Notice About 2024 Tax Rates

Property tax rates in City of Humble.

This notice concerns the 2024 property tax rates for City of Humble. This notice provides information about two tax rates used in adopting the current tax year's tax rate. The no-new-revenue tax rate would impose the same amount of taxes as last year if you compare properties taxed in both years. In most cases, the voter-approval tax rate is the highest tax rate a taxing unit can adopt without holding an election. In each case, these rates are calculated by dividing the total amount of taxes by the current taxable value with adjustments as required by state law. The rates are given per \$100 of property value.

This year's no-new-revenue tax rate	\$0.242709/\$100
This year's voter-approval tax rate	\$0.252688/\$100

Unencumbered Fund Balance

The following estimated balances will be left in the taxing unit's accounts at the end of the fiscal year. These balances are not encumbered by corresponding debt obligation.

The purpose of the Public Hearing is to consider the City's Proposed Budget for Fiscal Year 2024-2025 and to allow members of the public to attend and participate in the meeting.

This budget will raise more revenue from property taxes than last year's budget by an amount of \$561,033, which is an 8.04 percent increase from last year's budget. The property tax revenue to be raised from new property added to the tax roll this year is \$65,415.

NOTICE OF PUBLIC HEARING ON TAX INCREASE

A tax rate of \$0.261476 per \$100 valuation has been proposed by the governing body of City of Humble.

PROPOSED TAX RATE	\$0.261476 per \$100
NO-NEW-REVENUE TAX RATE	\$0.242709 per \$100
VOTER-APPROVAL TAX RATE	\$0.252688 per \$100
DE MINIMIS RATE	\$0.261476 per \$100

The no-new-revenue tax rate is the tax rate for the 2024 tax year that will raise the same amount of property tax revenue for City of Humble from the same properties in both the 2023 tax year and the 2024 tax year.

The voter-approval rate is the highest tax rate that City of Humble may adopt without holding an election to seek voter approval of the rate, unless the de minimis rate for City of Humble exceeds the voter-approval rate for City of Humble.

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate for City of Humble, the rate that will raise \$500,000, and the current debt rate for City of Humble.

The proposed tax rate is greater than the no-new-revenue tax rate. This means that City of Humble is proposing to increase property taxes for the 2024 tax year.

A PUBLIC HEARING ON THE PROPOSED TAX RATE WILL BE HELD ON September 26, 2024 AT 6:30 pm AT City Hall 114 W. Higgins, Humble, Texas 77338.

The proposed tax rate is greater than the voter-approval tax rate but not greater than the de minimis rate and does not exceed the rate that allows voters to petition for an election under Section 26.075, Tax Code. If City of Humble adopts the proposed tax rate, the City of Humble is not required to hold an election so that voters may accept or reject the proposed tax rate and the qualified voters of the City of Humble may not petition the City of Humble to require an election to be held to determine whether to reduce the proposed tax rate.

YOUR TAXES OWED UNDER ANY OF THE RATES MENTIONED ABOVE CAN BE CALCULATED

To: Honorable Mayor and Council

From: Jason Stuebe, City Manager

Subject: City Manager's Budget Transmittal Message

Please accept this transmittal message with attached Fiscal Year 2024-2025 (FY25) proposed budget per state statute and the City of Humble Charter.

For the FY25 budget, City staff remains vigilant and conservative in forecasting proposed revenues, especially sales tax, which is our largest revenue source. As of the date of this transmittal it appears that the City will finish Fiscal Year 2023-2024 with near record sales tax collections in excess of \$17 million. However, the macro economic climate is uncertain with a potential slow down on the horizon; accordingly staff has projected sales tax revenues to be flat for FY25. With regard to the Ad Valorem taxes, this year's budget was prepared with an estimated tax rate of \$0.261476 based upon \$2.42 billion in assessed valuation with 100% of the rate going towards the operations and maintenance of the City. The rate represents an effective increase of 8.10%. The rate proposed in this budget is considered the De Minimis Tax Rate, which is the rate afforded to cities with less than 30,000 in population and does not raise more than \$500,000 in new tax revenue above what the No New Revenue Rate would be. While this is an increase in the tax rate, it is consistent with the Council and this Administration's efforts to bring the tax rate to a sustainable level in order to adequately fund our operations and plan for future growth and improvements – and remains one of the lowest in Harris County.

