Sales Tax is collected by the State Comptroller and remitted to the City by wire transfer. Prior sales tax collections and City population are analyzed to determine the budget amount. A significant downturn in the economy resulted in lower sales tax beginning in 2008. A slow recovery began in 2011, peaking in 2014, at which time the economy began another downturn which has continued.

SANITATION CHARGES

Sanitation charges are billed to all customers who receive service for refuse collection. The amount budgeted is based on the present number of customers. Over the past 5 years customer count has remained relatively constant. Due to increased costs of the City landfill, the City has increased the rates for refuse collection slightly for the past several years. The increase in projected revenue for the current budget is due to funding the Community Pride project that was started in 2015.

HOTEL OCCUPANCY TAX

The City of Pampa receives a hotel occupancy tax based on quarterly occupancies of the hotels and motels within the city limits. Revenues began increasing due to the building of several new hotels within the City, peaking in 2014, when the economy began another downturn. With the downturn in the oil industry the hotels have experienced a large decrease in occupancy therefore reducing the tax collected.

LANDFILL OPERATOR FEES

Landfill fees are charged to the City of Pampa and surrounding cities that utilize the landfill. Commercial customers such as roofing contractors and private refuse haulers also use our landfill. The escalation in revenue is due to periodic increases made necessary by the costs of opening and closing cells in the subtitle D landfill. Each cell lasts approximately five to seven years. A new cell was opened in 2008-09 and another new cell construction is included in this budget. The rate of \$40.50 per ton is included in the 2017-18 budget.

WATER SALES

The City of Pampa sells water to residential and commercial customers inside and outside the City limits. Water sales are dependent upon the amount of rainfall received during the spring and summer months. In 2014-15 the City replaced most residential meters with new, more efficient meters which is reflected in the stable water sales revenue over the past few years. This budget includes funds for water line replacement.

WASTEWATER CHARGES

There is a direct correlation between water sales and wastewater charges. Residential customers are charged up to a maximum of eight thousand gallons of water consumption for wastewater charges. There is no cap on commercial customers. The assumptions for water sales are used for wastewater charges. Sewer rates have increased in direct correlation with the increase in water rates. Sewer rates were increased for 2014-15 to include a surcharge to generate funding for necessary improvements to the wastewater treatment plant. Wastewater treatment plant improvements are contained in this budget.

GREEN FEES

At Hidden Hills Municipal Golf Course, daily green fees are charged to users of the golf course who do not have an annual pass. In 2009-10 the economic downturn had a significant impact on the golf course and is reflected in a large decrease in revenues before rising again. Revenues were down in 2015-16 due to another economic downturn that has yet to fully recover.

2. The following programs are presently in place within the City of Pampa, all with the focus of accomplishing the goals set forth above.

Community Involvement/Community Meetings

Citizens are encouraged to act as the "eyes and ears" of the police in their respective neighborhoods in detecting and identifying persons and situations with which the police would, as a matter of duty, be concerned with and a wide range of training programs.

In addition, community meetings are held to augment the citizen involvement and create a flow of information to the police department in terms of program effectiveness, increased program coverage and program improvements based upon actual performance.

SWAT Team

The Pampa PD has teamed with the Gray County Sheriff's Office to form a tactical response unit to better serve the citizens of Pampa and Gray County in any high risk, tactical incident. The team goes through a selection process and is currently training twice a month, every month in areas to include, but not limited to: barricaded subjects, hostage situations, high risk warrant service, manhunts, active shooter, etc.....

Motor Division

The Pampa Police Department initiated the Motor Division to our department last year. These two Officers are selected and sent to an intensive training school. They are primarily traffic Officers. They enforce traffic and also work most, if not all, motor vehicle accidents while on duty. This division has been instrumental in reducing the traffic accidents in our community and making traffic flow safer for all.

