

City of Cartersville

July 1, 2013

Honorable Mayor and City Council:

A balanced budget for the City of Cartersville for the 2013-14 fiscal year is submitted as required by the Cartersville Municipal Code. This budget focuses on controlling expenditures as the city deals with a recovering economy, without reducing services to our citizens. The budget features a use of general fund reserves, no salary adjustments, a decrease in the number of staff positions, an increase in the cost of commodities, limited replacement of rolling stock and other equipment, and funding for renewal and extensions of the city's utility infrastructure.

Department heads are to be commended for their hard work in helping to balance the budget and their staff's commitment to continue providing dependable service, while preserving an exceptional quality of life.

The city's total budget for 2014 is \$145,243,235, a decrease of 0.06% from last year's budget. The city's 2014 budget has decreased due to the declining revenue projections in several funds. The decrease in revenue projections were offset by decreases in the Cartersville School System property tax appropriation and capital expenses along with increases in personnel expenses, operating expenses, and commodity expenses, debt service expenses, and transfers to the general fund. The largest of these decreases is \$10,922,720 in the capital expenses and is due to decreased spending in SPLOST funds. The larger increases in expenses include \$6,354,350 related to cost of commodities and \$4,342,845 related to debt service expenses. The FY14 budget will decrease by a total of \$86,185 from the prior year to \$145.2 million.

TOTAL BUDGET DECREASE - - FY14

(Table a)

FY 13 Budget Total	\$145,329,420
<u>FY 14 Budget Total</u>	<u>\$145,243,235</u>
FY 14 Total Budget Decrease	\$ 86,185 -0.06%

The following table compares the FY2014 budget to the FY2013 budget by expense type. Personnel expenditures are projected to increase \$362,555 in FY2014 due to increased cost of health and dental insurance. Operating expenditures are projected to increase \$133,305 in FY14 due to increased cost of communications (prior years communications cost was based on eleven months and beginning in FY 2014 communications will be based on twelve months). Projected commodity expenses are estimated to increase by \$6,354,350 from FY13. Debt service expenses, primarily attributable to the Tax Anticipated Notes (TANs) issued in January 2013, are projected to increase by \$4,342,845. Capital projects expenses, as detailed above, are projected to decrease by \$10,922,720, and the school board appropriation will decrease by \$501,500. Increases in projected utility fund revenues allowed for the projected increase in

transfers from utility enterprise funds to the general fund in the amount of \$144,285. These differences in expense types explain the \$86,185 decrease in the FY14 budget over the FY13 budget.

FY12 BUDGET EXPENSE COMPARISON
(Table c)

I. FY14 BUDGET – STAFFING & SALARY ADJUSTMENT

Personnel costs and employee benefits represent 16.6% of the city's FY 2014 budget. The FY 2014 budget includes no salary adjustments. No new staff positions were added to the FY14 budget, while two positions were deleted. The anticipated cost of our employee health care plan and dental care plan are expected to increase. In order to defray some of the cost of the increases to the city, the city elected to increase the employee cost of these insurance plans. Also to help defray the rising cost of employee benefits, the pension plan contributions made by the city on the employee's behalf will decrease to 14.0%. The net result of the changes mentioned above resulted in an increase in overall salary and benefit cost of \$362,555 from last year's budget.

