Annual Budget

Fiscal Year 2016-2017

July 17, 2016

Honorable Mayor and Councilmembers:

The theme for fiscal year 2016-2017, is “Strategically Focusing our Resources.” The adopted 2015-2022 Strategic Plan clarified the direction for the City of La Marque to focus on very specific goals. For the fifth consecutive budget year, City Council directed me to propose a balanced budget with no tax increase, no utility rate increase, and to reduce reliance on annual revenue received from coin operated machine licenses from \$295,000.00 to \$0.00. These revenues will be reserved in a restricted fund for capital purchases. The combination of a drop in revenues from ambulance and fire service fees, franchise fees for electricity and gas, and an anticipated increase in insurance costs for general liability (due to weather events around the state), Texas Windstorm (TWIA), Workers’ Compensation, unemployment, animal services, and healthcare, I trimmed budget requests substantially to achieve a balanced budget of operating revenues exceeding operating expenditures. You will notice Capital Outlay for equipment and projects, Capital Improvements Program (CIP), Capital Leases (vehicle debt) and proposed pay adjustments will be presented as supplemental requests for separate consideration and funding options, which allows departmental operating budgets to remain lean.

For each of the past four fiscal years, the City improved its financial position over the previous fiscal year. Not only had the City accomplished the goal of a steady fund balance of over 90 days for the General Fund, but also FY 2014-2015 ended with a surplus of close to \$1 million, a contingency of approximately 160 days, which can fluctuate based on daily operating expenditure needs. If any surplus funds are realized during the 2017 fiscal year, the City will reserve these funds to absorb non-recurring capital expenditures and capital leases based on needs of the community identified in the 2015-2022 Strategic Plan.

Annual Budget

Fiscal Year 2016-2017

GENERAL FUND

The tax rate is proposed again as \$0.490764, which remains the lowest since 1992 except for 1994 and 1995, based on research of previous years' tax rates. The City is awaiting calculation of the effective tax rate (based on current and previous fiscal years) by the Galveston County Tax Assessor Collector's office. The effective tax rate reflects a community's economic health, which can affect decisions of anyone considering locations for quality of life and business opportunities.

The City of La Marque anticipates families moving into the community could offset property exemptions and frozen values already in place for senior citizens and veterans. Previously, to help citizens understand how the tax rate relates to the level of services, last year's budget included a pie chart of the current tax rate as allocated to each category of operations. This year's budget document will include \$1.00 divided by the number of cents allocated to operations to provide citizens a visual of how each tax dollar is spent.

Each year, sales tax received overall (2¢) surpasses previous fiscal years' actual receipts. To date, sales tax is 13% higher than the same period last fiscal year. A consultant hired during the current year researched sales tax receipts and notified the City of a La Marque business who had been paying sales tax to another city, which contributed to the increase. In addition, the construction of a new national chain pharmacy was completed during 2015. Because citizens rely on sales tax to the General Fund (1½¢ of 2¢) to offset their property taxes, an increase in commercial activity that generates both sales and property tax is essential to La Marque's future.

UTILITY FUND

The Utility Fund maintains a positive fund balance, although the operations portion indicates a deficit due to capital projects. Grants and availability of additional disaster recovery funds from Hurricane Ike have enabled the City to replace damaged infrastructure. The City continues seeking grant opportunities to assist in funding improvements to our aging infrastructure.

During the current budget year, the Economic Development Corporation (EDC), agreed to fund the leak detection testing to identify points of leakage for repair, as a follow up to the water audit conducted in the previous fiscal year, which identified the extent of La Marque's water loss.

SPECIAL REVENUE FUNDS

Clean City Commission and Parks Board receive donations to their respective funds through utility bills. However, donations have dropped noticeably, which is reflected in the proposed budget. The General Fund may be targeted as a funding source by both boards, or board members may need to become more proactive in soliciting donations from the community.