Crime Stoppers

Crime Stoppers is a statewide program utilized to obtain information regarding the commission of felony crimes. The Pampa Police Department has teamed up with Roberts County and Wheeler County to form the Top O Texas Crime Stoppers. Information is gathered from citizens who may have witnessed crimes or who possess some relevant information which could lead to the apprehension of the person(s) responsible for the commission of a crime. This information is then provided to the proper law enforcement agency for investigation. The Crime Stoppers program provides cash rewards for persons who provide useful information to law enforcement which results in the apprehension and indictment of criminals.

School Resource Officer

The School Resource Officer Program is a joint venture between the City and School System and funds officers to work at the Schools to provide a safe and secure environment for our children, youth and faculty. These officers are also liaisons for the City and School, providing a great link between these two entities.

PLANNING AND ZONING/PUBLIC WORKS
2017-18 BUDGET
Dept. 11

MISSION STATEMENT

Our mission is to provide efficient, centralized, and cost effective municipal engineering services to the citizens, as well as other Divisions and Departments of the City. We concentrate our efforts on designing/planning, advising, administering, and overseeing all public works improvements and subdivision developments with the aim of protecting the public health, safety, and welfare. Furthermore, we intend to be good stewards of public resources in order to enhance the quality of life in the City of Pampa.

DESCRIPTION

All of the personnel in the Public Works Department are committed to providing quality service to the community. They strive to carry out the responsibilities entrusted to them efficiently and effectively for the citizens of Pampa whom they serve and are ultimately accountable to.

The Public Works Director coordinates the operation of the following departments: Streets (streets, traffic control, and drainage), Water and Wastewater (water distribution, wastewater collection, water production, and wastewater treatment), Sanitation (landfill, collection, recycling, and composting), Code Enforcement and Engineering. The Public Works/Engineering/Planning and Zoning Department is responsible for supplying professional engineering services to all City departments, assisting each department in preparing budget proposals or repair and capital improvement studies in water distribution, wastewater collection, water production, wastewater treatment, sanitation, streets, traffic control, and drainage. The department drafts plans and specifications and administers projects within its capabilities. Projects of a larger nature or those requiring specialized technical knowledge are designed and/or supervised by the Engineering Staff through professional consultants.

The department maintains the City's records of streets, utilities and boundaries in current status. It also assists the public with engineering/feasibility studies, utility companies with service line locations, and provides support for the Planning and Zoning Commission and the Board of Adjustment which is appointed by the City Commission.

The City Engineer and/or Zoning Officer files all plats at the Gray County Clerk's Office and records volume and page numbers in the appropriate records.

Maps and acreage within the city limits are updated regularly, as needed, and State and Federal agencies are informed of annexation. At least one staff member of the department attends the Planning and Zoning and City Commission meetings to follow-up on all zoning, annexation, and platting that have been filed with the zoning officer and answer any questions that might arise.

GOALS AND OBJECTIVES

1. Provide oversight to Planning & Zoning Commission and the Board of Adjustments and Appeals.
2. Provide engineering services for City projects in all departments.
3. Long-range planning for extension of City utilities, streets and other services.
4. Continue computerization of all City records and maps for facilities.
5. Provide citizen assistance in development of properties within the City limits and the extra territorial jurisdiction.

CODE ENFORCEMENT
2017-18 BUDGET
Dept. 18

MISSION STATEMENT

The mission of the code enforcement division is threefold in nature.

1. Work to protect the public's health.
2. Work to improve the quality of life.
3. Work to create a safer community for the people of Pampa.

These goals are achieved through the consistent enforcement of our adopted codes to increase public safety and awareness, by adjusting to the needs of our community, by staying abreast of the latest information, through continuing education, and through providing the best possible customer service.

DESCRIPTION

The Code Enforcement Department is composed of Permitting and Code Enforcement.