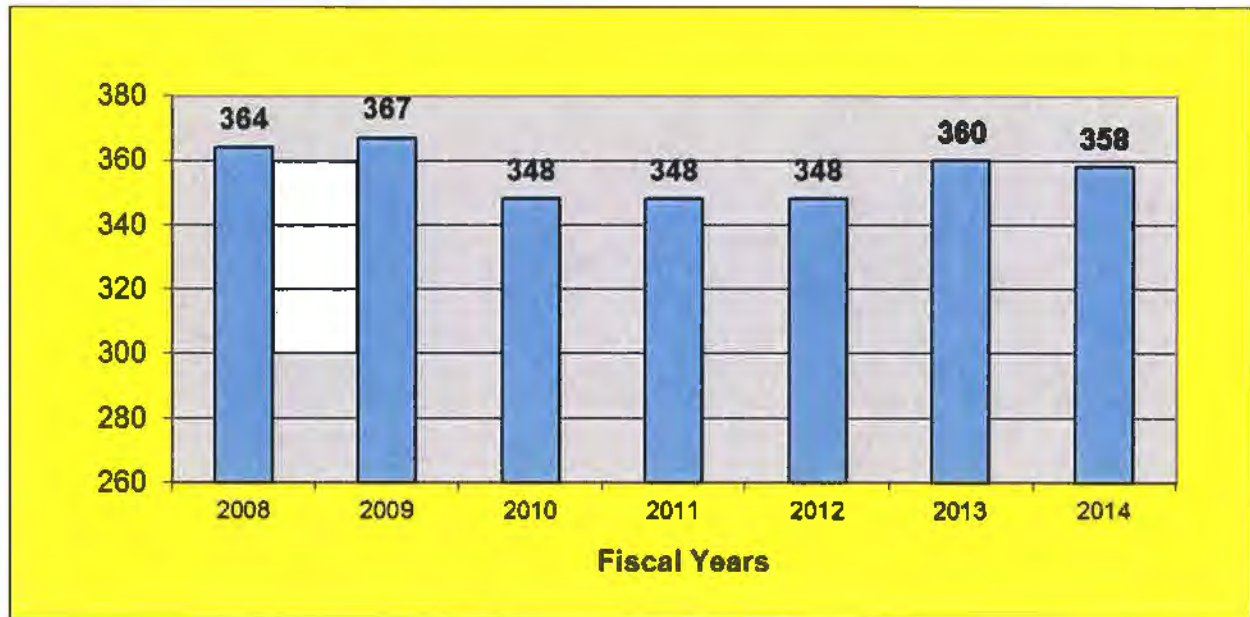

TOTAL COST OF SALARY & BENEFIT ADJUSTMENTS - - FY14
(Table d)

FY 14 Total Budgeted Salaries & Benefits	\$24,096,095
FY 13 Total Budgeted Salaries & Benefits	<u>\$23,733,540</u>
FY 14 Increase in Salaries & Benefits	\$ 362,555

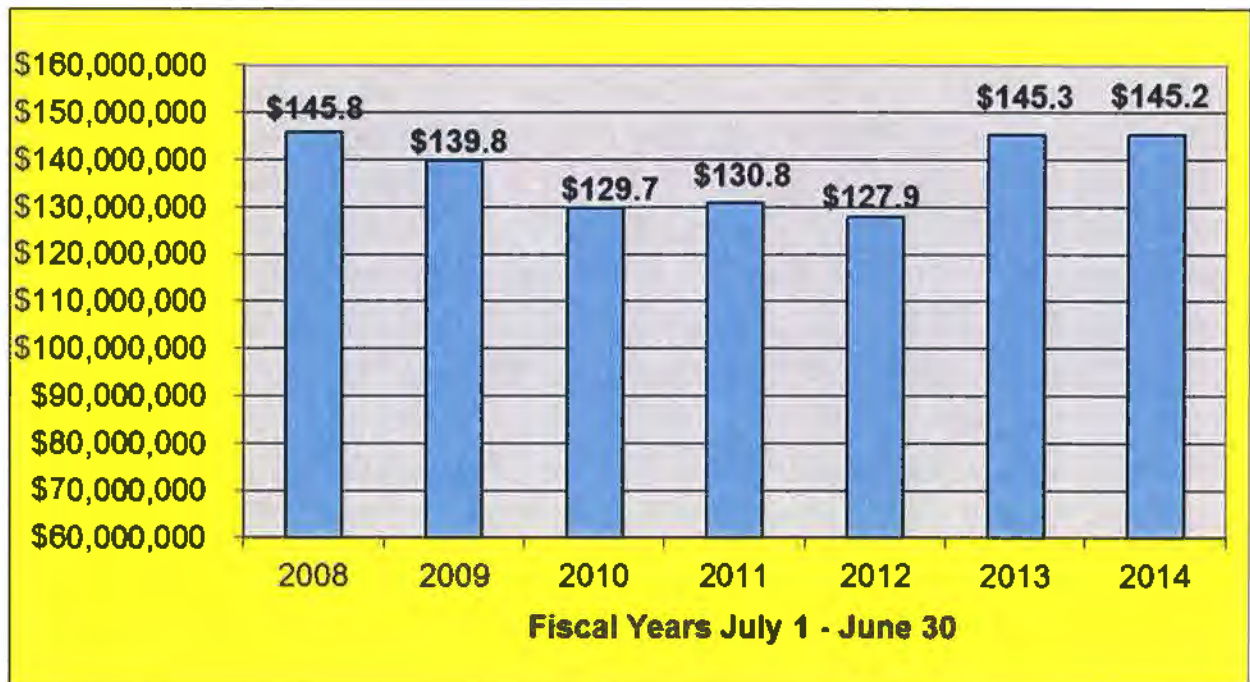

As stated above, the FY 2014 budget includes no additional staff, and a decrease of two staff positions. This will bring the total budgeted positions for FY 2014 to three-hundred fifty-eight (358) full-time permanent positions.

