWATER UTILITY

Fund 406

The Stormwater Utility is a division of the Public Works Department and was established to provide, operate and maintain a stormwater system with a focus on minimizing damage from severe storms by improving flood protection and improving the quality of stormwater runoff to meet the requirements of the Department of Ecology's National Pollutant Discharge Elimination System (NPDES) Phase II permit.

The Stormwater Utility Fund is an enterprise fund that operates like a business. The primary source of revenue for this fund is through the payment of monthly stormwater fees. Expenditures from this fund include administration as well as maintenance and operations of the utility. Administrative functions include monthly customer billing, planning, coordination with the Department of Ecology, and participation in other stormwater related organizations. Maintenance and operations activities include regular maintenance and repair of catch basins, manholes, storm pipes, ditches, culverts, bioswales, underground detention vaults, and detention ponds. In addition, transfers are made out of this fund to support the Stormwater Capital Improvement Fund and the Stormwater Asset Replacement Fund.

A rate study was completed in 2024, and rate increases were adopted for the next five years in an effort to maintain fund balance.

This fund was established to separate Stormwater Utility capital improvements from regular administration, maintenance and operations activities. The intent is to have resources available when needs arise. Seven percent of Storm Drainage Fees revenue is contributed to this fund each year.

2025 projects include the following:

<u>Invasive Plant Species Removal</u>	<u>\$30,000</u>
--	------------------------

Invasive plant species are an increasing problem in the City. This project will use an integrated approach to invasive species management. Knotweed will be removed systematically by specialists, and other noxious and invasive weeds will be controlled by staff or professionals as needed. Mechanical, chemical, and preventative measures will all be used to control these dangerous plants.

<u>City-wide Ditch/Culvert Projects</u>	<u>\$88,196</u>
--	------------------------

This budget item is for repair and construction of ditches and culverts at various locations throughout the City.

<u>Oak Street Storm Improvements</u>	<u>\$200,000</u>
---	-------------------------

The ditches on the north side of 15th Avenue experience high stormwater flows. They are also in close proximity to parking and access to Milton Community Park. This project will install pipes and catch basins in place of ditches to control the flow of water down the hill while simultaneously providing much needed parking for Milton Community Park.

<u>Porter Way Culvert</u>	<u>\$100,000</u>
----------------------------------	-------------------------

This project will expand the existing storm culvert below Porter Way adjacent to Juniper Street. The expanded culvert will reduce flood potential to West Milton Park, support water quality goals, and allow the City to build the last remaining stretch of sidewalk between 5th Avenue and the Interurban Trail. The amount budgeted in 2025 is for design and permitting only. The sidewalk portion of this project will be included in the Capital Improvement Fund as part of the Sidewalk Missing Links project.

VEHICLE REPAIR & MAINTENANCE

Fund 501

The Vehicle Repair and Maintenance Fund is an Internal Service Fund that was established to account for repair and maintenance of the City's fleet of vehicles, excluding the Police Department. Revenue to this fund is collected by assessing the other funds for the labor and equipment used to service vehicles from the different departments. Expenditures are tracked by vehicle and department, and primarily include in-house wages and benefits for the City's mechanic as well as parts for repair and maintenance of the City's fleet. Other expenditures include repair and maintenance services for which the City does not have the equipment or specialized expertise.

INFORMATION TECHNOLOGY

Fund 503

The Information Technology Fund is an Internal Service Fund that was established to account for city-wide technology needs. Revenue to this fund is collected by assessing the other funds for operating expenditures related to technology that serve the entire City. Expenditures are primarily for contracted information technology support services, software licenses and subscriptions, equipment and other professional services.

CITY OF MILTON, WASHINGTON

ORDINANCE 2103-24

AN ORDINANCE OF THE CITY OF MILTON, WASHINGTON; ADOPTING THE BUDGET FOR THE FISCAL YEAR ENDING DECEMBER 31, 2025; BUDGETING AMOUNTS BY FUND; PROVIDING FOR THE MAYOR'S ADMINISTRATION OF THE ADOPTED BUDGET; PROVIDING FOR SALARIES AND COMPENSATION; DIRECTING REQUIRED TRANSMISSIONS OF THE BUDGET; PROVIDING FOR SEVERABILITY; AND ESTABLISHING AN EFFECTIVE DATE AND PROVIDING FOR SUMMARY PUBLICATION.

WHEREAS, the tax estimates and budget for the City of Milton, Washington, for the 2025 calendar year have been prepared and filed as provided by the laws of the State of Washington; and

WHEREAS, the preliminary budget was printed for distribution and notice published in the official paper of the City of Milton, setting the time and place for hearing on the budget; and

WHEREAS, the City Council of the City of Milton held a public hearing on the Revenue Sources on November 4, 2024 as required by law, and considered the public testimony presented; and

WHEREAS, the City Council of the City of Milton properly noticed and held public hearings on the preliminary budget on November 18, 2024 and on the final budget on December 2, 2024 as required by law, and considered the public testimony presented;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MILTON, WASHINGTON, DO ORDAIN AS FOLLOWS:

Section 1. Budget Adopted. The budget for the City of Milton, Washington for the year 2025 is hereby adopted at the fund level in its final form and content as set forth in the comprehensive 2025 Budget document for the City of Milton, copies of which are on file in the Office of the City Clerk.

Section 2. Budget Amounts by Fund. Estimated revenues, including fund balances for each separate fund of the City of Milton, for the year 2025 are set forth in summary form below, and are hereby appropriated at the fund level during the year 2025 as set forth in the adopted 2025 Budget for the City of Milton:

Section 3. Administration. The Mayor shall administer the budget, and in doing so may authorize adjustments within the funds set forth in Sections 1 and 2 above, to the extent that such adjustments are consistent with the budget approved in Sections 1 and 2.