While revenues for the General, Special Revenue and Enterprise Funds are generally looking positive, the conclusion of the Red Light Camera Program will result in a \$3.5 million reduction in revenues. However, we maintain a healthy balance in the Red Light Camera Fund and should be able to continue funding our traffic enforcement operations from that fund for the next three to four years before fully absorbing those operations back into the general fund.

The total estimated beginning balances and revenues across all funds is projected to be \$126,380,013.

The budgeted expenditures across all funds for FY25, including capital outlay, totals \$82,498,756, which is a 19% decrease from the previous fiscal year. This is largely due to the completion of several major capital projects including Fire Station Number 2, the Senior Activity Center, S. Bender Avenue rehab and the reconfiguration of Main and S. Houston. This will leave us with an estimated surplus of \$43,881,257 year-end fund balance across all funds.

Specifically, with regard to the General Fund, expenditures total \$50,946,257 of which \$12,145,021 is capital outlay included in the operating expenses. The City will continue to maintain a healthy General Fund reserve as it is forecast to be \$36,467,006 or approximately 71% of annual expenditures inclusive of capital outlay. While the city maintains such high reserves over the minimum requirements, it may not be feasible to address all needs in the future as the City continues to grow and reinvest in itself. It is also important to note that capital projects are separated from the base budgets to adhere funds that are to be used for maintenance and operation versus expansion and addition. The spend down of the fund balance only includes one-time expenditures, as the proposed budget for the General Fund shows \$41,871,500 in new revenues vs. \$38,801,190 in operations and maintenance expenditures (recurring expenses), and therefore is fully balanced.

Overall, the FY 25 budget allows the City to continue to provide excellent service to our community, while continuing to have strong reserve balances that are well above the statutory requirement. This budget represents our collective commitment to investing in our community with an eye towards the future as it addresses numerous needs and long-overdue improvements throughout the city. The following items are highlights of the proposed budget:

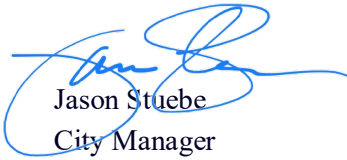

- Pursuant to a position class and compensation study, this budget recommends a 3% cost of living adjustment (COLA); the reclassification of 66 of the 103 individual job positions in the City; and a reformat of the City's current grade and step plan to a 21-step system from the existing 11-steps. The primary objective is to bring the midpoint of each position's pay grade to the 50th percentile of the existing market, which for the most part has been achieved. Those positions not reclassified will be eligible for performance based step increases in addition to the COLA. Front line / non-executive sworn positions in the Police, Fire and Fire Marshal Departments will receive both a grade adjustment as well as step increases in addition to the COLA. Total payroll equals 45% of the operations and maintenance expenditures across all funds.
- Personnel headcount was increased nominally with the addition of four new positions in the Administration, Police, and Building Maintenance Departments. There are recommended to be 275 total budgeted positions throughout the City.
- The proposed budget includes a significant investment in infrastructure including \$7.4 million in street projects, \$3.9 million in water projects, \$12.5 million in wastewater projects, and \$3.4 million in drainage projects.
- The City continues its efforts to improve our ability to fight crime and reduce the fear of crime as the proposed budget includes \$565,000 for the establishment of a real-time crime center and new tools, technologies and cameras that will greatly increase our ability to investigate and deter crimes.
- \$965,000 is budgeted to go towards improving IT capabilities, equipment and data security, updating our operating systems, and transitioning to new and more robust financial and court management software packages.
- Staff has worked intentionally to streamline and simplify the entire budget for better understanding and transparency by removing cumbersome transfers between funds and moving certain capital expenditures back into the individual department budgets from the Capital Projects Fund which is now reserved exclusively for grant, debt service or other

restricted fund related projects. Staff will continue to work through the upcoming fiscal year to further this endeavor by creating a new General Mobility Fund ahead of Fiscal Year 2026 in which all METRO General Mobility revenues and eligible operations / maintenance and capital expenses will be housed in.