In FY 2009, the city's level of employment peaked at 367 full time positions. At the end of FY 2009, the employment level decreased by 19, accomplished by attrition and retirements. As a result, the employment level for FY 2010 decreased to 348 full time positions and remained at the same level through FY 2012. In FY 2013, the level of employment increased to 360 with the hiring of twelve firefighters. With the deletion of the two positions, the FY 2014 employment level will decrease to a level of 358 full time positions.

II. FY14 BUDGET – SPLOST & CAPITAL PROJECTS

FY 2014 SPLOST Projects

The SPLOST (Special Purpose Local Option Sales Tax) 2003 projects will be funded within the FY 2014 budget through interest earnings and a \$790,000 carry-over of SPLOST funds from previous years' collection of the SPLOST 2003 funds. The SPLOST 2007 projects will be funded in the FY 2014 budget with the one-cent (SPLOST) collections and interest earnings.

SPLOST - 2003		SPLOST - 2007	
Main St to Center Rd-16" Water Main Connector	\$540,000	Debt Service Expense (TANs)	\$4,341,330
Douthitt Multi-Lane	250,000		
Total Expenses	\$790,000	Total Expenses	\$4,341,330

Other non-SPLOST capital expenses include the replacement of equipment and rolling stock for some departments, and the extension of infrastructure for the various city utilities.

III. FY14 BUDGET – COMMUNITY AGENCY FUNDING

As in years past, the budget includes funding for a number of community agencies. The agencies provide the city with services annually under contracts approved by the City Council. The table below outlines the funding history and the amount included in the FY 2014 budget for each agency.

Total City Contributions	\$699,200	\$784,200	\$784,200	\$790,200	\$790,200

As shown above, the overall city contributions to the Community Agency Funding for FY 2014 totals \$699,200. In addition to the above, the Cartersville – Bartow County Tourism Council is funded at \$228,145 through Hotel/Motel tax collections. In FY 2014, the Cartersville Building Authority will be funded \$176,555 for debt service payments on the industrial park. Beginning in FY 2014, the anticipated amount required from the General Fund for the debt of the industrial park will be reduced to zero because of a SPLOST referendum voted in by the citizens of Cartersville.

IV. FY14 BUDGET – FEE & RATE INCREASES

There is no property tax increases included in the FY2013-14 budget. However, the Water and Sewer Fund revenue projections include three user increases. They are: a 5.0% increase in residential customer rates; a 15% increase in the residential base rate; and a 50% increase in the fire service fee rates for in-city and out-of-city commercial customers. While the water and sewer department strives to avoid yearly rate increases, growing operation and maintenance expenses necessitate the collection of additional revenue. Even with the rate increase, the city water and sewer rate will remain one of the lowest residential rates in the surrounding counties. Several years ago, capacity fees decreased to one half of the rate. With the approval of the FY

2014 budget, the capacity fees will revert back to 100% beginning January 1, 2014. Capacity fees are used strictly to fund expansion of infrastructure associated with growth, while the approved water and sewer rate increase will be used solely to fund the operation and maintenance costs of the existing infrastructure. Aside from the water and sewer rate increase, there are no additional rate or fee increases included in the FY2013-14 budget.