The Building Official must review each of the following as it is updated by the major codes: Building, Electrical, Plumbing, Mechanical, Gas, Energy, and Zoning. The Building Official reviews these codes with the Construction Board of Appeals. After proper review, recommendations concerning adoption of revised codes are made to the City Commission. Under provisions of the codes, boards are appointed to work with the inspector. These boards are The Board of Adjustments, the Zoning Board and the Construction Board of Appeals. Appeals regarding decisions from the Building Official may be heard by the appropriate board. Once updated, codes are adopted as ordinances; the Building Official enforces said ordinances, and defends them before the City Commission, the public and in court when necessary. The Building Official accepts applications for permits and reviews plans that are submitted. When the Inspector finds that plans comply with the codes, a permit is issued. Inspections are made to see that construction is performed in accordance with the codes and approved plans. The Inspector investigates all allegations of non-compliance, and takes any necessary actions(s) to bring about compliance. The investigation may range from someone working as a plumber who does not have a license, or it could be to resolve a complaint about dilapidated buildings.

Sections 14-21 through 14-25 of the City Code address the growth of uncultivated weeds. The Code makes it unlawful for a person to allow weeds to grow higher than 12 inches on property under someone's control, or on the right of way adjacent to said property. Sections 17-66 through 17-83 address litter, unsanitary conditions, and objectionable accumulations on private property. Sections 12-261 through 12-268 make it unlawful to keep junked vehicles. Sections 6-81 through 6-82 address dilapidated buildings, stating that dilapidated buildings must be repaired or demolished.

Procedures for compliance include informing, in writing, anyone violating the City Code and providing them a reasonable time to correct any violation prior to instituting court action. Code enforcement employs two full time clerks to issue permits and answer the Action Center telephone lines.

GOALS AND OBJECTIVES

1. Protect the public's health and welfare through the enforcement of adopted codes and ordinances.
2. Seek compliance with all adopted codes and ordinances through:
 - a. Inspections of complaints
 - b. Inspections of permitted jobs
 - c. Re-inspections of violations
 - d. And legal action where necessary
3. Provide the citizens of Pampa with explanations of codes and the necessity of complying with the regulations.
4. Seek increased compliance for dilapidated structures through rehabilitation or demolition.
5. Organize and maintain regular meetings for the Construction Board of Appeals.
6. Update computer equipment and software as needed.

MISSION STATEMENT

Dispatching Services is committed to providing fast and accurate support to fire, police and ambulance personnel as they serve the emergency needs of the citizens of Pampa and our surrounding service area.

DESCRIPTION

Dispatching Services Department is part of the total emergency services team, supplying vital support functions in providing efficient, cost-effective emergency response to the citizens of Pampa and Gray County. To ensure success, there must be a total effort to guarantee that four major components of emergency communication are constantly present:

1. Dependability – dependability of our communications system provides that the system will be available and in good operating condition at all times.
2. Accuracy – police officer, fire fighter, ambulance personnel and citizen safety is dependent on a high degree of accuracy in the emergency transmission. It is vital that proper, complete and correct information be communicated to the emergency responder.
3. Speed – the immediate arrival of an emergency responder at the scene of an incident is imperative in the protection of life and property or the apprehension of criminals.
4. Security – the need to limit tactical information to emergency response personnel only.

In addition to emergency response, Dispatching Services provides the communication link between citizens in need of service and various City departments that provide the service. To meet these objectives Dispatching Services Department is staffed seven days a week, twenty-four hours per day. Dispatching Services is under the direct supervision of the Police Department's Assistant Chief of Police.

FUNDING

The program is funded through the General Fund.

GOALS AND OBJECTIVES

1. To provide fast, accurate and courteous service to the citizens in time of police, fire and/or medical emergency.
2. To provide police, fire and ambulance personnel with necessary information and support as they deliver emergency service.
3. To provide a professional communications system through continuing in-house and off site training of operators.
4. To provide a dependable communications system through upgrading and maintenance of equipment.