CERTIFICATES OF OBLIGATION 2016 CAPITAL PROJECTS FUND

The Certificates of Obligation 2016 prompted the creation of a new fund to track related capital projects.

Annual Budget

Fiscal Year 2016-2017

For the first time in nine years, the City Council approved issuing debt by purchasing Certificates of Obligation at a value of \$10 million including fees. The debt created the ability to fund infrastructure improvements as identified by the Texas Commission on Environmental Quality (TCEQ), the 2015-2022 Strategic Plan, and Insurance Services Office (ISO) for Fire Suppression.

By contracting with Siemens Industry to oversee the debt funded projects, the City will be able to perform major improvements to the Wastewater Treatment Plant, resolve Sanitary Sewer Overflow (SSO) issues, repair water leaks and water lines, and construct a new fire station. The City now is financially able to position itself proactively for further growth.

GENERAL PERSONNEL

Currently, all departments are operating with the minimum number of staff to perform basic functions. Only three departments are requesting additional personnel: fire, police, and economic development.

Firefighters/Paramedics – Three additional firefighter/paramedics are requested to provide enough staff for the new medic unit requested. Over the past year, many La Marque calls for service were handled by mutual aid due to a lack of operational vehicles.

Police Officers – Six additional sworn officers are requested. During the current budget year, police requested permission to begin the recruiting and lengthy hiring process for additional sworn officers. City Council approved the process with the stipulation that the number of officers funded would not be discussed / approved until budget workshops sessions. Council already had agreed to approve and fund through a budget amendment a second service canine and overtime for special operations to keep the community safe.

Public Relations – A position dedicated to public relations and marketing of the City of La Marque is being requested by the La Marque Economic Development Corporation, which intends to fund 100% of the position.

Code Compliance – For the current and upcoming budget year, salary and benefits are reflected in the Development Services Division for the full-time clerical position that reports directly to the Code Compliance Supervisor. Rather than Council approving an additional Code Compliance Officer, the La Marque Economic Development Corporation is contributing \$25,000.00 to dedicate this position to the Revitalization Program.

Court – City Council directed me to remove primary City Marshal duties from the Code Compliance Supervisor and retain a separate City Marshal. Restricting a City Marshal to warrant duties should clear a large percentage of remaining outstanding warrants. A new job description has been prepared for funding in the upcoming budget.

Annual Budget

Fiscal Year 2016-2017

Emergency Management – Due to the transfer of the Emergency Management Coordinator to the City Manager’s Office, salary and benefits were transferred from the Police Department budget for the current and upcoming budget year.

Public Services – Three positions were removed from Public Services to cover costs of mowing / manicuring all City parks, City facilities, and the cemetery due to the extreme difficulty to attract and retain enough direct hire and temporary to hire employees.

COMPENSATION AND BENEFITS

City Council will be asked to continue contributing 100% of the cost of dental and vision plans for employees, only. Police Collective Bargaining follows separate contract terms agreed to by both the City of La Marque and La Marque Police Association (LMPA).

A compensation study that was proposed to City Council at last year’s budget workshop sessions, indicated several positions were below market. City Council directed me to add \$1,500.00 to each employee who was 40% or more below market and \$1,000.00 to each employee who was 30% or more below market. However, Maintenance Technicians and Equipment Operators still remain below market when compared to current salary surveys. I am proposing salary adjustments for all Maintenance Technicians and Equipment Operators from both the General and Utility Funds. In addition, a newly enacted federal law effective December 1, 2016, requires exempt positions must be paid at least \$47,476.00 annually (or \$913.00 per week) or be paid overtime. I am proposing a salary adjustment for two exempt positions that must meet the required minimum threshold, the Court Administrator and Human Resources Coordinator.

I would like City Council to approve the updated compensation study results to bring positions closer to market level and implement pay-for-performance adjustments to attract and retain quality employees. A finalized compensation plan with a standard range for minimum, midpoint, and maximum salary rates for each job position will be proposed to City Council for consideration and approval during the upcoming budget year.