V. FY 14 BUDGET - SUMMARY

The budget for FY 2014 of \$145.2 million for the City of Cartersville shows a decrease of \$86,185 or 0.06% less than the previous fiscal year budget. The decrease in the budget is driven by a decrease in capital expenses and Cartersville School system tax appropriations. Along with these decreases, personnel expenses, operating expenses, purchase of commodities expenses, debt service expenses, and transfers to the General Fund all increased. The following table shows the difference between FY14 and FY13 for each fund. The decrease in the General Fund is due to a decrease in revenues, and is offset by decreases in school board tax appropriations and capital expenses, while personnel expenses and operating expenses increased. The Electric Fund increase is due to a projected increase in overall revenues offset mainly by increases in personnel expenses, operating expenses, and the purchase of commodities. The Gas Fund increase is mainly due to an increase in projected natural gas costs over the prior fiscal year. Solid Waste Fund's personnel expenses have increased while the operating expenses and capital expenses decreased from the prior year. FY 2014 will see the recycling program continue and will eventually see a decrease in the solid waste being buried at the landfill. From an environmental standpoint, this is the right action for solid waste and should, in time, as the program continues to grow, also substantially decrease the city's landfill costs. The Stormwater Fund changes are related to increases in personnel expenses and capital project expenses. The decrease in the Water & Sewer Fund is due to decreases in debt service expenses and capital expenses, while personnel expenses and operating expenses both increased. SPLOST capital projects are approved by voters and budgeted as funding is available. Several 2003 capital projects have been completed in prior years and current year expense projections are less than FY 2013, while 2007 capital projects are funded with their sixth year of SPLOST collections, and expense projections have decreased over the prior fiscal year due to the completion of several large projects in FY 2013.

TOTAL	\$145,243,235	\$145,329,420	(\$86,185)	-0.06%

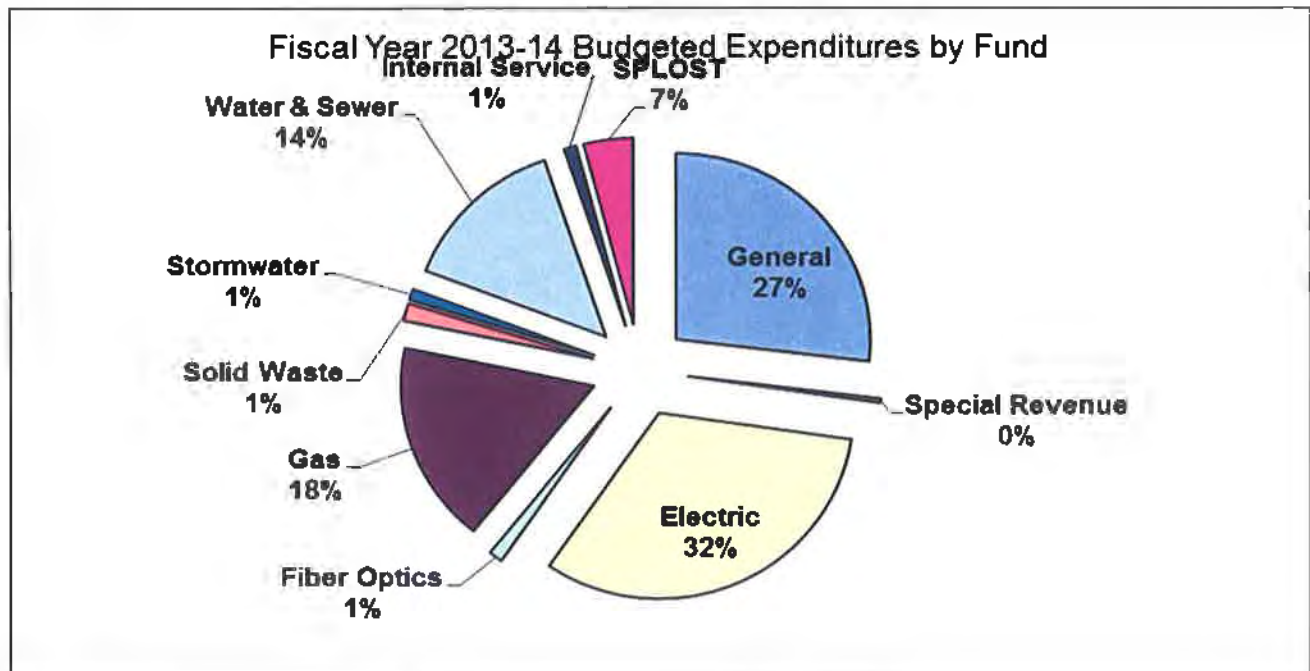

The FY 2014 budget features use of General Fund reserves in the amount of \$319,180 and no salary increases across all funds. The FY 2014 budget contains a decrease in overall employment positions ending with a total position count of three hundred and fifty-eight (358) full time positions.