The Fiscal Year 2025 Budget continues to adhere to several critical guidelines and policy directives that the City Council has traditionally demanded. The City remains in a very strong financial position, revenues are budgeted conservatively, which drives our conservative approach to budgeted expenditures in the face of growing costs. This year's budget remains balanced between revenues and recurring expenditures while providing for critical capital improvements and purchases. This budget also addresses our most valuable resource that we provide to our residents: our employees. By providing a COLA, enacting the findings of the recently completed compensation study and providing for merit-based step increases – the delivery of services to our residents will continue to be at the highest of standards and efficiency.

This Budget represents the culmination of months' worth of work put in by our department heads and the Finance Staff led by Christina Collins and Jessica Dyess, which cannot go unrecognized and celebrated. It is a budget that I believe enables the City to continue its path towards re-imagining itself as we approach the 100th anniversary of our incorporation and begins to chart a course for our next 100 years.

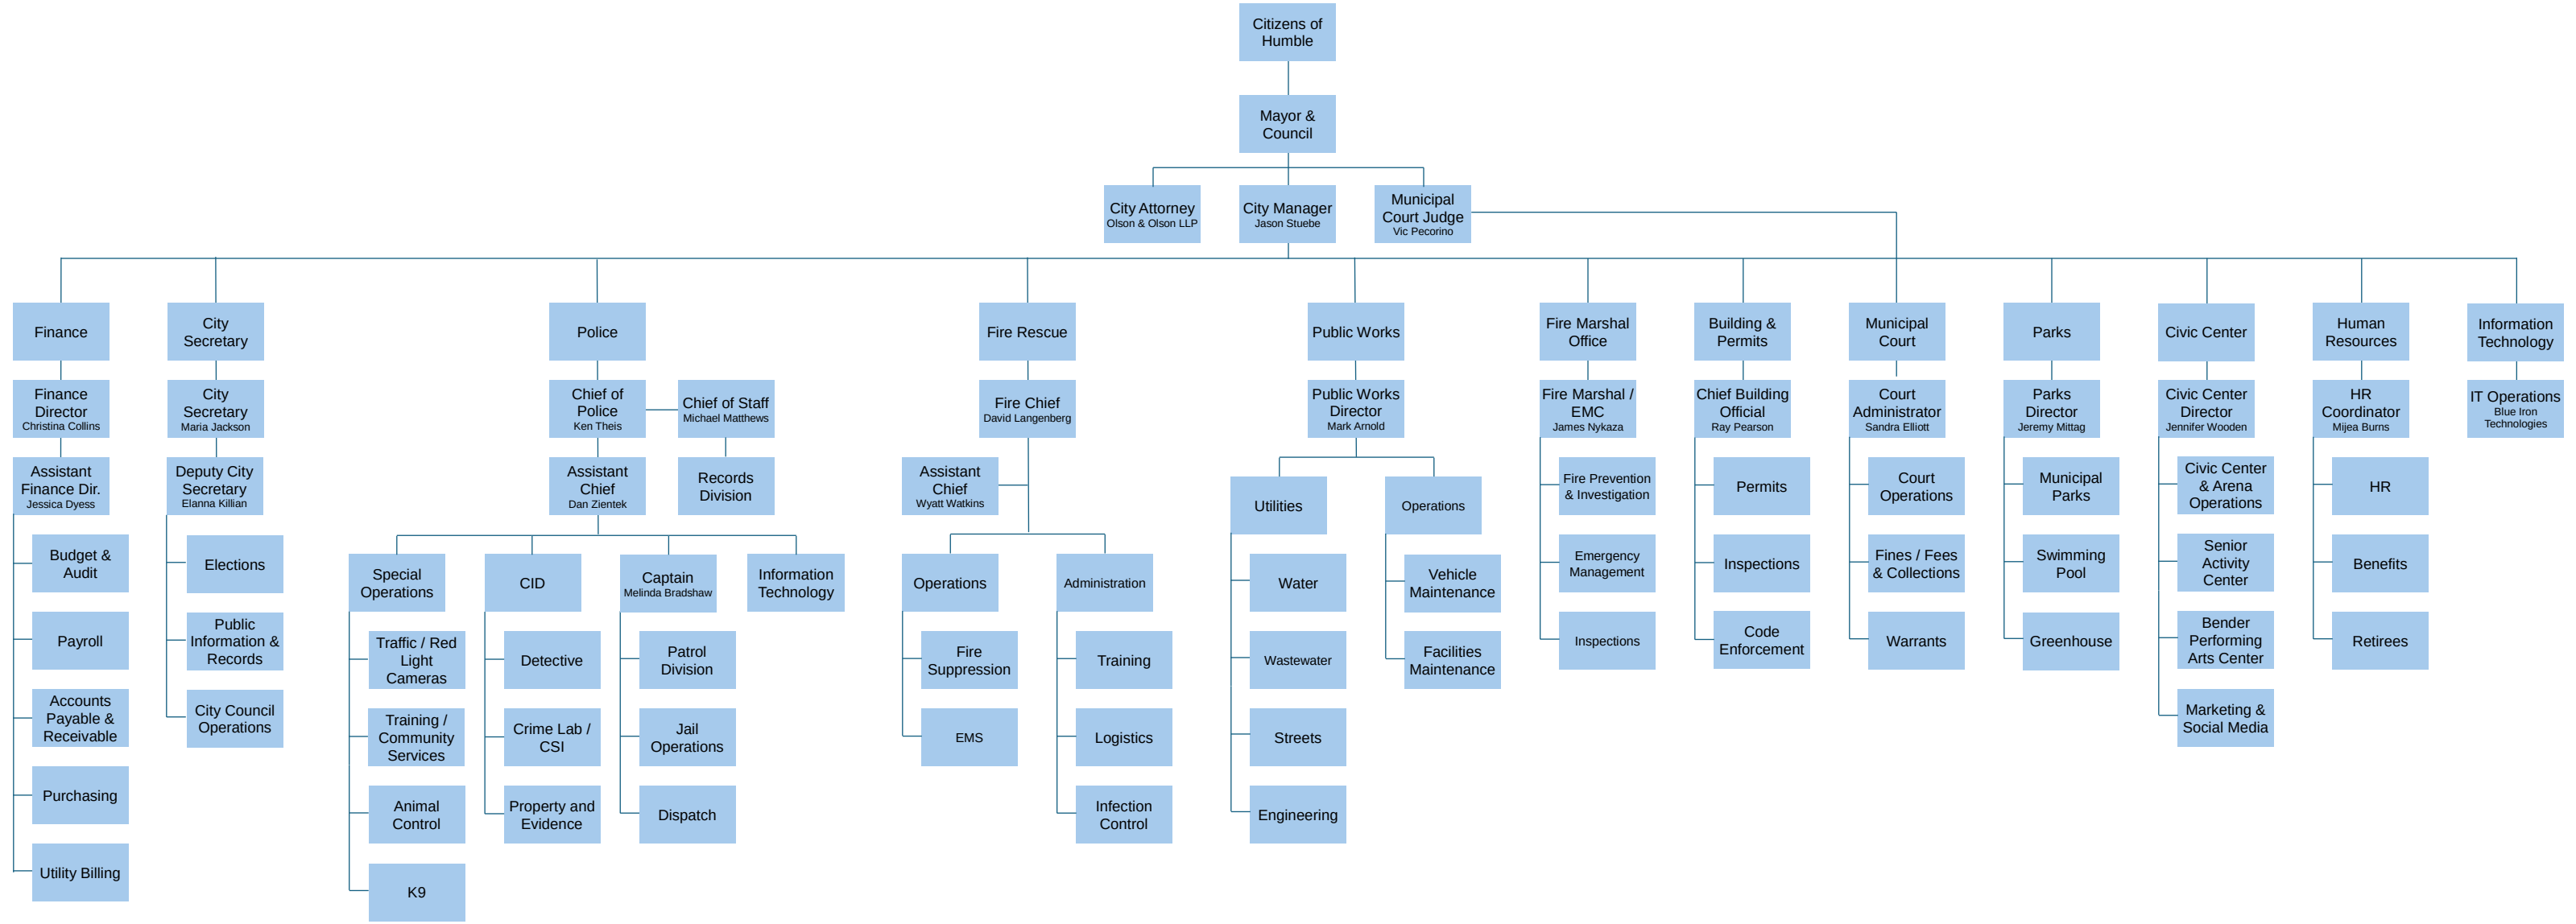

Respectfully submitted,

Jason Stuebe
City Manager