PAMPA EMERGENCY MANAGEMENT
2017-18 BUDGET
Dept. 26

MISSION STATEMENT

The mission of Pampa Office of Emergency Management (Pampa OEM) is to maintain an on-going Emergency Management program that will provide citizens, local business, and industry in Pampa with a resource to turn to in time of an emergency. Pampa OEM also maintains a written Emergency Plan that meets State and Federal standards for emergency preparedness. The purpose of which is to facilitate hazard planning, prevention, response and recovery activities to best serve the public need. Pampa OEM works closely with the other jurisdictions and organizations in Gray County and the Panhandle to maintain a high level of emergency preparedness.

DESCRIPTION

The Mayor, being the Chief Elected Official of the City, is the Emergency Management Director, as defined by the Texas Disaster Act. The Emergency Management Director has appointed an Emergency Management Coordinator to serve as his representative in matters pertaining to Emergency Preparedness.

Pampa Office of Emergency Management works very closely with area emergency responders and city staff to train personnel. The goal of this training is to mitigate disaster planning and therefore minimize the loss of life and property. Local hazards have been identified, including: tornadoes, winter storms, hazardous materials spills, and transportation and industrial accidents, among others.

Pampa Office of Emergency Management also works with professional and volunteer agencies by facilitating planning and training to meet the needs of our communities. Pampa OEM works with local churches and other VOADs (Voluntary Organizations Active in Disaster) to support mass care and sheltering requirements that may result from citizens displaced from their homes after a disaster.

The Coordinator develops and maintains emergency plans and makes recommendations to the Mayor, City Manager, and City Commission on issues pertaining to prevention/protection, planning, response, and recovery. The Basic Plan of the Pampa Emergency Operations Plan (EOP) establishes legal authority of local government to operate during times of an emergency. The Plan also has annexes, which support the Basic Plan and are operational procedures, which are generic in nature and are used to give guidance to those providing support services to the Plan. The Emergency Plan is tested annually and updated when required.

Task specific training to maintain a program of emergency preparedness is provided by the State and Federal Governments to the Coordinator and other emergency management staff and responders. This year, we have been instrumental in broadening that training impact.

FUNDING

Emergency Management is accounted for through the General Fund.

The Department of Homeland Security provides partial funding. This funding permits reimbursement for expenses relating to the administration of the local program for such things as telephone service, office materials, personnel staffing, and other specific expenses. Additional funding comes from periodic and limited grants from other public and private sector organizations.

GOALS AND OBJECTIVES

1. Maintain an on-going program of emergency preparedness that will provide local government, citizens, business, and industry in Pampa with a resource in time of disaster.
 - a. Rebuild the capabilities of and competencies within the Emergency Operations Center (EOC) by training staff and ensuring a high level of emergency readiness.
 - b. Coordinate and provide support to the first responders to effectively and efficiently help support their emergency resource, personnel, and coordination needs.
2. Help to maintain a communication network.
3. Revise our Basic Plan and annexes for the Pampa Emergency Operations Plan as needed.
4. Test the Pampa Emergency Plan by conducting not less than three fiscal year training exercises.
5. Support rebuilding the viability of the Local Emergency Planning Committee (LEPC) to serve the citizens of Pampa and Gray County in relation to hazardous materials.
6. Test warning systems and implement the capabilities of our other systems to keep citizens informed of impending hazards.
7. Encourage voluntary participation in the Pampa's Mass Notification System.
8. Continue to build, develop, and support citizen volunteer programs such as CERT (Community Emergency Response Team), Storm Spotters, and ECU.
9. Work closely with schools and medical facilities to support overall community preparedness.
10. Establish subject matter support for several of the Emergency Plan Annexes.
11. Continue with NIMS training program for all city responders and those managing and supporting personnel.
12. Continue to build and facilitate collaboration with local and regional public organizations to boost our overall preparedness.

BUDGET HIGHLIGHTS

- Travel expenses have been allotted to train staff and elected officials in matters relating to emergency preparedness that will help increase staff understanding of their role in time of disaster and for the recovery processes.
- Budget amounts for training of new staff are remaining stable due number of mandated training classes required by FEMA/DHS/TDEM.