The budget includes continued funding for service contracts between the city and various community agencies that supply services to the community. These include funding of the Cartersville-Bartow County Library, the Cartersville – Bartow Convention and Visitors Bureau, and the Chamber of Commerce. In addition, continued funding of the Bartow-Cartersville Joint Development Authority in the amount of \$155,500 is also included.

The FY 2014 budget includes several rate increases for water and sewer customers, but no increase in the city property tax millage rate. Although there is a small increase in the water and sewer rates for residential customers, it, along with the cities other utility rates, will remain at or below any of the surrounding counties or private utility service providers.

BUDGET BY FUND FOR FY 2014

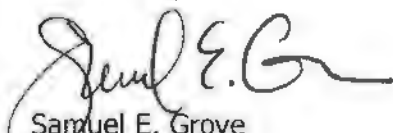

(Table i)

In summary, this budget is a conservative financial plan, which includes funds to maintain and operate the city so that we can continue to provide citizens with police and fire protection, culture and recreation, and other general government services. It is a plan and tool, which provides guidance and gives us the ability to meet our goal of "providing dependable service while preserving an exceptional quality of life." As in past years, the FY 2014 budget has incorporated low cost, dependable utility services for the citizens of the City of Cartersville.

The budget's production and the operation of the city would not be possible without the effort and diligence of the city's various departments and those competent and capable employees who staff them.

Respectfully submitted,

Samuel E. Grove

City of Cartersville

July 1, 2009

Honorable Mayor and City Council:

A balanced budget for the City of Cartersville for the 2009-2010 fiscal year is submitted as required by the Cartersville Municipal Code. This budget focuses on controlling expenditures as we deal with the continued downturn in the economy, without reducing services to our citizens. The budget features no salary adjustments for any permanent full-time employees, a large reduction in the cost of commodities, limited replacement of rolling stock and other equipment, and funding for renewal and extensions of the city's utility infrastructure.

Department heads are to be commended for their hard work in helping to balance the budget and their staff's commitment to continue providing dependable service while preserving an exceptional quality of life to meet the needs of the citizens of Cartersville.

The city's total budget for 2010 is \$142,266,325, a decrease of 16.06% over last year's budget. Typically, a budget increases from year to year. However, for the first time in many years, the city's FY 2010 budget has decreased due to reductions in the revenue projections caused by the continued economic slowdown. The reductions in revenue projections were offset by decreases in personnel expenses, operating costs, commodities and Cartersville School System property tax appropriation. The largest of these decreases is in natural gas commodities at \$22.6 million over the prior year, which is offset slightly by a projected increase in electricity commodity expense of \$3.1 million, leaving a net commodities expense decrease of \$19.5 million. The FY10 budget will decrease by a total of \$27,222,795 from the prior year to \$142.3 million.

TOTAL BUDGET DECREASE - - FY10

FY 10 Budget Total	\$142,266,325
FY 09 Budget Total	\$169,489,120
FY 10 Total Budget Decrease	\$ 27,222,795 -16.06%

The following table compares the FY10 budget to the FY09 budget by expense type. Personnel expenditures are projected to be \$561,855 less in FY10 due to several vacant positions not being filled and several employee retirements. Operating expenditures are projected to be \$1,460,235 less in FY10 due to decreased gasoline and diesel fuel expenses, and decreased utility and facility maintenance costs throughout city departments. Projected commodity expenses as detailed above are estimated to decrease by \$19,553,475 from FY09. Debt service expenses, primarily attributable to water and sewer bonds, are projected to decrease by \$1,015. Capital projects expenses are projected to decrease by \$4,280,390 and the school board appropriation will decrease by \$1,223,010. A projected decrease in transfers from utility

enterprise funds to the general fund in the amount of \$142,815 was necessary to balance these funds after all other expenses were cut to the bare minimum in these funds. These differences in expense types explain the \$27,222,795 decrease in the FY10 budget over the FY09 budget.

FY10 BUDGET EXPENSE COMPARISON

I. FY10 BUDGET – STAFFING & SALARY ADJUSTMENT

Personnel costs and employee benefits represent 15.3% of the city's FY10 budget. The FY10 budget includes no salary adjustments for any permanent full-time employees. Instead, several vacant positions were not filled and 15 employees took early retirement options in the FY 2010 budget. On advice from our actuary in an attempt to fully fund the pension plan, there is an increase in the pension plan contributions made by the city on the employee's behalf of 1.15% from 10.35% to 11.5%. The net result of the changes mentioned above resulted in a decrease in overall salary and benefit cost of \$561,855 from last year's budget.