COLLECTIVE BARGAINING

Results of the three-year agreement for both collective bargaining groups was effective October 2015. Effective October 1, 2016, a 1.4% Cost of Living Adjustment (COLA) for the Firefighters Union Local 3282 IAFF will be reflected in the proposed budget, based on the Consumer Pricing Index (CPI) as of April 2016, creating an estimated \$100,000.00 impact to the General Fund. For the City to absorb 50% of medical and 100% of dental and vision insurance for dependents of La Marque Police Association (LMPA) members and to outfit uniforms fully, the financial impact to the General Fund is estimated at over \$33,000.00. The LMPA elected to delay any discussion of a possible COLA until the 2017-2018 budget year.

Annual Budget

Fiscal Year 2016-2017

CAPITAL PROJECTS

A revised five-year Capital Improvements Plan is included in the budget to fund heavy equipment in addition to infrastructure projects. As indicated earlier, Capital Outlay for equipment and projects, Capital Improvements Program (CIP), Capital Leases (vehicle debt) and proposed pay adjustments will be presented as non-recurring supplemental requests for consideration separately. Reserved fund balances are restricted in the type expenditures that qualify, which allows non-recurring capital purchases debt, but not recurring personnel costs. Restricted funds provide only the City Council with discretion to evaluate and rank capital projects.

According to the 2015-2022 Strategic Plan, not less than 20 substandard structures should be demolished each year through FY 2021. Thirteen (13) substandard residential structures have been demolished during FY 2015-2016 at a cost to the City of approximately \$66,000.00. Twenty-one (21) substandard structures have been identified for demolition by the end of FY 2016. City Council will be asked to fund at least 20 more substandard structures for the upcoming fiscal year. Also, the Economic Development Corporation funded \$132,000.00 for the demolition of a highly visible blighted structure, revealing a prime location for new development.

CONCLUSION

As instructed by me, each City department presented well-planned, conservative budget requests to provide the level of services our citizens have indicated they desire and require. Prior to budget workshop sessions, the Finance Director and I reduced budget requests by several hundred thousand dollars to meet the Charter requirement of submitting a balanced budget to City Council. As in all budget workshops rather prior to or following public hearings, City Council will have an opportunity to propose additional requests or remove additional requested items and staff will adjust the budget according to items ultimately approved by a vote of Council. I again recommend to City Council that the budget not reflect new anticipated revenues or any unexpected revenues such as donations, rebates, refunds, previous uncollectible liens and warrants, etc. until dollars actually are realized in City accounts.

City Council and staff are cognizant of limited resources and maintain a fiscally responsible approach to provide the most services at the least possible costs to our citizens. By the end of FY2016-2017, citizens should see positive results from "Strategically Focusing our Resources."