Dept. 21

MISSION STATEMENT

The mission of M.K. Brown Memorial Auditorium and Civic Center is to play a vital role in the arts and entertainment for Pampa and surrounding areas, and to maintain an inviting gathering place for citizens to celebrate and share human and cultural experiences.

DESCRIPTION

The Civic Center has more than 35,000 square feet available for use. The auditorium itself has permanent continental-style seating for 1,500 people. The stage area consists of more than 2,200 square feet with two dressing rooms flanking each side of the stage.

The Civic Center staff consists of on part-time manager and several part-time event workers, custodians, light and sound techs, etc.

Three entrances, one on the south side and the other on the northeast, open into a main lobby containing approximately 2,800 square feet. This area is also used for exhibits, for craft shows, and hospitality hours. Connected to the lobby is the Civic Center Heritage Room, which contains some 6,500 square feet of open space. The room will accommodate 500 for banquets, 350 for dances, etc. or 500 in theater style for plays and meetings. The third entrance, located just northwest of the northeast entrance, gives access to the business office.

Sufficient paved and lighted parking areas are provided for the convenience of those who use the facility. Loading docks are provided for the Heritage Room, kitchen area and auditorium stage.

FUNDING

The Civic Center is accounted for through a Special Revenue Fund. Revenues are derived from the Hotel/Motel Occupancy Tax, auditorium rentals or charges, transfers from the M.K. Brown Trust Fund and transfers from the General Fund.

GOALS AND OBJECTIVES

1. Maintain an adequate, well-trained staff to provide traditional services for conventions, meetings and banquets.
2. Provide good housekeeping standards and keep maintenance of the facility up to standards.
3. Work with the Parks, Recreation and Auditorium Advisory Board to obtain recommendations for changes as needed to meet the diverse needs of the community.
4. Work with the Chamber of Commerce, Retail Trade Organizations and Panhandle Tourism Marketing Council to increase tourism and conventions locally and throughout our region.
5. Apply for grants in hopes of obtaining funding to improve the quality of our facility by adding state-of-the-art equipment.
6. Continue to maintain the integrity of the Civic Center and provide professional services to our guests.

LOVETT MEMORIAL LIBRARY

2017-18 BUDGET

Dept. 25

MISSION STATEMENT

The Lovett Memorial Library will offer a broadly defined program of information, education, recreation, and cultural enrichment opportunities for people of all ages and educational, cultural, and economic backgrounds.

DESCRIPTION

The Lovett Memorial Library serves the community of Pampa and Gray County as a cultural, informational, and educational center by providing current books, magazines, newspapers, videos, books on tape, and E-books with regard to the needs of the community. The library has 12 computers available to the public with Internet access and productivity software along with a secured wireless access that requires getting a user ID and Password to connect. There was a total of 11,217 sessions or uses of the library's internet computers along with 1,024 vouchers issued for the Wi-Fi sessions. Library cards must be in good standing to have access to computers. People from out of town who do not belong to an HLC library will receive a guest pass (\$1.00) to access the computers. Request for information may be made in person, phone, or e-mail. The library had 39,769 people visit the library during this year. The library, located at the corner of Houston and Foster streets, houses over 51,528 items. The library circulated 55,405 items. Patrons have access to over 4,674 E-books and 67 databases. There are 3,537 registered users with library cards.

The present building was constructed in 1954 with a bequest from Henry and Fannie Lovett. Major interior modifications to the library were completed in 1999 through a grant from the Pampa Lovett Library Foundation, including the installation of an elevator, a second-story bridge and numerous other Texas Fire Code and ADA-mandated structural modifications.

A 5 member Library Board serves in an advisory role on overall policy and provides promotional efforts on behalf of the library. Other library support groups include the Friends of the Library and the Gray Pampa Foundation.

