Boots (Public Works)	PW Memo 2007-02-15		130.00			

ALTERNATE WORK SCHEDULES	AUTHORITY	HR/SHIFT	SCHEDULE
Fire	EPM	24	Firefighters and Captains work under an FLSA Section 207(k) alternative work schedule that is based on a 21 day work period with no Kelly Day in accordance with 29 CFR Sec. 553.230. The work schedule consists of 24 hours on duty and 48 hours of duty. Firefighters are paid for actual hours worked based on a 21 day work period. This regulation requires that overtime compensation is due after 159 hours have been worked in a 21 day work period, resulting in 9 hours of overtime every 21 days. Therefore, a work year consists of 2,764 regular hours plus 156 overtime hours, for a total work year of 2,920 hours. A 21 day work period includes 3 payroll cycles, each with fluctuating regular and overtime hours; however, the 3 payroll cycles yield the same number of regular hours and overtime hours.
Police	CBA	8	Work period consists of 7 calendar days resulting in a 40 hour work week. Overtime begins to accrue with the first hour worked after a regular work day and when performing unscheduled work without regard to whether 40 hours per week have been worked.
Police (TLGC Ch. 142.0015 Waiver)	CBA	12	Work period consists of 14 calendar days resulting in an 80 hour work period. Overtime begins to accrue with the 81st hour worked in a 14 day work period as a major of Police Officers have waived the prohibition in Texas Local Government Code, Section 142.0015(j), and have agreed that the City may adopt a work scheduled for Police Officers requiring a Police Officer to work more hours than permitted by Subsection (f).
Sanitation	EPM	8	Task Completion Method.
Water Plant Operators	EPM	12	Employees work one 44 hour work week (with 4 hours built-in OT) followed by one 36 hour week, for a combined total of 80 hours per payroll period. Employees work 1976 regular hours per year plus 104 hours built-in OT per year, for a total of 2,080 hours per year. (1976 @ 1x) + (104 @ 1.5x)