TOTAL COST OF SALARY ADJUSTMENT - - FY10
(Table d)

Cost of Salary Decreases	(\$561,855)
---------------------------------	--------------------

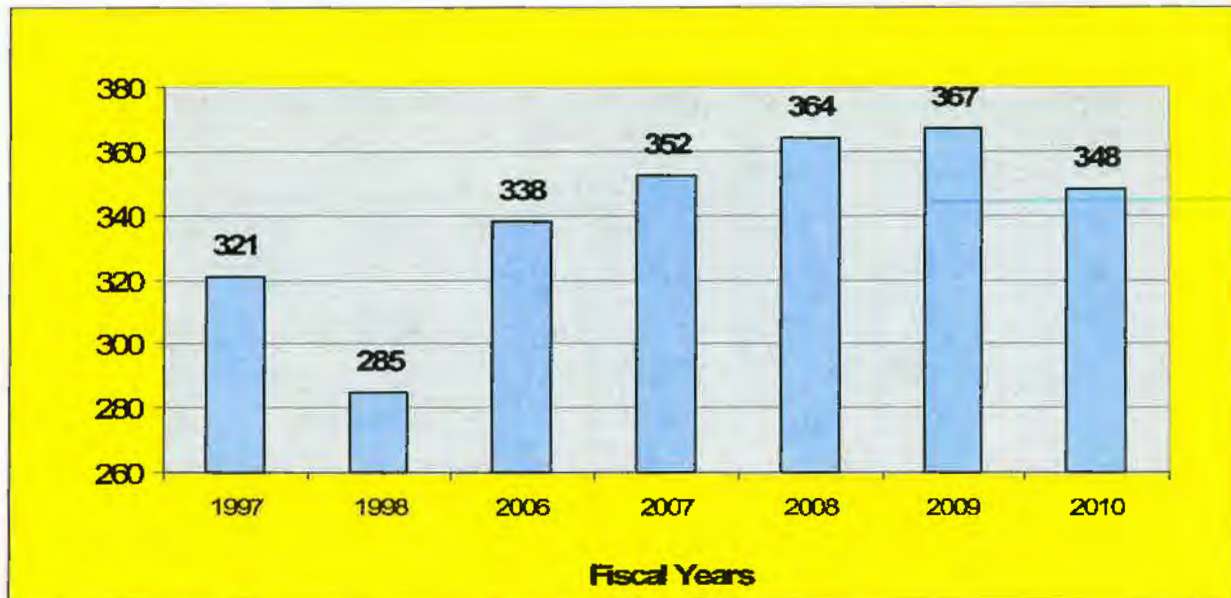

As stated above, the FY10 budget includes a reduction in the number of positions. The positions involved are vacant positions (4) along with fifteen (15) employees that have chosen to retire early. These positions will be looked at to decide if they need to be filled, and, if they are deemed to be a necessary position, the necessary adjustments will be made. This will bring the total budgeted positions for FY10 to three-hundred forty-eight (348) full-time permanent positions.

Over the last thirteen years, the city has experienced a significant growth in the budget of 79% or \$62.8 million due to increased operational expenses, citywide population growth and increased service area of our utilities. This has pushed our employee staffing level over the three-hundred and twenty-one (321) positions that were funded in the FY97 budget before the cutbacks of 1997. Since FY97 the city has been operating in an efficient manner financially, but due to the increased demands on city services, staffing levels have had to increase to meet these needs.

II. FY10 BUDGET – SPLOST & CAPITAL PROJECTS

FY 2010 SPLOST Projects

The SPLOST 2003 projects will be funded within the FY10 budget through interest earnings and a \$3,630,000 carry over of SPLOST funds from previous years' collection of the SPLOST – 2003 funds. The SPLOST 2007 projects will be funded in the FY10 budget with the one-cent Special Purpose Local Option Sales Tax (SPLOST) collections, interest earnings, and \$2,150,000 issue of debt for the construction of the joint police/fire facility.