Respectfully submitted,

Carol J. Buttler

Supplement to Summary Letter of Proposed Budget

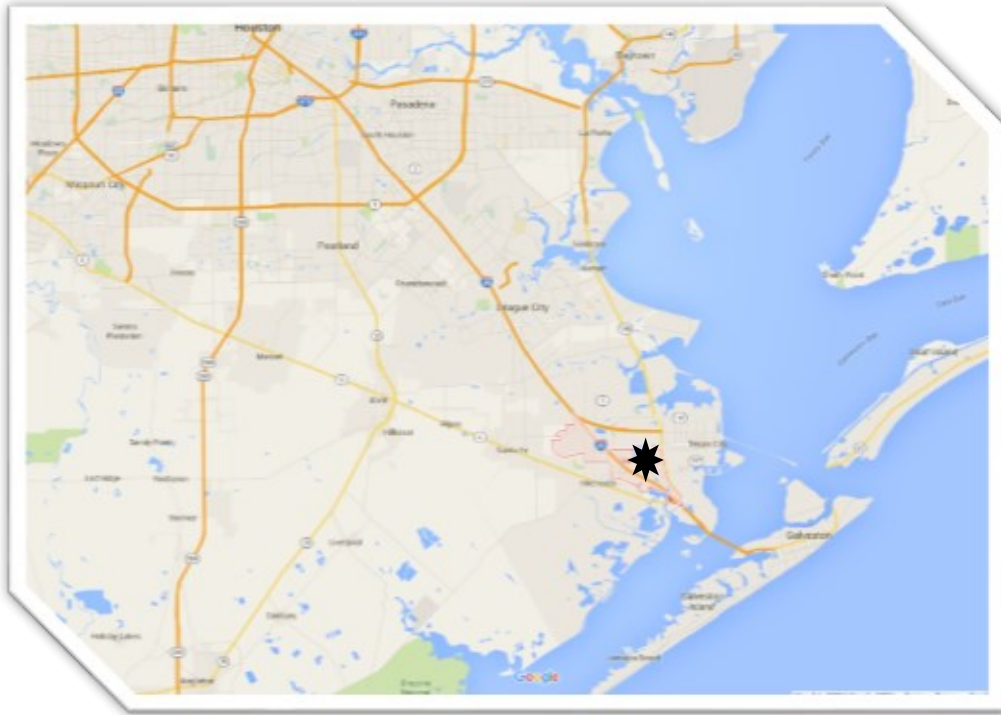

Based on Budget Workshop Sessions with City Council, you will note several additional expenditures requested by City Council. Although several of the new items are non-recurring purchases, additional personnel will require funding from recurring sources.

City Council directed the City Manager to fund non-recurring purchases by drawing down the fund balance.

TEXAS GENERAL LAND OFFICE COMMUNITY BLOCK GRANT DISASTER RECOVERY PROGRAM ROUND 2.2 13-167-000-7268

Under the 2008 Texas CDBG Disaster Recovery Supplemental Grant Round 2.2, the City was awarded funding to aid areas most impacted and distressed by Hurricane Ike. In September 2008, the City experienced Ike which caused the City's water and wastewater systems to fail due to flooding and a loss of normal electrical power service for several days. As a result, the sewer systems endured excessive inflow and infiltration (I/I) which overwhelmed the system and led to a build-up of untreated sewage at the wastewater facilities, as well as sewage overflow into residential areas. Additionally, the loss of power prevented the City's water supplier from providing potable water to City residents. The failure of the water and sewer facilities to function threatened the public health, safety, and welfare of all served by these facilities due to the build-up of untreated sewage and lack of an adequate potable water supply. The City is in need of water and wastewater system improvements that will ensure these facilities having the capacity to operate efficiently during future storm events. In addition, flooding from the storm also caused various roads to sustain damage due to standing water and saturated road beds which caused the roads failure to function as the primary access for the area. This failure of the roadways to function threatened the public health, safety, and welfare of all served by these facilities due to standing water on the roads and uneven roadway surfaces. The City is in need of roadway infrastructure improvements to ensure proper roadway function.

The following projects were approved by the grant:

Water Facilities:

Kirby Street Water Plant-

- Purchase and install one permanently-affixed generator ranging in size from 300 KW – 400 KW with transfer switch and pad.
- One 500,000-gallon water storage tank.
- Three booster pumps.
- Construct a building enclosure to house the equipment, rehabilitate existing water well, demolish and existing ground storage tank, provide related appurtenances, and provide any other site work associated with construction.
- Provide additional water storage capacity and a backup power supply to existing system.

Sewer Facilities:

- Purchase and install sanitary sewer pipe ranging in size from 6 inches to 36 inches via replacement or pipe bursting.
- Seal and vent existing manholes, purchase and install new manholes, and make service reconnections, along with any other site work associated with construction.

Listed improvements will (1) reduce inflow and infiltration into the sewer collection system; (2) ensure proper operation of the wastewater system and uninterrupted sewage treatment.

GLOSSARY OF TERMS

ACCOUNT - A term used to identify an individual asset, liability, expenditure control, revenue control, encumbrance control or fund balance.