The hours of operation are: Monday-Friday – 8am-7pm and Saturday-Sunday – 1pm-5pm

FUNDING

The City of Pampa provides the majority of the funds necessary for staff, maintenance, and books. Three cents of the tax rate is set aside by ordinance for operation of the Library. The City transfers an additional amount into the Library Fund. The Library Advisory Board seeks other funding for special projects. Other funding sources include: Gray County, the Lovett Library Foundation, Gray-Pampa Foundation, and the Pampa Friends of the Library.

GOALS AND OBJECTIVES

1. The Library will provide the citizens of Pampa and Gray County with the most up-to-date informational, educational, and recreational materials.
2. The Library will encourage children to become responsible life-long patrons of the library.
3. The Library will introduce the citizens of Pampa and Gray County to the informational and educational benefits of technology.
4. The Library will serve a culturally and racially diverse population.
5. The Library will encourage public support and use of the library.

WATER PRODUCTION AND TREATMENT
2017-18 BUDGET
Dept. 33

MISSION STATEMENT

The Water Production Department's mission is to provide potable water of a quality which meets State and Federal drinking water standards in sufficient quantity to meet the City's daily and seasonal peak demand and storage requirements.

DESCRIPTION

The Production and Treatment Department is responsible for the maintenance and operation of the Water Filtration Plant, two Booster Stations, three Elevated Storage Tanks, five Ground Storage Tanks and twelve Water Wells, also Prison Pump Station, one Elevated Storage, one Ground Storage and four Wells.

The City of Pampa has completed the drilling of four new water wells.

The Department is operated by Operations Management International, Inc. (OMI), Englewood, Colorado and operates under permit by the Texas Commission on Environmental Quality – Water Supply #0900003.

The City of Pampa is one of eleven cities comprising the Canadian River Municipal Water Authority (owners of Lake Meredith) with an allocation of 7.163%.

The Water Treatment process for RAW water obtained from the CRMWA includes coagulation-flocculation, sedimentation, filtration and disinfection. The treatment process for city owned ground water is disinfection only.

Operators are responsible for bacteriological sampling of all water in the system. Other tests include turbidity, total chlorine residual, free chlorine residual and pH.

The Water Treatment Plant and Water Supply System are inspected every year or annually by the Texas Commission on Environmental Quality.

The Department is staffed with one Project Manager, one Lead Operator, one Maintenance person and one Operator. Departmental personnel are required to be certified by TCEQ. The staff includes one "A" Certified Water Operator, one "C" Certified Surface Water Operators, one "C" Certified Groundwater Operator and one "D" Certified Water Operator.

The employees of the Water Treatment Plant have a great sense of pride in their work. This is evident in the way the facility has improved over the last year. The City should be proud to have local operators who are among the best in the area treating water with state of the art technology. This wouldn't have been possible without the support of City Hall, the City Commissioners, and their continuous efforts to assure the newest technology is identified, explores, and implemented when feasible.

FUNDING

Water Production and Treatment is funded through the sale of water and is accounted for in the Enterprise Fund/Water and Wastewater.

GOALS AND OBJECTIVES

1. Meet all federal and state water quality standards.
2. Have two operators upgrade their certifications.
3. We will have 80 hours of training for each operator consisting of technical and safety topics.
4. Continue improving appearance of facilities.
5. Continue to find ways to reduce the cost of chemicals so savings can be passed back to the City.
6. Perform more tours and presentations in our endeavor to further educate the citizens of Pampa.

MISSION STATEMENT

Our mission is to provide the citizens with a sanitary Wastewater (Sewer) Collection System with as few interruptions as possible.

DESCRIPTION

Wastewater Collection is responsible for the maintenance and repair of approximately 115 miles of various sizes of collection mains:

6 "	-	293,701	linear ft.
8 "	-	152,209	linear ft.
10 "	-	54,602	linear ft.
12 "	-	54,202	linear ft.
15 "	-	19,367	linear ft.
18 "	-	34,470	linear ft.
30 "	-	3,339	linear ft.
Total		611,890	linear ft.

This Department also services 1,304 manholes and 353 clean outs and assists other Departments by cleaning Storm Sewers, Clarifiers, Water Valves, Mud Pits and Drainage and spill problems.