SPLOST - 2003		SPLOST - 2007	
Main Street Gateway	1,000,000	Misc Intersection/Safety Imp	50,000
Truck Route	30,000	New Bridge - Nancy Creek	500,000
Storm Water	250,000	Sugar Valley Road	500,000

Misc Intersections	150,000		
Mission Road Curve	300,000		
Total Expenses	\$3,630,000	Total Expenses	\$5,050,000

Non-SPLOST funded capital improvements include the last payment on Dr. Lowry's old office building, the Leake Mound Trail design and construction, the replacement of equipment and rolling stock for some departments, and the extension of maintenance lines for the various city utilities.

III. FY10 BUDGET – COMMUNITY AGENCY FUNDING

As in years past, the budget includes funding for a number of community agencies. The agencies provide the city with services annually under contracts approved by the City Council. The table below outlines the funding history and the amount included in the FY10 budget for each agency.

COMMUNITY AGENCY FUNDING
(Table h)

	FY10	FY09	FY08	FY07	FY06

Total City Contributions	\$790,200	\$873,200	\$873,200	\$787,200	\$758,910

As shown above, the overall city contributions to the Community Agency Funding for FY10 decreased by \$83,000 to \$790,200 due to the Indian Festival not being held in FY 2010 and a reduction in funding for the Library, the Joint Development Authority, the Wilkins Youth Association, the Gatekey Scholarship Program, and the Bartow Health Access. In addition to the above, the Cartersville – Bartow County Tourism Council is funded at \$81,200 through Hotel/Motel tax collections.

IV. FY10 BUDGET – FEE & RATE INCREASES

The Water and Sewer Fund revenue projections include an increase of 5.3% in customer rates. In addition, the Gas Fund revenue projections also include an increase of 5.0% or less for its customers. There are no other additional fee increases or property tax increases for city purposes included in this budget.

V. FY 10 BUDGET - SUMMARY

The budget for FY10 of \$142.3 million for the City of Cartersville shows a decrease of \$27,222,795 or 16.06% less than the previous budget. The decrease in the budget is driven by a decrease in natural gas commodities, operating expenses, capital expenses, and Cartersville School System property tax appropriation. The following table shows the difference between FY10 and FY09 for each fund. The major difference in the general fund is a reduction in revenues, a reduction in personnel expenses and operating expenses, and a decrease in school system property tax appropriation. The Electric Fund increase is due to a projected increase in the large and extra large power industrial customers continued electric consumption over the prior year. The Gas Fund difference is due to a decrease in projected natural gas costs over the prior fiscal year. Solid Waste Fund capital expenses have increased from the prior year and Stormwater Fund changes are related to a decrease in capital project expenses. The decrease in Water & Sewer Fund is due to a reduction in debt service costs and capital projects. SPLOST capital projects are approved by voters and budgeted as funding is available. Several 2003 capital projects have been completed in prior years and current year expense projections are less than FY09, while 2007 capital projects are in their second year of funding, and, therefore expense projections have increased over the prior fiscal year.

The FY10 budget features no salary increase for any permanent full-time employees. However, it does include a 1.15% increase in funding for the pension plan. The FY10 budget features a reduction of four (4) vacant positions and fifteen (15) employee retirements bringing the total positions to three hundred and forty-eight (348).

The budget includes continued funding for service contracts between the city and various community agencies that supply services to the community. These include funding of the

Cartersville-Bartow County Library, Downtown Development Authority, the Cartersville – Bartow Convention and Visitors Bureau, and the Chamber of Commerce. In addition, continued funding of the Bartow-Cartersville Joint Development Authority in the amount of \$157,500 is also included.

The FY10 budget includes a rate increase for water and sewer customers as well as a rate increase for gas customers, but no increase in the city property tax millage rate.

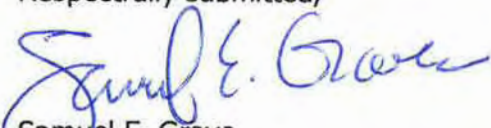

BUDGET BY FUND FOR FY 2010
(Table j)

Again, in summary, this budget is a fiscally conservative financial plan, which includes funds to maintain and operate the city so that we can continue to provide citizens with police and fire protection, culture and recreation, and other general government services. It is a plan and tool, which provides guidance and gives us the ability to meet our goal of "providing dependable service while preserving an exceptional quality of life."

The budget's production and the operation of the city would not be possible without the effort and diligence of the city's various departments and those competent and capable employees who staff them.

Respectfully submitted,

Samuel E. Grove
City Manager