ACCRUAL ACCOUNTING - The method of accounting under which revenues are recorded when they are earned (whether or not cash is received at the time) and expenditures are recorded when goods and services are received (whether or not cash disbursements are made at that time).

AD VALOREM TAXES - Real estate and personal property taxes. Ad Valorem is defined by Webster's New World Dictionary as "in proportion to the value". The taxes are assessed on a portion of the value of the property based on actual taxable value received from the property appraiser and millage rate set by City Council.

APPROPRIATION - Authorization granted by a legislative body (City Council) to incur obligations for specific purposes. An appropriation is limited in amount to the time it may be expended.

ASSESSMENT - The value for tax purposes determined by the property appraiser for a given piece of real or personal property.

ASSETS - Property owned by the city government, which has monetary value.

BALANCED BUDGET - A balanced budget occurs when the total sum of money a government collects in a year is equal to or more than the amount it spends on goods, services, and debt interest.

BOND - A written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate.

BONDED DEBT - The portion of indebtedness covered by outstanding bonds which includes general obligation promissory notes that are backed by approved, irrevocable future tax levies for debt service.

BOND ISSUE - Bonds sold.

BUDGET - A plan of financial operation embodying an estimate of proposed expenditures for a given period, and the proposed means of financing them.

BUDGET CALENDAR - The schedule of key dates which the City Council follows in the preparation and adoption of the budget.

BUDGET ORDINANCE - The official enactment by the City Council establishing the legal authority for officials to obligate and expend resources.

Annual Budget

Fiscal Year 2016-2017

BUDGETARY ACCOUNTS - Those accounts necessary to reflect budget operations and conditions, such as estimated revenues, appropriations, and encumbrances, as distinguished from proprietary accounts.

BUDGETARY CONTROL - The control or management of the business affairs in accordance with an approved budget, with a view toward keeping expenditures within the authorized amount.

CAFR – An acronym meaning Comprehensive Annual Financial Report.

CDBG – An acronym meaning Community Development Block Grant.

CPR – An acronym meaning Cardiopulmonary Resuscitation.

CAPITAL IMPROVEMENTS PROGRAM - A plan for capital expenditures to be incurred each year over a fixed period of several future years setting forth each capital project, identifying the expected beginning and ending date for each project, the amount and the method of financing.

CAPITAL OUTLAY - An expenditure that results in the acquisition of fixed assets or additions to fixed assets, which are presumed to have benefits for more than one year. Includes expenditures for land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, and major fixed or movable equipment costing more than \$5,000 per unit or set.

CAPITAL PROJECT FUND - The fund used to record resources and expenditures for the acquisition and improvement of sites, for acquisition, construction, equipping, and renovation of plant assets and for the purchase of fixed or movable equipment.

CERTIFICATE OF OBLIGATION – A debt instrument that is issued by the City and has the same legal status as a general obligation bond. However, certificates of obligation are not authorized by the voters.

CHART OF ACCOUNTS - The classification system used by a city to organize the accounting for various funds.

CITY MANAGER'S MESSAGE - A general discussion of the proposed budget, as presented in writing by the budget-making authority, to the legislative body.

CLASSIFICATION - A systematic arrangement of items into classes or related groups for analytical or control purposes.

CONTINGENCY - Funds that are not earmarked for a specific purpose and may be used for emergency expenses or to make up cost overruns during a budget year.

CURRENT ASSETS - Cash and other assets that are available to be used in operations within the next twelve months.

CURRENT LIABILITIES - Short-term liabilities whose liquidation is reasonably expected to require the use of assets or the creation of additional liabilities within the next twelve months.

DEBT - An obligation resulting from borrowing of money or from the purchase of goods or services.

Annual Budget

Fiscal Year 2016-2017

DEBT LIMIT - The maximum amount of gross or net debt legally permitted.

DEBT SERVICE - The expense of retiring such debts as loans and bond issues.

DEBT SERVICE FUND - A fund established to finance and account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Also called a SINKING FUND.