Section 4. Salaries and Compensation. The salaries and compensation for the City of Milton employees for the calendar year 2025 shall be as set forth on page 13 of the 2025 Budget

document, or as the same may be amended by the Mayor as part of administration of the budget pursuant to Section 2 above.

Section 5. Transmission of the Adopted Budget. The Finance Director is directed to transmit a certified copy of the budget hereby adopted to the State Auditor's Office and to the Association of Washington Cities.

Section 6. Severability. The provisions of this ordinance are declared separate and severable. If any provision of this ordinance or its application to any person or circumstances is held invalid, the remainder of this ordinance or application of the provision to other persons or circumstances shall be unaffected.

Section 7. Effective Dates/Summary Publication. This ordinance shall take effect January 1, 2025 following its publication. Publication may be by summary publication by Ordinance Title only.

Passed by the Milton City Council the 2nd day of December, 2024, and approved by the Mayor, the 2nd day of December, 2024.

GLOSSARY

Appropriation - A legal authorization granted by the City Council to make expenditures and to incur obligations for a specific purpose.

Assessed Valuation - The valuation set upon real estate and certain personal property by the County Assessor as a basis for levying property taxes.

Authorized Positions - Employee positions, which are authorized in the adopted budget, to be filled during the year.

BARS - The Budgeting, Accounting and Reporting System for accounting prescribed by the Washington State Auditor's Office.

Bond - A long-term promise to repay a specified amount (the face amount of the bond) on a particular date (the maturity date). The most common types of bonds are general obligation and revenue bonds. Bonds are primarily used to finance capital projects.

Budget - A plan of financial activity for a specified period of time (fiscal year or biennium) indicating all planned revenues and expenditures for the budget period.

Capital Improvement - Expenditures related to acquisition, expansion or rehabilitation of an element of the government's physical site; sometimes referred to as infrastructure.

Capital Outlay - Fixed assets that have a value of \$5,000 or more and have a useful economic life of more than one year.

Capital Project - Major construction, acquisition, or renovation activities which add value to a government's physical assets or significantly increase their useful life, also called capital improvements.

Capital Projects Fund - A fund created to account for all resources and expenditures used for the acquisition of capital assets except those financed by enterprise funds.

Contractual Services - Services rendered to a government by private firms, individuals, or other governmental agencies.

Debt Service - Payment of interest and principal on borrowed money according to a predetermined payment schedule.

Department - The basic unit of service responsibility, encompassing a broad mandate of related service responsibilities.

Enterprise Fund - A type of proprietary fund in which the direct beneficiaries pay for all costs of the fund through fees.

Expenditure - Charges incurred (whether paid immediately or unpaid) for operations, maintenance, interest or other charges.

Face Value - The amount of principal that must be paid at maturity for a bond issue.

Fiscal Year - A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization.

Full-time Equivalent Position (FTE) - A full-time or part-time position converted to the decimal equivalent of a full-time position based on 2,080 hours per year. For example, a part-time person working 20 hours per week would be the equivalent of 0.5 of a full-time position.

Fund - A fiscal entity with revenues and expenditures that are segregated for the purpose of carrying out a specific purpose or activity.

GAAP - Generally Accepted Accounting Principles are uniform minimum standards for financial accounting and recording, encompassing the conventions, rules, and procedures that define accepted accounting principles.

GASB - Governmental Accounting Standards Board, established in 1985, is the current standard-setting board for governmental GAAP.

General Fund - The principal operating fund of the City used for general governmental operations. Taxes and fees that generally have no restriction on their use support this fund.

General Obligation (G.O.) Bonds - Bonds backed by the full faith, credit and taxing power of the governmental entity.

Indirect Cost - A cost necessary for the functioning of the organization as a whole, but which cannot be identified with a specific product, function or activity.

Infrastructure - The physical assets of a government including streets, water, sewer, public buildings, and parks.

Interfund Transfers - The movement of monies between funds of the same governmental entity.

Internal Service Fund - A type of proprietary fund that accounts for goods and services provided to other units of the government. Payments from the benefiting units are intended to fund the costs of providing services.

LEOFF - Law Enforcement Officers and Fire Fighters retirement system of the State that provides coverage for public safety employees.

Levy - To impose taxes for the support of the governmental activities.

Levy Rate - The property tax percentage rate used in computing the property tax amount to be paid.

Long-term Debt - Debt with a maturity of more than one year after the date of issuance.

Operating Budget - The portion of the budget that pertains to daily operations that provide basic governmental services.

Ordinance - A formal legislative enactment by the City Council. If it is not in conflict with any higher form of law, such as a statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies.

PERS - Public Employees' Retirement System is the State system for public employment retirement applicable for employees other than police officers and fire fighters.

Proprietary Funds - A group of funds that account for the activities of the City that are of a proprietary or business character. Also see "Enterprise Fund."

Resolution - A special or temporary order of a legislative body requiring less legal formality than an ordinance or statute.

Resources - Total amounts available for appropriation including estimated revenues, fund transfers, and beginning balances.

Revenue - Sources of income financing the operations of government.

Revenue Bonds - Bonds sold by the City that are secured only by the revenues of a particular system.

Special Revenue Funds - General government funds for which the source of monies is legally restricted or designated to a specific purpose.

Taxes - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those who pay, for example, water service charges.

User Charges - The payment of fees for direct receipt of a public service by the party who benefits from the service.