The Texas Commission on Environmental Quality regulates the operation of Wastewater Collection Systems.

GOALS AND OBJECTIVES

1. Provide a safe and efficient collection of wastewater (sewer).
2. Reduce wastewater stoppages (sewer chokes) through a scheduled main line cleaning program and continue to improve response time on emergency stoppages.
3. Reduce wastewater stoppages (sewer chokes) caused by grease buildup through a grease trap inspection and B.E.F. (Bacteria, Enzymes, Fungi) program.
4. Improve street and alleys by adjusting the grade of manhole lids and clean out plugs and keeping them properly marked.
5. Video inspect mains and laterals to help find infiltration/inflow into the collection system.
6. Repair mains and service connections with new relining equipment to curtail infiltration/inflow into the collection system and to reduce cost of treatment at the Wastewater Treatment Plant.
7. Smoke testing the collection system to curtail infiltration/inflow into the collection system.
8. Repair and/or replace main sewer lines as needed to keep the collection system working properly.
9. Update the collection system grid map and input information into database for easy and more accurate access to collection system information.
10. Training on excavating, trenching, shoring, and confined space entry.
11. Maintain a safe working environment for the employees and the general public in work zones.

WASTEWATER TREATMENT
2017-18 BUDGET
Dept. 36

MISSION STATEMENT

The mission statement of the Wastewater Treatment Department is to maintain proper, efficient operation and maintenance of the Wastewater Treatment Facility and to consistently discharge treated water which is in compliance with EPA and Texas commission on Environmental Quality permit requirements.

DESCRIPTION

The Wastewater Treatment Department is responsible for the maintenance and operation of two collection system lift stations and the Wastewater Treatment Plant and also the Prison Lift Station.

The Department is operated by Operations Management International, Inc. (OMI), and operates under permit #0010358-002 issued by Texas Natural Resource Conservation Commission and permit #TX0027618 issued by the U.S. EPA.

The Wastewater Treatment Plant is equipped with a bar screen, grit removal unit, oxidation ditch (which includes six aeration devises), two secondary clarifiers, a sludge thickener, three RAS pumps, one WAS pump, chlorine feed facilities, sulfur dioxide feed facilities, a chlorine contact/de-chlorination basin, two reuse pumps, 44,000 square feet of sludge drying beds and a 1-meter belt filter press sludge dewatering facility.

Current Permit limitations listed in the facilities NPDES permit for discharge into Red Deer Creek are as follows: Carbonaceous Biochemical Oxygen demand 10mg/L on a monthly average and 15 mg/L on a 7-day average; Total suspended Solids on a monthly average 15 mg/L and 25 mg/L on a 7-day average; Ammonia-Nitrogen on a monthly average 3 mg/L and 6 mg/L on a 7-day average. A minimum total chlorine residual of 1.0 mg/L is required in the effluent for disinfection. After disinfection, it is required that the effluent be de-chlorinated to a residual no greater than .099 mg/L.

The Wastewater Plant's Treatment capacity is 3.0 MGD with a peak hydraulic capacity of 6.0 MGD. Lagoons are available for storage of flows in excess of the plant capacity. The stored sewage can later be treated during normal plant flows.

The Department is staffed with one Project Manager (1/2 time spent on water filtration plant, booster station and wells), one lead operator, one operator, and one maintenance technician (3/4 time spent on water filtration, booster station and wells). Operator certifications are as follows: A=1, B=1 and C=1.

The operators at the wastewater plant have made it a goal to improve the facility appearance and look forward to the opportunity to show off the facility. Last year we had a couple of tours and the participants were impressed with the facility and the technology used. We hope by the time the same people come back we will impress them once again with new additions to the facility.

FUNDING

The plant is funded through the Enterprise Fund/Water and Wastewater with revenues generated from sewer collection fees.