DEFICIT - The excess of the obligations of a fund over the fund's resources.

DEPRECIATION - The periodic expiration of a plant asset's useful life. There are several methods for computing depreciation. Straight line, which is the most common, divides the value of the asset at acquisition by its estimated useful life. This amount is then charged to expense until the asset is fully depreciated.

EMS – An acronym meaning Emergency Medical Services.

ENCUMBRANCES – Commitments related to unperformed contracts for goods or services used in budgeting. Encumbrances are not expenditures or liabilities, but represent the estimated amount of expenditures ultimately to result if unperformed contracts in process are completed.

ENTERPRISE FUND - A fund established to finance and account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Examples of Enterprise Funds are those of water and sewer service.

EXPENDITURES - (Used for General Fund Types) Total charges incurred, whether paid or unpaid, which are assumed to benefit the current fiscal year.

EXPENSES - (Used for Non General Fund Types) the cost of goods or services incurred in the operation which cannot be charged to asset accounts.

FEMA – An acronym for the Federal Emergency Management Agency.

FISCAL YEAR - A twelve-month period of time to which the annual budget applies and at the end of which a city determines its financial position and results of operations.

FULL FAITH AND CREDIT - A pledge of the General Taxing power of a government to repay debt obligations (typically used in reference to bonds).

FUND - An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources, together with all related liabilities, obligations, and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives.

FUND BALANCE – The difference between governmental fund assets and liabilities.

Annual Budget

Fiscal Year 2016-2017

GAAP – An acronym for Generally Accepted Accounting Principles. GAAP provides uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to state and local governments is the GASB.

GASB – An acronym for the Government Accounting Standards Board.

GFOA – An acronym for the Government Finance Officers Association.

GENERAL FUND - The fund that is available for any legal authorized purpose and which is therefore used to account for all activities except those required to be accounted for in another fund. Note: The General Fund is used to finance the ordinary operations of a governmental unit.

GENERAL OBLIGATION BONDS - Bonds, for whose payments, the full faith and credit of the issuing body are pledged. More commonly, but not necessarily, general obligation bonds are considered to be those payable from taxes and other general revenues.

GOVERNMENTAL FUND – A fund established to account for the sources, uses and balances of a Government's expendable "general government" financial resources (and the related current liabilities). Examples include the General, Special Revenue, Capital Projects and Debt Service Funds.

GRANT - A contribution by one governmental unit to another. The contribution is usually made to aid in the support of a specified function.

INCOME - This term is used in accounting for governmental enterprises and represents the excess of the revenues earned over the expenses incurred in carrying on particular phases of an enterprise's activities. The excess of the total revenues over the total expenses of the utility for a particular accounting period is called "net income."

INTERFUND TRANSFERS - Transfer among funds. These are utilized to track items for management purposes. They represent a "double counting" and, therefore, are subtracted when computing a net operating budget.

INTERNAL SERVICE FUND - Funds used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

LEVY - The total of taxes or special assessments imposed by a governmental unit.

LOCAL TAX LEVY REVENUE - Revenue of a district, which is derived from taxes levied on, equalized property value within a district.

MIS – An acronym for Management Information Systems.

MODIFIED ACCRUAL – The method of accounting under which revenues are recognized when they are both measurable and available to finance expenditures of the current period. Expenditures are recognized when the liability is incurred.

Annual Budget

Fiscal Year 2016-2017

NON-OPERATING INCOME - Income of governmental enterprises of a business character which is not derived from the operation of such enterprises. An example is interest on investments or on bank deposits.

OPERATING BUDGET - Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government are controlled. The use of annual operating budgets is usually required by law. Even when not required by law, however, annual operating budgets are essential to sound financial management and should be adopted by every government.

OPERATING EXPENSES - As used in the accounts of governmental enterprises of a business character, the term means such costs that are necessary to the maintenance of the enterprise, the rendering of services for which operated, the sale of merchandise, the production and disposition of commodities produced, and the collection of the revenues.