GOALS AND OBJECTIVES

1. No permit violations.
2. Two operators will upgrade their certification.
3. We will have 80 hours of training for each operator consisting of technical and safety topics.
4. Continue improving facility appearance.
5. Review and recommend further improvements to existing plant infrastructure.
6. Increase security and improve remote monitoring capabilities.
7. Improve screening capabilities for the reuse water system.
8. Continue to find ways to reduce the cost of chemicals so savings can be passed back to the City.
9. Perform more tours and presentations in our endeavor to further educate the citizens of Pampa.

**MUNICIPAL GOLF COURSE
2017-18 BUDGET
DEPT. 39**

MISSION STATEMENT

The mission of Hidden Hills Public Golf Course is to promote golf in the City of Pampa and the surrounding area by providing a quality facility which offers a place for recreational enjoyment for all people and to stimulate economic development through a well maintained facility. To provide the best overall public golf course experience in the region. Our goal has always been to offer the best golf experience for the most affordable price to all citizens young and old. COME EXPERIENCE THE HILLS !!!

DESCRIPTION

The Hidden Hills Public Golf course has been constructed to provide recreation to the citizens of Pampa and Gray County. Prior to the construction of this golf course, residents of Pampa were required to travel a minimum of thirty miles to gain access to a public course.

Hidden Hills was designed and built by Ray Hardy and was built from the partnership of three parties, private donations and volunteers, Gray County, and the City of Pampa. Opened in 1990, Hidden Hills has become a popular place to play in the North Texas Region. The course offers over 100 feet of slope, deep valleys, extreme elevation changes, and a creek that winds through its back nine. Hidden Hills was recognized in 2014 as the 4th best economy course in the State of Texas by the Dallas Morning News.

An additional benefit of the golf course concerns economic development. A public facility makes the Pampa area more attractive to prospective businesses searching for an industrial location. The course will also provide permanent and seasonal employment and will serve to retain businesses in Pampa by providing a local alternative to golfers traveling out of the community. Since Hidden Hills opened in 1990, \$10,000,000 has been spent in Pampa from out of county play.

GOALS AND OBJECTIVES

1. Maintain or improve upon Three-star rating that Pampa Municipal Golf Course received in the 2009-2014 edition of Golf Digest Places to Play. A One-star rating is basic golf, a Two-star rating is good, not great but not a rip-off either; a Three-star rating is very good – Tell a friend it's worth getting off the highway to play; a Four-star rating is outstanding- Plan your next vacation around it, and a Five-star rating is golf at its absolute best – Pay any price at least once in your life.
 - a. Promote golf through the establishment of tournaments, lessons and free publicity.
 - b. Serve the public with a customer service oriented attitude and in a professional manner.
 - c. Rebuild 18 tee boxes and add water to all areas around the greens and along the fairways.
 - d. Continue tree program for the beauty and protection of the golf course.
 - e. Provide for additions to the irrigation system, and provide additional drainage and continue to improve quality of grass.
 - f. To become #1 economy course in Texas.

BUDGET HIGHLIGHTS

- The effluent water project with pipeline from the wastewater plant to the golf course which includes a 300,000 gallon water storage tank and new pump station which was completed in May 2002. Currently, Hidden Hills uses 100% reclaimed water.
- Hidden Hills has maintained a membership of 250 to 350 card holdings and rounds from 22,000 to 25,000 per year.
- Hidden Hills continues to strive to operate on a break even basis, and in the past have been within 10- 25 percent, revenue verses our cost to operate.

If the approved capital expenditure will incur the use of multiple vendors, invoices, and/or purchase orders, you may complete multiple sheets if you wish. If you use one sheet, you may complete multiple lines and keep updating the sheet as you request payment. Please remember if you have a "project" that is budgeted in the capital account, but you have small components that don't need to be capitalized, go ahead and pay it from the correct g/l account and do a budget adjustment for the change. It is very important for us to track everything, especially if we are using bond proceeds. REMINDER: Capital budgeting is very specific due to funding - changes/transfers must be approved.
